Revolution Des Droits:

La Promotion de la Justice, Des Droits de L'homme Et Du Règlement Des Conflits Par Le Droit International

Marcelo Gustavo Kohen, 2007 This Liber Amicorum is published at the occasion of Judge Lucius Caflisch's retirement from a distinguished teaching career at the Graduate Institute of International Studies of Geneva where he served as Professor of International Law for more than three decades and where he has also held the position of Director. It was written by his colleagues and friends from the European Court of Human Rights from universities all around the world from the Swiss Foreign Affairs Ministry and many other national and international institutions. The Liber Amicorum Lucius Caflisch covers different fields in which Judge Caflisch has excelled in his various capacities as scholar, representative of Switzerland in international conferences, legal adviser of the Swiss Foreign Affairs Ministry, counsel, registrar, arbitrator and judge. This collective work is divided into three main sections. The first section examines questions concerning human rights and international humanitarian law. The second section is devoted to the international law of spaces including matters regarding the law of the sea, international waterways, Antarctica and boundary and territorial issues. The third section addresses issues related to the peaceful settlement of disputes both generally and with regard to any particular means of settlement. The contributions are in both English and French.

Human Rights and Humanity's Rights During Year Three of the French Revolution Eduardo Baker, 2022-06-22 This book explores the constitutional debates of the Year 3 of the French Revolution, also known as Year 1 of the French Republic, and the drafts for the Declaration and the Constitution of 1793. It presents the revolutionaries' distinct view on human rights and the rights of the peoples as well as their philosophical underpinnings. After discussing how contemporary legal history and theory and political philosophy approached the revolutionary period, the book tackles the main topics covered during the debates and proposals. Starting with the issue of external relations and the sovereignty of the people and ending with natural rights and Republicanism, this book shows how apparently technical questions such as what procedure should be implemented to declare a war are intertwined with philosophical reflections on rights and with problems that were urgent at the time.

ethnicity are interrogated but so too are conceptions and practices linked to citizenship community order security and freedom each in their way just as central to revolutionary experiences and equally amenable to critical analysis and reflection This Handbook covers the structural and political contexts that build up to give new views on the classic question of the origins of revolution the different dimensions of personal and social experience that illuminate the political moment of 1789 itself the goals and dilemmas of the period of constitutional monarchy the processes of destabilisation and ongoing conflict that ended that experiment the key issues surrounding the emergence and experience of terror and the short and long term legacies for both good and ill of the revolutionary trauma for France and for global politics

Thomas Paine and the French Revolution Carine Lounissi, 2018-06-12 This book explores Thomas Paine's French decade from the publication of the first part of Rights of Man in the spring of 1791 to his return trip to the United States in the fall of 1802 It examines Paine's multifarious activities during this period as a thinker writer member of the French Convention lobbyist adviser to French governments officious diplomat and propagandist Using previously neglected sources and archival material Carine Lounissi demonstrates both how his republicanism was challenged bolstered and altered by this French experience and how his positions at key moments of the history of the French experiment forced major participants in the Revolution to defend or question the kind of regime or of republic they wished to set up As a member of the Lafayette circle when writing the manuscript of Rights of Man of the Girondin constellation in the Convention one of the few democrats who defended universal suffrage after Thermidor and as a member of the Constitutional Circle which promoted a kind of republic which did not match his ideas Paine baffled his contemporaries and still puzzles the present day scholar This book intends to offer a new perspective on Paine and on how this major agent of revolutions contributed to the debate on the French Revolution both in France and outside France

A Revolution in Language Sophia A. Rosenfeld, Sophia Rosenfeld, 2003-08-01 What is the relationship between the ideas of the Enlightenment and the culture and ideology of the French Revolution This book takes up that classic question by concentrating on changing conceptions of language and especially signs during the second half of the eighteenth century The author traces first the emergence of a new interest in the possibility of gestural communication within the philosophy theater and pedagogy of the last decades of the Old Regime She then explores the varied uses and significance of a variety of semiotic experiments including the development of a sign language for the deaf within the language politics of the Revolution *A Revolution in Language* shows not only that many key revolutionary thinkers were unusually preoccupied by questions of language but also that prevailing assumptions about words and other signs profoundly shaped revolutionaries' efforts to imagine and to institute an ideal polity between 1789 and the start of the new century This book reveals the links between Enlightenment epistemology and the development of modern French political culture

Policing Public Opinion in the French Revolution Charles

Walton,2009-02-02 In the 1789 Declaration of the Rights of Man and of the Citizen French revolutionaries proclaimed the freedom of speech religion and opinion Censorship was abolished and France appeared to be on a path towards tolerance pluralism and civil liberties A mere four years later the country descended into a period of political terror as thousands were arrested tried and executed for crimes of expression and opinion In Policing Public Opinion in the French Revolution Charles Walton traces the origins of this reversal back to the Old Regime He shows that while early advocates of press freedom sought to abolish pre publication censorship the majority still firmly believed injurious speech or calumny constituted a crime even treason if it undermined the honor of sovereign authority or sacred collective values such as religion and civic spirit With the collapse of institutions responsible for regulating honor and morality in 1789 calumny proliferated as did obsessions with it Drawing on wide ranging sources from National Assembly debates to local police archives Walton shows how struggles to set legal and moral limits on free speech led to the radicalization of politics and eventually to the brutal liquidation of calumniators and fanatical efforts to rebuild society s moral foundation during the Terror of 1793 1794 With its emphasis on how revolutionaries drew upon cultural and political legacies of the Old Regime this study sheds new light on the origins of the Terror and the French Revolution as well as the history of free expression

The War Guilt Problem and the Ligue des droits de l'homme, 1914-1944 Norman Ingram,2019-01-31 The War Guilt Problem and the Ligue des droits de l'homme is a significant new volume from Norman Ingram addressing the history of the Ligue des droits de l'homme LDH an organisation founded in 1898 at the height of the Dreyfus Affair and which lay at the very centre of French Republican politics in the era of the two world wars Ingram posits that the Ligue s inability to resolve the question of war guilt from the Great War was what led to its decline by 1937 well before the Nazi invasion of May 1940 As well as developing our understanding of how the issue of war origins and war guilt transfixed the LDH from 1914 down to the Second World War this volume also explores the aetiology of French pacifism expanding on the differences between French and Anglo American pacifism It argues that from 1916 onwards one can see a principled dissent from the Union sacr e war effort that occurred within mainstream French Republicanism and not on the syndicalist or anarchist fringes Based on substantial research in a large number of French archives primarily in the papers of the LDH which were repatriated to France from the former Soviet Union in late 2001 but also on considerable new research in the German archives the book proposes a new explanatory model to help us understand some of the choices made in Vichy France moving beyond the usual triptych of collaboration resistance or accommodation

three parts of La Révolution française volume XIII of the series *Peuples et civilisations* Copyright page *Revolution as Reformation* Peter C. Messer, William Harrison Taylor, 2021-01-19 Essays that explore how Protestants responded to the opportunities and perils of revolution in the transatlantic age *Revolution as Reformation Protestant Faith in the Age of Revolutions 1688-1832* highlights the role that Protestantism played in shaping both individual and collective responses to revolution These essays explore the various ways that the Protestant tradition rooted in a perpetual process of recalibration and reformulation provided the lens through which Protestants experienced and understood social and political change in the Age of Revolutions In particular they call attention to how Protestants used those changes to continue or accelerate the Protestant imperative of refining their faith toward an improved vision of reformed religion The editors and contributors define faith broadly they incorporate individuals as well as specific sects and denominations and as much of life experience as possible not just life within a given church In this way the volume reveals how believers combined the practical demands of secular society with their personal faith and how in turn their attempts to reform religion shaped secular society The wide ranging essays highlight the exchange of Protestant thinkers traditions and ideas across the Atlantic during this period These perspectives reveal similarities between revolutionary movements across and around the Atlantic The essays also emphasize the foundational role that religion played in people's attempts to make sense of their world and the importance they placed on harmonizing their ideas about religion and politics These efforts produced novel theories of government encouraged both revolution and counterrevolution and refined both personal and collective understandings of faith and its relationship to society *Précis de la révolution de la Suisse: de Berne en particulier* Ferdinand de ROVÉREÁ, 1798 On the Spirit of Rights Dan Edelstein, 2018-12-14 By the end of the eighteenth century politicians in America and France were invoking the natural rights of man to wrest sovereignty away from kings and lay down universal basic entitlements Exactly how and when did rights come to justify such measures In *On the Spirit of Rights* Dan Edelstein answers this question by examining the complex genealogy of the rights that regimes enshrined in the American and French Revolutions With a lively attention to detail he surveys a sprawling series of debates among rulers jurists philosophers political reformers writers and others who were all engaged in laying the groundwork for our contemporary systems of constitutional governance Every seemingly new claim about rights turns out to be a variation on a theme as late medieval notions were subtly repeated and refined to yield the talk of rights we recognize today From the Wars of Religion to the French Declaration of the Rights of Man and of the Citizen to the 1948 Universal Declaration of Human Rights *On the Spirit of Rights* is a sweeping tour through centuries of European intellectual history and an essential guide to our ways of thinking about human rights today *Actes Du Sixième Colloque International Sur la Convention Européenne Des Droits de L'Homme* Council of Europe General Secretariat, 1988 02 Address by Mr M Oreja Revolution in Print Robert Darnton, Daniel Roche, New York Public Library, 1989-01-01 Explains the role of printing in the French Revolution and the establishment of the revolutionary government
