Russian Combat Methods In World War II:

Russian Combat Methods in World War II Department of the U S Army, Secretary of the Army, S. Dept of the A U. S. Dept of the Army, 2002-06-01 Originally published in 1950 this book was prepared by a committee of former German officers in late 1947 and early 1948 All of these officers had extensive experience on the eastern front during the period 1941-45 The principal author for example commanded in succession a panzer division a corps a panzer army and an army group The book was written by Germans from the German point of view Throughout this book Russian combat methods are evaluated in terms of German combat doctrine and Russian staff methods are compared to those of the German General Staff Organization equipment and procedures of the German and Russian Armies differed considerably from those of the United States Army Tactical examples in the text have been carefully dated and an effort has been made to indicate the progress of the Russian Army in overcoming the weaknesses noted in the early stages of the war *Russian Combat Methods in World War II*, 2003 **Russian Combat Methods in World War II**, 1950 **RUSSIAN COMBAT METHODS IN WORLD WAR II**. United States. Department of the Army, 1955 **Russian Combat Methods in World War II**, 1988 *Historical Study*, 1950 *The Soviet Infantryman on the Eastern Front* Simon Forty, 2025-08-05 A fully illustrated survey of the Soviet infantryman on the Eastern Front in World War II The Soviet Army was ill prepared for its ally's treacherous onslaught in 1941 Its officer corps decimated by Stalin's purges and its men less well trained than the Germans the Red Army was poorly led hampered by the power of the political officers and only partly mobilized But in spite of the huge German victories and the speed of the Nazi attack the Soviets proved fantastically capable of rolling with the punches The vast territory of the Soviet Union and huge population were significant as was substantial assistance from the West the United States and Britain in particular which was in evidence when the German columns got to within a few miles short of Moscow and were held and then forced back The tide turned thanks to help from outside and the efforts of the Soviet soldiers who proved hardy and durable And just like its soldiers Russian infantry equipment was rugged and effective While Soviet infantrymen may not have had the flexibility or tactical nous of the Germans they did not lack cunning deception camouflage skills and endurance made Russian snipers as an example more than the equal of the Germans Most of the views of the Soviet soldier and campaign are influenced by self-serving German postwar accounts designed to excuse their loss by suggesting that Adolf Hitler's meddling and Soviet numbers were the main reasons for victory this denigrates the Russian infantryman whose toughness and ingenuity helped destroy the Third Reich in spite of the faults of its own regime Fully illustrated with over 150 contemporary photographs and illustrations *Soviet Infantryman on the Eastern Front* in the Casemate Illustrated series provides an insight into the Soviets' main theater of operations in World War II **Military Publications**, 1977-03 *Military Publications* United States. Department of the Army, 1977 **Armor**, 1982 The magazine of mobile warfare *Fighting in Hell* Peter Tsouras, 2012-02-20 Detailed reports by German commanders Powerful testimony to the Germans

lack of preparation for the harsh climatic conditions of the Russian winter Military Machines International When their troops invaded the Soviet Union in 1941 the initial success convinced the German high command that the Red Army could be destroyed west of the Dnepr River and that there would be no need for conducting operations in cold snow and mud They were wrong In fact the German war in Russia was so brutal in its extremes that all past experience paled beside it Everything in Russia the land the climate the distances and above all the people were harder harsher more unforgiving and deadlier than anything the German soldier had ever faced before One panzer grenadier who fought in the West and in Russia summed it up In the West war was the same honorable old game nobody went out of his way to be vicious and fighting stopped often by five in the afternoon But in the East the Russians were trying to kill you all the time The four detailed reports of campaigning in Russia included in this invaluable book Russian Combat Methods in WWII Effects of Climate on Combat in European Russia Combat in Russian Forests and Swamps and Warfare in the Far North were written in the late 1940s and early 1950s as part of the US Army program to record the German strategies and tactics of World War II directly from the commanders The authors were all veterans of the fighting they described and frankly admitted that the soldiers sent to Russia were neither trained nor equipped to withstand the full fury of the elements Fighting in Hell shows what happened on the ground through firsthand accounts of the commanders who were there DA Pam ,1950 Variational Analysis and Applications F.

Operation Typhoon David Stahel,2015-01-22 In October 1941 Hitler launched Operation Typhoon the German drive to capture Moscow and knock the Soviet Union out of the war As the last chance to escape the dire implications of a winter campaign Hitler directed seventy five German divisions almost two million men and three of Germany s four panzer groups into the offensive resulting in huge victories at Viaz ma and Briansk among the biggest battles of the Second World War David Stahel s groundbreaking new account of Operation Typhoon captures the perspectives of both the German high command and individual soldiers revealing that despite success on the battlefield the wider German war effort was in far

greater trouble than is often acknowledged Germany's hopes of final victory depended on the success of the October offensive but the autumn conditions and the stubborn resistance of the Red Army ensured that the capture of Moscow was anything but certain

Red Army Weapons of the Second World War Michael Green, 2022-09-21

While the Red Army's arsenal at the start of the Second World War included weapons dating back to the Great War or earlier the 1930s modernization program had introduced the automatic Tokarev pistol and self-loading Tokarev rifle Its small arms were soon replaced by mass produced sub machine guns such as the PPSH 1941 nicknamed the PePeSha Supplementing the submachine guns the Degtyarev Light Machine Gun DP 27 Fitted with a circular pan magazine it received the not unsurprising nickname Record Player New mortars and towed artillery pieces ranging from 76mm to 203mm entered service in the pre war years In addition to a wide range of towed self propelled and anti tank guns the Soviets fielded the Katyusha rocket launchers in 1941 nicknamed the Stalin's organ by the Germans The 1930s saw the introduction of the BT light tank series The iconic T 34 medium tank series came into service in late 1940 joined by the IS 2 heavy tank from early 1944 the prefix letters IS translates to Joseph Stalin These formidable AFVs led the Red Army to victory in May 1945 over Nazi Germany All these weapons and more are covered with numerous images in this authoritative overview of the subject
