Russian Eurasian Renaissance Us Trade And Investment In Russia And Eurasia:

Russian-Eurasian Renaissance? Jan H. Kalicki, Eugene K. Lawson, 2003 This book presents an unprecedented dialogue with leading U S Russian and Eurasian economic experts and policy makers on the pivotal issues of economic reform trade and investment and the prospects for an economic renaissance in the new states of the former Soviet Union Contributors include Eduard Shevardnadze Yegor Gaidar Lee H Hamilton S Frederick Starr Anders Aslund and German O Gref Energy Security and Cooperation in Eurasia Ekaterina Svyatets, 2015-11-06 Why are bilateral relations especially in the area of energy security so different in the cases of U S Russia U S Azerbaijan and Russia Germany energy deals Why do some states find common ground despite differences while others with all the seemingly favourable conditions are sinking into animosity Energy Security and Cooperation in Eurasia explores varying outcomes of energy cooperation defined as diplomatic relations bilateral trade and investment in oil and natural gas The book looks at economic potential geopolitical rivalry and domestic interest groups in the cases of U S Russia U S Azerbaijan and Russia Germany energy ties It looks at major projects in each case Sakhalin and Arctic oil and gas production Baku Tbilisi Ceyhan and Nord Stream pipelines and activities of international oil companies The book also provides a detailed analysis of the situation in Ukraine since 2014 and Russia s annexation of Crimea and their effect on European energy security This book utilizes an innovative approach of exploring the dyads of states bilateral relations along the economic geopolitical and domestic lobbying dimensions This book is a valuable resource for graduate and undergraduate students academics and researchers in the areas of Security Political Economy Comparative Politics post Soviet studies as well as for general public Perspectives on Russian Foreign Policy (Enlarged Edition) Stephen J. Blank, Strategic Studies Institute, U.S. Army War College, 2013-05-21 The essays gathered here represent a panel at SSI s annual Russia conference in 2011 They focus on the analysis of Russian foreign policy both on its material side or actual conduct as well as on the cognitive bases of Russian thinking about international affairs and Russian national security They span much of the gamut of that foreign policy and also show its strong linkages to the Russian historical tradition and to the imperatives of Russian domestic development **Denying History: The United States' Policies Toward Russia in the Caspian Sea Region, 1991-2001.** Bradley Axmith, 2013-08 The historical record seen through Offensive Realism presents evidence illustrating that the United States approach toward the Caspian Sea region between 1991 and 2001 was governed by idealistic principles rather than balance of power considerations That was led by the false notion that democratic Russia would act in accordance with US goals The United States denied the competitive nature of international politics refusing to criticise abuses by Moscow in the region and failing to intervene when US interests were marginalised The US failed to prevent Russia from refashioning conditions conducive to the re absorption of the Caucasus and Central Asia as a sphere of influence nor did it account for China s expanded role and trajectory as a challenge to US power This analysis shows for example that Russia s proximity and willingness to use force exceeded the capabilities of the US use of its global

predominance to shape regional events Perspectives on Russian Foreign Policy ,2012 These chapters aimed at analyzing not just the day to day diplomacy but some of the deeper structures of Russian foreign policy both their material basis in actual policy and the cognitive structures or mentality that underlies it P v *The NATO-Russia Partnership* Stephen Blank,2006 Four years after the NATO Russia Council came into being it represents a picture in ambivalence and incomplete realization of partnership This monograph focuses on the Russian side of this growing estrangement It finds the Russian roots of this ambivalence or alienation in the increasingly visible manifestations of an autocratic and neo imperial Russian state and foreign and defense policy These strong trends in Russian policy inhibit the formation of a genuine security partnership that can provide for Eurasian security in the face of multiple contemporary threats Indeed it is debatable whether Russia really wants a comprehensive partnership with NATO The author examines Russia s perspectives in this relationship and this growing estrangement between the West and Russia tracing it to trends in Russian domestic defense and foreign policies *Baku-Tbilisi-Kars Railroad: The Iron Ground for the Silk Road* Mahir Humbatov,Nivedita Das Kundu,Murat Yulek,2014-09-09 After centuries long neglect land transportation corridors connecting Asia and Europe are on the brink of a re awakening From a level of practically zero a revived network of these land corridors is likely to garner a considerable share of the freight revenues emanating from increasing trade between Asia and Europe Therefore there is competition among major players for control in shaping of the Asia Europe railway transportation corridors However possibilities for cooperation exist as well In this book transportation corridors joining Asia and Europe are examined and evaluated at a general level Moreover the Baku Tbilisi Kars railway project is assessed from the perspectives of the 3 countries involved Azerbaijan Georgia and Turkey Further it has been proved that the road will strengthen regionalism and will increase the prospects for the three host countries to become a part of the corridors that are being developed globally Besides Baku Tbilisi Kars railway road will play a key role in helping to revive the Silk Road connection shaping common vision and facilitating in transforming the region The BTK transport corridor will be able to stimulate the development of non oil economy reviving the non oil trade and economic activities in the region restoring the historical position of the region as a commercial hub along the ancient silk ways By 2025 this region is expected to become prosperous financial sector for which comprehensive strategy is being formulated by the regional countries for sustainable growth **After Two Wars: Reflections on the American Strategic Revolution in Central Asia** ,2005 Since September 11 2001 the United States has fought two wars in Iraq and Afghanistan In these wars the United States has accomplished or more precisely revealed a strategic revolution Most notably U S led coalitions sustained forces in Central Asia and the Caucasus over an extended period by sea and air for the rst time in history Thus American leaders and commanders revealed that the new military capabilities hitherto associated with the Revolution in Military Affairs RMA could be deployed anywhere in the world that U S forces would and could be optimized for global power projection capabilities and that new theaters like Central Asia were of

considerable strategic importance to Washington Their actions rejected a parallel to the ongoing Revolution in Strategic Affairs RSA that reaffirmed the importance of that area as a potential theater of strategic operations a term taken originally from Soviet military thought ...
