**The Origins of Russian Literary Theory** Jessica Merrill,2022-07-15 Russian Formalism is widely considered the foundation of modern literary theory This book reevaluates the movement in light of the current commitment to rethink the concept of literary form in cultural historical terms Jessica Merrill provides a novel reconstruction of the intellectual historical context that enabled the emergence of Formalism in the 1910s Formalists adopted a mode of thought Merrill calls the philological paradigm a framework for thinking about language literature and folklore that lumped them together as verbal tradition For those who thought in these terms verbal tradition was understood to be inseparable from cultural history Merrill situates early literary theories within this paradigm to reveal abandoned paths in the history of the discipline ideas that were discounted by the structuralist and post structuralist accounts that would emerge after World War II The Origins of Russian Literary Theory reconstructs lost Formalist theories of authorship of the psychology of narrative structure and of the

social spread of poetic innovations According to these theories literary form is always a product of human psychology and cultural history By recontextualizing Russian Formalism within this philological paradigm the book highlights the aspects of Formalism's legacy that speak to the priorities of twenty first century literary studies **Russian Formalism.**
