*The Visual Dominant in Eighteenth-Century Russia* Marcus C. Levitt, 2011-10-01 The Enlightenment privileged vision as the principle means of understanding the world but the eighteenth century Russian preoccupation with sight was not merely a Western import In his masterful study Levitt shows the visual to have had deep indigenous roots in Russian Orthodox culture and theology arguing that the visual played a crucial role in the formation of early modern Russian culture and identity Levitt traces the early modern Russian quest for visibility from jubilant self discovery to serious reflexivity to anxiety and crisis The book examines verbal constructs of sight in poetry drama philosophy theology essay memoir that provide evidence for understanding the special character of vision of the epoch Levitt's groundbreaking work represents both a new reading of various central and lesser known texts and a broader revisualization of Russian eighteenth century culture Works that have considered the intersections of Russian literature and the visual in recent years have dealt almost exclusively with the modern period or with icons *The Visual Dominant in Eighteenth Century Russia* is an important addition to the scholarship and will be of major interest to scholars and students of Russian literature culture and religion and specialists on the Enlightenment

Mirsky, 2021-06-15 This book first published in 1949 is an abridged version of Mirsky's classic two texts on Russian literature updated with a postscript by the editor assessing the development of Soviet literature. Beautifully written, Mirsky's analyses of Russian writers and literature go hand in hand with his takes on Russian history. From the birth of Russian literature to its Soviet form, this book is a lively and comprehensive examination by one of its leading scholars. *The Patriotism of Despair*

Serguei Alex. Oushakine, 2011-02-23 The sudden dissolution of the Soviet Union altered the routines, norms, celebrations, and shared understandings that had shaped the lives of Russians for generations. It also meant an end to the state-sponsored nonmonetary support that most residents had lived with all their lives. How did Russians make sense of these historic transformations? Serguei Alex. Oushakine offers a compelling look at postsocialist life in Russia. In Barnaul, a major industrial city in southwestern Siberia that has lost 25 percent of its population since 1991, many Russians are finding that what binds them together is loss and despair. *The Patriotism of Despair* examines the aftermath of the collapse of the Soviet Union, graphically described in spray paint by a graffiti artist in Barnaul. We have no Motherland. Once socialism disappeared as a way of understanding the world, what replaced it in people's minds? Once socialism stopped orienting politics and economics, how did capitalism insinuate itself into routine practices? Oushakine offers a compelling look at postsocialist life in noncosmopolitan Russia. He introduces readers to the neocoms, people who mourn the loss of the Soviet economy and the remonetization of transactions that had not involved the exchange of cash during the Soviet era. Moving from economics into military conflict and personal loss, Oushakine also describes the ways in which veterans of the Chechen war and mothers of soldiers who died there have connected their immediate experiences with the country's historical disruptions. The country, the nation, and traumatized individuals, Oushakine finds, are united by their vocabulary of shared pain. **Times of Trouble**

Marcus C. Levitt, Tatyana Novikov, 2007 From the country that has added to our vocabulary such colorful terms as purges, pogroms, and gulag, this collection investigates the conspicuous marks of violence in Russian history and culture. Russians and non-Russians alike have long debated the reasons for this endemic violence. Some have cited Russia's huge size, unforgiving climate, and exposed geographical position as formative in its national character, making invasion easy and order difficult. Others have fixed the blame on cultural and religious traditions that spurred internecine violence, or on despotic rulers or unfortunate episodes in the nation's history, such as the Mongol invasion, the rule of Ivan the Terrible, or the Red Terror of the revolution. Even in contemporary Russia, the specter of violence continues from widespread mistreatment of women to racial

antagonism the product of a frustrated nationalism that manifests itself in such phenomena as the wars in Chechnya Times of Trouble is the first in English to explore the problem of violence in Russia From a variety of perspectives essays investigate Russian history as well as depictions of violence in the visual arts and in literature including the works of Fyodor Dostoevsky Isaac Babel Mikhail Lermontov and Nina Sadur From the Mongol invasion to the present day topics include the gulag genocide violence against women anti-Semitism and terrorism as a tool of revolution

**The Russian Revolution and Civil War 1917-1921** Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917-1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state

*The Russian Riddle*, 1918 Emma Goldman and the Russian Revolution Frank Jacob, 2020-11-23 What impact did Bolshevik rule have on Emma Goldman's perception of the Russian Revolutions of 1917 and why did she change her mind going from defending the Russian Revolution to becoming a crusader against Bolshevism The Russian Revolution changed the world and determined the history of the 20th century as the French Revolution had determined the history of the 19th century Left wing intellectuals around the world greeted the February Revolution with enthusiasm as their hope for a new world and social order and the end of capitalism seemed close However the joy did not last long as the ideals of February 1917 were replaced by the realities of October 1917 and Lenin crushed the revolution during the following Civil War Emma Goldman a famous Russian born American anarchist was one of the intellectuals whose admiration for the revolution turned into frustration about its corruption Emma Goldman and the Russian Revolution discusses her evolving perception of the revolution between 1917 and the early 1920s The analysis of such an intellectual transformation process provides a case study of intellectual and revolutionary history alike adding a closer reading to the research about the famous American anarchist Emma Goldman her transnational life and her role as a revolutionary intellectual
