Rowland, 2018-08-06 From the royal pew of Ivan the Terrible to Catherine the Great's use of landscape to the struggles between the Orthodox Church and preservationists in post Soviet Yaroslavl across five centuries of Russian history Russian leaders have used architecture to project unity identity and power Church architecture has inspired national cohesion and justified political control while representing the claims of religion in brick wood and stone The architectural vocabulary of the Soviet state celebrated industrialization mechanization and communal life Buildings and landscapes have expressed utopian urges as well as lofty spiritual goals Country houses and memorials have encoded their own messages In Architectures of Russian Identity James Cracraft and Daniel Rowland gather a group of authors from a wide variety of backgrounds including history and architectural history linguistics literary studies geography and political science to survey the political and symbolic meanings of many different kinds of structures Fourteen heavily illustrated chapters demonstrate the remarkable fertility of the theme of architecture broadly defined for a range of fields dealing with Russia and its surrounding territories The authors engage key terms in contemporary historiography identity nationality visual culture and assess the applications of each in Russian contexts **Forthcoming Books** Rose Arny, 1998-06 **Art Index** Alice Maria Dougan, Margaret Furlong, 1999 **Bibliographie D'histoire de L'art**, 1998 **Subject Guide to Books in Print**, 1971

The Routledge Handbook of EU-Russia Relations Tatiana Romanova, Maxine David, 2021-07-25 The Routledge Handbook of EU Russia Relations offers a comprehensive overview of the changing dynamics in relations between the EU and Russia provided by leading experts in the field Coherently organised into seven parts the book provides a structure through which EU Russia relations can be studied in a comprehensive yet manageable fashion It provides readers with the tools to deliver critical analysis of this sometimes volatile and polarising relationship so new events and facts can be

conceptualised in an objective and critical manner Informed by high quality academic research and key bilateral data statistics it further brings scope balance and depth with chapters contributed by a range of experts from the EU Russia and beyond Chapters deal with a wide range of policy areas and issues that are highly topical and fundamental to understanding the continuing development of EU Russia relations such as political and security relations economic relations social relations and regional and global governance The Routledge Handbook of EU Russia Relations aims to promote dialogue between the different research agendas in EU Russia relations as well as between Russian and Western scholars and hopefully also between civil societies As such it will be an essential reference for scholars students researchers policymakers and journalists interested and working in the fields of Russian politics studies EU studies politics European politics studies post Communist post Soviet politics and international relations The Routledge Handbook of EU Russia Relations is part of a mini series Europe in the World Handbooks examining EU regional relations established by Professor Wei Shen Theoretical and Practical Issues in the Implementation of the Current Ethiopian School Curriculum Derebssa Dufera,2008 *Новый мир искусства* ,2001 **Монография-конволют** ,2002 *Russian Constructivism & И[А]kov Chernikhov* Catherine Cooke,1989 Design Issues ,1999 *Special Relationships in World Politics* Kristin Haugevik,2018-09-03 Claims of inter state specialness are commonplace in international politics But how do some relationships between states come to be seen and categorized as special in the first place And what impact if any do recurring public representations of specialness have on states political and diplomatic interaction While much scholarly work exists on alleged instances of special relationships and on inter state cooperation and alliances more generally little systematic and theory informed research has been conducted on how special relationships evolve and unfold in practice This book offers such a comprehensive study Theorizing inter state relations as ongoing social processes it makes the case for approaching special relationships as constituted and upheld through linguistic representations and bilateral interaction practices Haugevik explores this claim through an in depth study of how the bilateral relationship most frequently referred to as special the US British has unfolded over the last seventy years This analysis is complemented with a study of Britain s relationship with a more junior partner Norway during the same period The book offers an original take on inter state relations and diplomacy during the Cold War and after and develops an analytical framework for understanding why some state relationships maintain their status as special while others end up as benignly neglected ones Digital Monuments Simone Brott,2019-09-18 Digital Monuments radically explodes iconic architecture of the new millennium and its hijacking of the public imagination via the digital image Hallucinatory constructions such as Rem Koolhaas s CCTV headquarters in Beijing Frank Gehry s Guggenheim Museum in Bilbao and Zaha Hadid s Performing Arts Centre in Abu Dhabi are all introduced to the world by immortal digital imagery that floods the internet yet comes to haunt the actualised buildings Like holograms these digital monuments which violently push physics and engineering to their limits flicker eerily between the real and the unreal invoking fantasies of omnipotence

immortality and utopian cities But this experience of iconic architecture as a digital dream on the ground conceals from the urban spectator the social reality of the buildings and the rigidity of their ideology In 18 micro essays Digital Monuments exposes the stereotypes of iconic architecture while depicting the savagery of the industry from the Greek and Spanish crises triggered by financialised iconic development to mass labour deaths on construction sites in the UAE
