Canadian Book Review Annual ,1993 Seniors' Access to Affordable Prescription Drugs United States. Congress. House. Committee on Commerce. Subcommittee on Health and the Environment,2000 Continuing the Care Eleanor Sawyer,Marion Stephenson,1995 *The Problem of Alzheimer's* Jason Karlawish,2021-02-23 A definitive and compelling

book on one of today's most prevalent illnesses. In 2020 an estimated 5.8 million Americans had Alzheimer's and more than half a million died because of the disease and its devastating complications. 16 million caregivers are responsible for paying as much as half of the \$226 billion annual costs of their care. As more people live beyond their seventies and eighties the number of patients will rise to an estimated 13.8 million by 2050. Part case studies, part meditation on the past, present and future of the disease, *The Problem of Alzheimer's* traces Alzheimer's from its beginnings to its recognition as a crisis. While it is an unambiguous account of decades of missed opportunities and our health care system's failures to take action, it tells the story of the biomedical breakthroughs that may allow Alzheimer's to finally be prevented and treated by medicine and also presents an argument for how we can live with dementia, the ways patients can reclaim their autonomy and redefine their sense of self, how families can support their loved ones and the innovative reforms we can make as a society that would give caregivers and patients better quality of life. Rich in science, history and characters, *The Problem of Alzheimer's* takes us inside laboratories, patients' homes, caregivers' support groups, progressive care communities and Jason Karlawish's own practice at the Penn Memory Center. **Vikalpa**, 2000. *Pinched* Susan Anne Ziebarth, 1996. **Congressional Record** United States. Congress, 2007.
