Sacred And Profane Memories:

Sacred and Profane Memories Carl Van Vechten, 1979-01-01 Narratives of Memory V. Stewart, 2006-10-12 This book identifies memory a previously unexamined concern in both literary and popular writing of the 1940s Emphasizing the use of memory as a structural device this book traces developments in narrative during and immediately after the war Authors include Margery Allingham Elizabeth Bowen Graham Greene Patrick Hamilton and Denton Welch **Monumental Rome** Charles Isidore Hemans, 1874 **Ancestral Memory in Early China** K.E. Brashier, 2020-10-26 Ancestral ritual in early China was an orchestrated dance between what was present the offerings and the living and what was absent the ancestors. The interconnections among the tangible elements of the sacrifice were overt and almost mechanical but extending those connections to the invisible guests required a medium that was itself invisible Thus in early China ancestral sacrifice was associated with focused thinking about the ancestors with a structured mental effort by the living to reach out to the absent forebears and to give them shape and existence Thinking about the ancestors about those who had become distant required active deliberation and meditation qualities that had to be nurtured and learned This study is a history of the early Chinese ancestral cult particularly its cognitive aspects Its goals are to excavate the cult's color and vitality and to guell assumptions that it was no more than a simplistic and uninspired exchange of food for longevity of prayers for prosperity Ancestor worship was not the author contends merely mechanical and thoughtless Rather it was an idea system that aroused serious debates about the nature of postmortem existence served as the religious backbone to Confucianism and may even have been the forerunner of Daoist and Buddhist meditation practices Waugh Without End Carlos Villar Flor, Carlos Villar, Robert Murray Davis, 2005 Compiled on the occasion of Evelyn Waugh's centenary in 2003 this collection of essays shows a renewed critical interest in the author extended by scholars from both sides of the Atlantic The contributions go back to an international symposium held at La Rioja University 15 17 May 2003 Apart from traditional debate over questions of fact and interpretation the book contains innovative approaches to Waugh's oeuvre some of which make use of theories of discourse and media studies and denote an increasingly sophisticated awareness of his religious political and social contexts Beginning with those essays presenting overviews of Waugh's life and work and continuing with discussions of particular books in chronological order this volume deals with a wide variety of aspects that confirm Waugh s rising status as a major twentieth century classic Allies in Memory Sam Edwards, 2015-03-02 Amidst the ruins of postwar Europe and just as the Cold War dawned many new memorials were dedicated to those Americans who had fought and fallen for freedom Some of these monuments plaques stained glass windows and other commemorative signposts were established by agents of the US government partly in the service of transatlantic diplomacy some were built by American veterans groups mourning lost comrades and some were provided by grateful and grieving European communities As the war receded Europe also became the site for other forms of American commemoration from the sombre and solemn battlefield

pilgrimages of veterans to the political theatre of Presidents to the production and consumption of commemorative souvenirs With a specific focus on processes and practices in two distinct regions of Europe Normandy and East Anglia Sam Edwards tells a story of postwar Euro American cultural contact and of the acts of transatlantic commemoration that this bequeathed

Time, Memory, and the Politics of Contingency Smita A. Rahman, 2014-07-11 In recent years there has been an increased attention to temporality in political theory and such attention is sorely needed For too long political theory with the exception of occasional phenomenological forays has remained grounded in a particular experience of time as linear and sequential This book aims to unsettle the dominant framework by putting time itself and the experience of time in everyday life at the center of its critical analysis Smita Rahman focuses on the experience of time as one where past present and future intermingle with each other and refuse to adhere to a sequential structure Rather than trying to tame the flux of time this book places this out of joint experience of time at the center of its analysis of global politics Rahman takes the highly abstract concept of time and decenters it to speak to a wide range of political issues across disciplines. She does so by exposing the cultural construction of the foundational concept of time in political theory and attending closely to the challenges of cultural incommensurability that it encounters in a globalized world of difference Specifically the book looks at interrogation practices in Afghanistan the challenges of coping with the burdens of collective memory in Algeria South Africa and Rwanda the difficulty of uncritically applying such a framework to the Muslim world through the language of secularism and finally at the beginnings of democratic emergence in Bangladesh to explore a politics of contingency By focusing on issues of contemporary global politics through the lens of political theory this book draws on literature across disciplines and explores the complex image of time by engaging the work of thinkers for whom time and memory have emerged as a critical issue of analysis and unpacking the politics of contingency that emerge from such a reading The book s new insights on political temporality will interest scholars of contemporary political theory comparative political theory critical theory human rights conflict studies and religion and politics *Culture, Madness and Wellbeing* Jason Lee, 2023-12-12 This book is a unique study of the historical theoretical and cultural interpretations of madness including interviews with those who have experiences of madness It takes a transdisciplinary approach employing historical psychological and sociological perspectives through an intersectional lens This work explains how the prioritization of thinking over feeling in Western thought means the transrational imagination has frequently been negated in tackling mental health with detrimental results This book therefore examines creative media especially film as a transrational form of human expression for healing and wellbeing along with television theatre social media music and computer games Madness with regards to gender sexuality adolescence and class in media and film is interrogated as well as madness and race through a focus on colonialism post colonialism and psychiatry It analyses group psychosis including celebrity culture and the madness ofleaders and gurus This book challenges the lasting influence of the Age of Reason by furthering our understanding of the value of transrationality

and the diverse ways of being human **Time and memory in reggae music** Sarah Daynes, 2013-07-19 On the basis of a body of reggae songs from the 1970s and late 1990s this book offers a sociological analysis of memory hope and redemption in reggae music From Dennis Brown to Sizzla the way in which reggae music constructs a musical religious and socio political memory in rupture with dominant models is vividly illustrated by the lyrics themselves How is the past remembered in the present How does remembering the past allow for imagining the future How does collective memory participate in the historical grounding of collective identity What is the relationship between tradition and revolution between the recollection of the past and the imagination of the future between passivity and action Ultimately this case study of memory at work opens up a theoretical problem the conceptualization of time and its relationship with memory The Labour of Memory M. Allen, 2014-12-02 This book presents a study of remembrance practices emerging after the 2005 London bombings Matthew Allen explores a range of cases that not only illustrate the effects of the organisation of remembrance on its participants but reveal how people engaged in memorial culture to address difficult and unbearable conditions in the wake of Evelyn Waugh and the Problem of Evil William Myers, 2025-07-01 Originally published in 1991 this elegantly written book offers new readers a useful approach to the work of Evelyn Waugh and will persuade those familiar with it to look at it afresh This introduction to Waugh's novels places them high in the catalogue of great fiction It claims for them an intellectual coherence subtlety and seriousness which Waugh's disconcerting comic gifts and extravagant public and writing persona have tended to put in the shade In addressing the nature of Waugh's comic writing William Myers has borrowed George Bataille's concept of Evil as a convenient way of dealing with the most troubling and exciting aspects of Waugh's work its sadism its childish irresponsibility its fascination with lunacy and death Historic and Monumental Rome a Handbook for the Students of Classical and Christian Antiquity in the Italian Capital by Charles Isidore Hemans Charles Isidore Hemans, 1874 The Vocation of Evelyn Waugh D. Marcel DeCoste, 2016-03-09 Arguing against the critical commonplace that Evelyn Waugh's post war fiction represents a decline in his powers as a writer D Marcel DeCoste offers detailed analyses of Waugh's major works from Brideshead Revisited to Unconditional Surrender Rather than representing an ill advised departure from his true calling as an iconoclastic satirist DeCoste suggests these novels form a cohesive artful whole precisely as they explore the extent to which the writer s and the Catholic s vocations can coincide For all their generic and stylistic diversity these novels pursue a new sustained exploration of Waugh's art and faith both As DeCoste shows Waugh offers in his later works an under remarked meditation on the dangers of a too avid devotion to art in the context of modern secularism forging in the second half of his career a literary achievement that both narrates and enacts a contrary and Catholic literary vocation Ethics and Nostalgia in the Contemporary Novel John J. Su, 2005-11-24 Images of loss and yearning played a crucial role in literary texts written in the later part of the twentieth century Despite deep cultural differences novelists from Africa the Caribbean Great Britain and the United States share a sense that the economic social

and political forces associated with late modernity have evoked widespread nostalgia within the communities in which they write In this original and wide ranging study John J Su explores the relationship between nostalgia and ethics in novels across the English speaking world He challenges the tendency in literary studies to characterise memory as positive and nostalgia as necessarily negative Instead this book argues that nostalgic fantasies are crucial to the ethical visions presented by topical novels From Jean Rhys to Wole Soyinka and from V S Naipaul to Toni Morrison Su identifies nostalgia as a central concern in the twentieth century novel The Politics of Public Memory in Turkey Esra Özyürek, 2007-01-18 Turkish society is frequently accused of having amnesia It has been said that there is no social memory in Turkey before Mustafa Kemal Atat rk founded modern Turkey after World War I Indeed in 1923 the newly founded Turkish Republic committed to a modernist future by erasing the memory of its Ottoman past Now almost eighty years after the establishment of the republic the grandchildren of the founders have a different relationship with history New generations make every effort to remember record and reconcile earlier periods The multiple personalized representations of the past that they have recovered allow contemporary Turkish citizens to create alternative identities for themselves and their communities Unlike its futuristic and homogenizing character at the turn of the twentieth century Turkish nationalism today uses memory to generate varied narratives for the nation and its minority groups Contributors to this volume come from such diverse disciplines as anthropology comparative literature and sociology but they share a common understanding of contemporary Turkey and how its different representations of the past have become metaphors through which individuals and groups define their cultural identity and political position. They explore the ways people challenge reaffirm or transform the concepts of history nation homeland and Republic through acts of memory effectively demonstrating that memory can be both the basis of cultural reproduction and a form of resistance Vodou in Haitian Memory Celucien L. Joseph, Nixon S. Cleophat, 2016-05-12 Throughout Haitian history from 17th century colonial Saint Domingue to 21st century postcolonial Haiti arguably the Afro Haitian religion of Vodou has been represented as an unsettling faith and a cultural paradox as expressed in various forms and modes of Haitian thought and life including literature history law politics painting music and art Competing voices and conflicting ideas of Vodou have emerged from each of these cultural symbols and intellectual expressions The Vodouist discourse has not only pervaded every aspect of the Haitian life and experience it has defined the Haitian cosmology and worldview Further the Vodou faith has had a momentous impact on the evolution of Haitian intellectual aesthetic and literary imagination comparatively Vodou has shaped Haitian social ethics sexual and gender identity and theological discourse such as in the intellectual works and poetic imagination of Jean Price Mars Dantes Bellegarde Jacques Roumain Jacques Stephen Alexis etc Similarly Vodou has shaped the discourse on the intersections of memory trauma history collective redemption and Haitian diasporic identity in Haitian women's writings such as in the fiction of Edwidge Danticat Myriam Chancy etc The chapters in this collection tell a story about the dynamics of the Vodou faith and the rich ways Vodou has molded the Haitian
