journey through the divine realms of Japanese mythology A History of the World in 100 Objects Neil MacGregor, 2011-10-06 This book takes a dramatically original approach to the history of humanity using objects which previous civilisations have left behind them often accidentally as prisms through which we can explore past worlds and the lives of the men and women who lived in them The book's range is enormous It begins with one of the earliest surviving objects made by human hands a chopping tool from the Olduvai gorge in Africa and ends with an object from the 21st century which represents the world we live in today Neil MacGregor's aim is not simply to describe these remarkable things but to show us their significance how a stone pillar tells us about a great Indian emperor preaching tolerance to his people how Spanish pieces of eight tell us about the beginning of a global currency or how an early Victorian tea set tells us about the impact of empire Each chapter immerses the reader in a past civilisation accompanied by an exceptionally well informed guide Seen through this lens history is a kaleidoscope shifting interconnected constantly surprising and shaping our world today in ways that most of us have never imagined An intellectual and visual feast it is one of the most engrossing and unusual history books published in years **The Sacred Mirror** Director of Palliative Medicine Professor of Oncology Thomas Smith, 2016-05-07 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Mirror Facts** Amelia Khatri, AI, 2025-02-18 Mirror Facts explores the surprising intersection of science history and culture found in the everyday object of the mirror It examines not only the physics of how mirrors reflect light based on principles of optics and material science but also how mirror technology has evolved from early polished stones found in archaeological findings to the high tech reflective surfaces we use today Did you know that the development of silvering techniques was a pivotal moment in creating clearer more effective mirrors The book traces a logical progression starting with the fundamental laws of reflection and then moving through a chronological history of mirrors across civilizations It shows how these reflective surfaces have been imbued with cultural symbolism appearing in art literature and even mythology Exploring this cultural symbolism highlights the fascinating ways different societies view mirrors from tools for self reflection to portals in folklore Mirror Facts takes a unique approach by blending scientific accuracy with historical context and cultural insights By

Introduction to Japanese Architecture Michiko Kimura Young, David Young, 2012-10-30 Introduction to Japanese Architecture provides an overview of Japanese architecture in its historical and cultural context It begins with a discussion of prehistoric dwellings and concludes with a description of contemporary trends in areas as diverse as country inns underground malls and love hotels The intervening 12 000 years are analyzed in reference to major changes in architecture caused by Buddhist and indigenous influences feudalism and finally the influence of Western culture in the 19th century The architecture book provides insights into the dynamic nature of this contrast and how it reflects the underlying diversity of Japanese culture The comprehensive accessible text is complemented by over 340 color photographs diagrams and specially commissioned watercolors

From Sovereign to Symbol Thomas Conlan, 2011-11-10 Fourteenth century Japan witnessed a fundamental political and intellectual conflict about the nature of power and society a conflict that was expressed through the rituals and institutions of two rival courts Rather than understanding the collapse of Japan's first warrior government the Kamakura bakufu and the onset of a chaotic period of civil war as the manipulation of rival courts by powerful warrior factions this study argues that the crucial ideological and intellectual conflict of the fourteenth century was between the conservative forces of ritual precedent and the ritual determinists steeped in Shingon Buddhism Members of the monastic nobility who came to dominate the court used the language of Buddhist ritual including incantations mantras gestures mudras and cosmograms mandalas projected onto the geography of Japan to uphold their bids for power Sacred places that were ritual centers became the targets of military capture precisely because they were ritual centers Ritual was not simply symbolic rather ritual became the orchestration or actual dynamic of power in itself This study undermines the conventional wisdom that Zen ideals linked to the samurai were

responsible for the manner in which power was conceptualized in medieval Japan and instead argues that Shingon ritual specialists prolonged the conflict and enforced the new notion that loyal service trumped the merit of those who simply requested compensation for their acts Ultimately Shingon mimetic ideals enhanced warrior power and enabled Shogun Ashikaga Yoshimitsu rather than the reigning emperor to assert sovereign authority in Japan **Takeuchi Documents II**

Kosaka Wado,2017-09-27 A considerable number of maps relating to round the world trips made by Heavenly Emperors in spaceships in an extremely ancient age are just a few of the things to be found among the Takeuchi Documents that have only recently come to light after being secretly buried underground and guarded for over 1500 years by sixty seven generations of superintendent priests in the Koso Kotai Jingu shrine in Japan *Transactions of the Asiatic Society of Japan*
