Sacred Time:

In Search of Sacred Time Jacques Le Goff, 2014-02-23 How The Golden Legend shaped the medieval imagination It is impossible to understand the late Middle Ages without grasping the importance of The Golden Legend the most popular medieval collection of saints lives Assembled for clerical use in the thirteenth century by Genoese archbishop Jacobus de Voragine the book became the medieval equivalent of a best seller By 1500 there were more copies of it in circulation than there were of the Bible itself Priests drew on The Golden Legend for their sermons the faithful used it for devotion and piety and artists and writers mined it endlessly in their works In Search of Sacred Time is the first comprehensive history and interpretation of this crucial book Jacques Le Goff one of the world's most renowned medievalists provides a lucid compelling and unparalleled account of why and how The Golden Legend exerted such a profound influence on medieval life In Search of Sacred Time explains how The Golden Legend an encyclopedic work that followed the course of the liturgical calendar and recounted the life of the saint for each feast day worked its way into the fabric of medieval life Le Goff describes how this ambitious book was carefully crafted to give sense and shape to the Christian year underscoring its meaning and drama through the stories of saints miracles and martyrdoms Ultimately Le Goff argues The Golden Legend influenced how medieval Christians perceived the passage of time Christianizing time itself and reconciling human and divine temporality Authoritative eloquent and original In Search of Sacred Time is a major reinterpretation of a book that is central to comprehending the medieval imagination Young Children and Worship Sonja M. Stewart, Jerome W.

discover important theories with which to make sense of the complexity of our daily lives Book jacket **Time** Joel Burges, Amy Elias, 2016-08-02 The critical condition and historical motivation behind Time Studies The concept of time in the post millennial age is undergoing a radical rethinking within the humanities Time A Vocabulary of the Present newly theorizes our experiences of time in relation to developments in post 1945 cultural theory and arts practices Wide ranging and theoretically provocative the volume introduces readers to cutting edge temporal conceptualizations and investigates what exactly constitutes the scope of time studies Featuring twenty essays that reveal what we talk about when we talk about time today especially in the areas of history measurement and culture each essay pairs two keywords to explore the tension and nuances between them from past future and anticipation unexpected to extinction adaptation and serial simultaneous Moving beyond the truisms of postmodernism the collection newly theorizes the meanings of temporality in relationship to aesthetic cultural technological and economic developments in the postwar period This book thus assumes that time not space as the postmoderns had it is central to the contemporary period and that through it we can come to terms with what contemporaneity can be for human beings caught up in the historical present In the end Time reveals that the present is a cultural matrix in which overlapping temporalities condition and compete for our attention Thus each pair of terms presents two temporalities yielding a generative account of the time or times in which we live Setting the Spiritual Clock Paul Louis Metzger, 2020-11-15 Various Christian traditions mark their calendars to reflect the biblical and ecclesial narrative and enhance public worship Such efforts safeguard against secularization s encroachment in the church s life Setting the Spiritual Clock serves as a guide and traveling companion for the liturgical year which circles the glorious Son as he breaks through the secular eclipse **Religion on the Battlefield** Ron E. Hassner, 2016-05-18 How does religion shape the modern battlefield Ron E Hassner proposes that religion acts as a force multiplier both enabling and constraining military operations This is true not only for religiously radicalized fighters but also for professional soldiers In the last century religion has influenced modern militaries in the timing of attacks the selection of targets for assault the zeal with which units execute their mission and the ability of individual soldiers to face the challenge of war Religious ideas have not provided the reasons why conventional militaries fight but religious practices have influenced their ability to do so effectively In Religion on the Battlefield Hassner focuses on the everyday practice of religion in a military context the prayers rituals fasts and feasts of the religious practitioners who make up the bulk of the adversaries in bystanders to and observers of armed conflicts To show that religious practices have influenced battlefield decision making Hassner draws most of his examples from major wars involving Western militaries They include British soldiers in the trenches of World War I U S pilots in World War II and U S Marines in Iraq and Afghanistan Hassner shows that even modern rational and bureaucratized military organizations have taken and must take religious practice into account in the conduct of war *Divine Word and Prophetic Word in Early Islam* William Albert Graham, 1977 The series Religion and Society RS contributes to the exploration of

religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series

Neusner,2007-04-01 The history of Jews from the period of the Second Temple to the rise of Islam From A History of the Mishnaic Law of Appointed Times Part 1 This volume introduces the sources of Judaism in late antiquity to scholars in adjacent fields such as the study of the Old and New Testaments Ancient History the ancient Near East and the history of religion In two volumes leading American Israeli and European specialists in the history literature theology and archaeology of Judaism offer factual answers to the two questions that the study of any religion in ancient times must raise The first is what are the sources written and in material culture that inform us about that religion The second is how have we to understand those sources in reconstructing the history of various Judaic systems in antiquity The chapters set forth in simple statements intelligible to non specialists the facts which the sources provide Because of the nature of the subject and acute interest in it the specialists also raise some questions particular to the study of Judaism dealing with its historical relationship with nascent Christianity in New Testament times The work forms the starting point for the study of all the principal questions concerning Judaism in late antiquity and sets forth the most current critical results of scholarship

Time to Write John Sylvester Lofty,2015-02-10 Analyzes interviews with students teachers and administrators to develop a new set of literacies essential for student success in the digital age To read John s work is to take on the role of a patient listener A book like a piece of music is scored for time and I feel Time to Write is scored adagio I believe that Time to Write can be read as a critique of the time chopping approach to education and an argument for presence for being fully open to experience for being there To do good work we must enter something like island time or what John calls existential time or what is sometimes called flow when we lose at least temporarily a sense of clock time from the Foreword by Thomas Newkirk Twenty five years ago John Sylvester Lofty studied the influence of cultural time values on students resistance to writing instruction in an isolated Maine fishing community For the new edition of Time to Write Lofty returned to the island to consider how social and educational developments in the intervening years may have affected both local culture and attitudes toward education Lofty discovered how the island time values that previously informed students literacy learning have been transformed by outside influences including technology social media and the influx of new residents from urban areas Building on the ethnographic findings of the original study the new edition analyzes the current conflict between the digital age time values of constant connections and instant communication and those of school based literacy Lofty examines the

new literacies now essential for students in a technologically connected world both those who aspire to continue the traditional island work of lobster fishing and for the many who now choose to pursue other careers and attend college on the mainland

The Three Temples Rachel Elinor, 2004-03-01 Rachel Elinor demonstrates convincingly how the Jewish mystical tradition crystallized in its early stages. She attributes its origins to priests prevented by circumstances from serving in the Temple, replacing the earthly Temple liturgically and ritually with a heavenly Merkavah and heavenly sanctuaries known as Heikhalot. They created a mystical world in which ministering angels replaced Temple priests, thereby giving Judaism a new spiritual focus.

Heaven's Gates and Hell's Flames Savio Abreu, 2019-12-10 Pentecostal Charismatic Christianity is one of the largest religious movements in the world today. It is a recent form of Christianity that emphasizes direct personal experience of God through baptism with the Holy Spirit. While the literature on Pentecostalism is constantly rising, they mostly focus on Western societies and are from a theological perspective. There is a dearth of well-researched studies that critically analyse the phenomenon of Pentecostal Charismatic Christianity in India. Addressing this gap, *Heaven's Gates and Hell's Flames* focuses on groups at the periphery of the religious space in Goa while locating them within Christianity globally. It broadens our understanding of Pentecostal Charismatic Christianity in Goa as a rapidly expanding and overtly evangelistic movement within a pluralist non-Christian society. Abreu assesses the impact of religion on society, analysing how the symbols, beliefs, rituals, and organizational structure of the neo-Pentecostal sects and the Catholic Charismatic Renewal influence religious identities, world views, and the everyday life activities of individual adherents. This the author does by drawing on extensive fieldwork, concepts, analyses, and interpretations provided by scholars of religion in sociology, anthropology, history, as well as theology.

Classic Concepts in Anthropology Valerio Valeri, 2017-12-15 The late anthropologist Valerio Valeri (1944-98) was best known for his substantial writings on societies of Polynesia and eastern Indonesia. This volume, however, presents a lesser-known side of Valeri's genius through a dazzlingly erudite set of comparative essays on core topics in the history of anthropological theory. Offering masterly discussions of anthropological thought about ritual, fetishism, cosmogonic myth, belief, caste, kingship, mourning, play, feasting, ceremony, and cultural relativism, *Classic Concepts in Anthropology* will be an eye-opening, essential resource for students and researchers not only in anthropology but throughout the humanities.

Hitchhikers Guide to Evangelism, **Religious Cycles** Theresa Walton, AI, 2025-03-04 *Religious Cycles* explores how calendars have profoundly shaped religious beliefs and practices across diverse faiths and historical periods. The book argues that religious calendars are not merely time-tracking tools but powerful instruments that shape religious consciousness and social behavior. Calendars define religious identity, reinforce communal solidarity, and link religious life to the natural world. The book begins with an introduction to key

concepts like the sacred year and holy days Then it analyzes solar calendars such as those used in ancient Egypt and Mesopotamia highlighting the integration of agricultural cycles into religious practices Next the book examines lunar calendars focusing on the Islamic calendar and its impact on religious festivals Finally it explores lunisolar calendars using the Jewish calendar as an example of balancing lunar months with the solar year This book stands out by examining religious calendars as dynamic evolving systems shaped by both astronomical events and sociocultural needs By tracing the development and diffusion of calendrical practices Religious Cycles ultimately reveals how calendars have served as linchpins in preserving cultural continuity and fostering social cohesion within religious communities

Sacred Time and the Search for Meaning Gary Eberle, 2002-12-24 In Sacred Time and the Search for Meaning author Gary Eberle contemplates how humans view of time has evolved throughout history how we came to measure time and why we feel especially starved for it now Eberle seeks to rediscover a renewed sense of meaning in life through looking for ways to enter the realm of sacred time or sabbath time where we can reconnect with the slower deeper rhythms of life that have traditionally been experienced through worship prayer and the observance of holy days Drawing from the work of Western philosophers from Aristotle to Heidegger and on theorists from Jung to Foucault he presents both an intellectual history of time and a personal account of his own search for sacred time Along the way he formulates an insightful analysis of our culture's obsession with speed and efficiency and he offers guidance for slowing down to savor life outside of schedules and routines showing the way toward finding fulfillment in this increasingly accelerated world

The SAGE Encyclopedia of Intercultural Competence Janet M. Bennett, 2015-03-23 In 1980 SAGE published Geert Hofstede's Culture's Consequences It opens with a quote from Blaise Pascal There are truths on this side of the Pyrenees that are falsehoods on the other The book became a classic one of the

This new SAGE Encyclopedia of Intercultural Competence picks up on themes explored in that book. Cultural competence refers to the set of attitudes, practices, and policies that enables a person or agency to work well with people from differing cultural groups. Other related terms include cultural sensitivity, transcultural skills, diversity competence, and multicultural expertise. What defines a culture? What barriers might block successful communication between individuals or agencies of differing cultures? How can those barriers be understood and navigated to enhance intercultural communication and understanding? These questions and more are explained within the pages of this new reference work.

Between Israel and God Jacob Neusner, 2000. The Halakhah embodies the complete Jewish Law and contains commandments and guidelines for day-to-day living. The original commandments given by God to the Jewish people were enhanced by rabbis to offer a detailed framework to guide the lives of all Jews. In this complete and encompassing encyclopaedia of the Halakhah, the various laws are classified in such a way that a systematic and coherent structure is obtained. Each entry of the Halakhah is presented in a logical fashion. Where applicable, the original biblical wording is given, extended with literal abstracts from the Torah. Next, problems and questions that may arise from that law are stated, and any additional information given. Finally, each entry gives comprehensive explanations and recommendations as to how these laws are to be observed in daily life: where to be and where not to be, what to do and what not to do, what to say and what not to say. The Halakhah or standard Jewish Law combines the Mishnah (about 200 CE), the Tosefta (about 300 CE), and the two Talmuds (about 400-600 CE) for the Land of Israel and Babylon respectively. Volumes I and II contain entries pertaining to the Jewish people in relationship to God. Volume III explains how the Jewish people can restore and maintain their society in accordance with the Torah as it is explained by the rabbis. In Volumes IV and V of this study, we take up the life of the Jewish household in their encounter with God. The Encyclopaedic account therefore moves from regulating relationships between Israel and God to establishing stable and equitable relationships among Israelites and finally to actually living the Halakhah.
