Dominic Hardy, Annie Gérin, Lora Senechal Carney, 2018-06-08 Canadian readers have enjoyed their own graphic satire since colonial times and Canadian artists have thrived as they took aim at the central issues and figures of their age. Graphic satire, a combination of humorous drawing and text that usually involves caricature, is a way of taking an ethical stand about contemporary politics and society. First appearing in short-lived illustrated weeklies in Montreal, Quebec City and Toronto in the 1840s, usually as unsigned copies of engravings from European magazines, the genre spread quickly as skilled local illustrators, engravers, painters and sculptors joined the teams of publishers and writers who sought to shape public opinion and public policy. A detailed account of Canadian graphic satire, *Sketches from an Unquiet Country*, looks at a century bookended by the aftermath of the 1837-38 Rebellions and Canada's entry into the Second World War. As fully fledged artist commentators, Canadian cartoonists were sometimes gently ironic but they were just as often caustic and violent in the pursuit of a point of view. This volume shows a country where conflicts crop up between linguistic and religious communities, a country often resistant to social and political change for women and open to the cross-currents of anti-Semitism, xenophobia and fascism that flared across Europe and North America in the early twentieth century. Drawing on new scholarship by researchers working in art history, material culture and communication studies, *Sketches from an Unquiet Country* follows the fortunes of some of the artists and satiric themes that were prevalent in the centres of Canadian publishing.

Phenomenology, Modernism and Beyond Carole Bourne-Taylor, Ariane Mildenberg, 2010 From the first stirrings of modernism to contemporary poetics, the modernist aesthetic project could be described as a form of phenomenological reduction that attempts to return to the invisible and unsayable foundations of human perception and expression prior to objective points of view and scientific notions. It is this aspect of modernism that this book brings to the fore. The essays presented here bring into focus the contemporary face of ongoing debates about phenomenology and modernism. The contributors forcefully underline the intertwining of modernism and phenomenology and the extent to which the latter offers a clue to the former. The book presents the viewpoints of a range of internationally distinguished critics and scholars with diverse but closely related essays covering a wide range of fields including literature, architecture, philosophy and musicology. The collection addresses critical questions regarding the relationship between phenomenology and modernism with reference to thinkers such as Edmund Husserl, Maurice Merleau-Ponty, Martin Heidegger, Michel Henry and Paul Ricoeur. By examining the contemporary philosophical debates, this cross-disciplinary body of research reveals the pervasive and far-reaching influence of phenomenology, which emerges as a heuristic method to articulate modernist aesthetic concerns.
