Sign Of Four 2005 Yearbook:

International Crimes: Volume I: Genocide Guénaél Mettraux, 2019-06-18 Judge Mettraux's four volume compendium *International Crimes Law and Practice* will provide the most detailed and authoritative account to date of the law of international crimes. It is a scholarly tour de force providing a unique blend of academic rigour and an insight into the practice of international criminal law. The compendium is unrivalled in its breadth and depth covering almost a century of legal practice, dozens of jurisdictions, national and international, thousands of decisions and judgments and hundreds of cases. This first volume discusses in detail the law of genocide, its definition, elements, normative status and relationship to the other core international crimes. While the book is an invaluable tool for academics and researchers, it is particularly suited to legal practitioners, guiding the reader through the practical and evidential challenges associated with the prosecution of international crimes.

International Crimes Guénaél Mettraux, 2019. This book discusses in detail the law of genocide, its definition, elements, normative status and relationship to the other core international crimes. It is the first in a four volume compendium from Judge Mettraux on the four core international crimes.

Volume 19, Tome II: Kierkegaard Bibliography Peter Šajda, Jon Stewart, 2017-03-16. The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I which covers Tomes I-V is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II which covers Tomes VI-VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.
