Chapman, Sathianathan Clarke, Martyn Percy, 2016 The Anglican Communion is the third largest Christian denomination and claims a membership of some 80 million members in about 164 countries Given that there are only around two hundred countries in the world this makes the churches of the Anglican Communion the most geographically widespread denomination after Roman Catholicism The 44 essays in this volume embrace a wide range of academic disciplines theological historical demography and geography and different aspects of culture and ethics They are united in their discussion of what is effectively a new inter disciplinary subject which we have termed Anglican Studies At the core of this volume is the phenomenon of Anglicanism as this is expressed in different places and in a variety of ways across the world This Handbook covers a far broader set of topics from a wider range of perspectives than has been hitherto attempted in Anglican Studies At the same time it doesn't impose a particular theological or historical agenda The contributions are drawn from across the spectrum of theological views and opinions It shows that the unsettled nature of the polity is part of its own rich history and many will see this as a somewhat lustrous tradition In its comprehensive coverage this volume is a valuable contribution to Anglican Studies and helps formulate a discipline that might perhaps promote dialogue and discussion across the Anglican world **Grace and Glory in One Another's Faces** Ann Loades, 2020-11-30 Ann Loades is one of the most

significant figures in contemporary theology becoming the first female President of the Society for the Study of Theology and one of only two people ever to be awarded a CBE for services to theology *Grace and Glory in One Another's Faces* is a collection of her best sermons given in cathedrals college chapels parish churches and ecumenical contexts around the UK

and abroad Many engage the lectionary readings for Sundays in the Christian year exploring the seasons as well as the texts set before the church Others make accessible the legacy of figures from different eras Francis of Assisi Ignatius of Loyola Martin Luther and John Wycliffe through to influential twentieth century Christians There is a leaning to influential women in Christian history thus introducing readers not only to engagements with scripture but reformers of Christian worship of social practice and of patterns and possibilities for Christian discipleship Also included are two essays that illumine Ann s sacramental understanding of worship and preaching

The Oxford Handbook of Theology and Modern European Thought Nicholas Adams, George Pattison, Graham Ward, 2013-02-28 Modern European thought describes a wide range of philosophies cultural programmes and political arguments developed in Europe in the period following the French Revolution Throughout this period many of the wide range of modernisms and anti modernisms had a distinctly religious and even theological character not least when religion was subjected to the harshest criticism Yet for all the breadth and complexity of modern European thought and in particular its relations to theology a distinct body of themes and approaches recurred in each generation Moreover many of the issues that took intellectual shape in Europe are now global rather than narrowly European and for good or ill they form part of Europe s bequest to the world from colonialism and the economic theories behind globalisation through to democracy to terrorism This volume attempts to identify and comment on some of the most important of these The thirty chapters are grouped into six thematic parts moving from questions of identity and the self through discussions of the human condition the age of revolution the world both natural and technological and knowledge methodologies concluding with a section looking explicitly at how major theological themes have developed in modern European thought The chapters engage with major thinkers including Kant Hegel Kierkegaard Heidegger Schleiermacher Nietzsche Dostoevsky Barth Rahner Tillich Bonhoeffer Sartre de Beauvoir Wittgenstein and Derrida amongst many others Taken together these new essays provide a rich and reflective overview of the interchange between theology philosophy and critical thought in Europe over the past two hundred years

How important is childhood in the spiritual formation of a person? How do children experience God in the context of their lives as they grow? What does God do in the lives of children to draw them to himself and help them grow into a vital relationship with him? How can adults who care about children better support their spiritual growth and direct it toward relationship with God through Jesus Christ? These are critical questions that church leaders face as they consider how best to nurture the faith of the children God brings into our lives. In this book, over two dozen Christian scholars and ministry leaders explore important issues about the spiritual life of children and ways parents, church leaders, and others who care about children can promote their spiritual formation. **A Peculiar Orthodoxy** Jeremy S. Begbie, 2018-08-21
World renowned theologian Jeremy Begbie has been at the forefront of teaching and writing on theology and the arts for more than twenty years. Amid current debates and discussions on the topic, Begbie emphasizes the role of a biblically grounded creedal orthodoxy as he shows how Christian theology and the arts can enrich each other.
