Silent Poetry Deafness Sign And Visual Culture In Modern France:

Silent Poetry Nicholas Mirzoeff, 2019-01-15 This book explores the dynamic interaction between art and the sign language of the deaf in France from the philosophes to the introduction of the sound motion picture. Nicholas Mirzoeff shows how the French Revolution transformed the ancien régime metaphor of painting as silent poetry into a nineteenth century school of over one hundred deaf artists. Painters, sculptors, photographers and graphic artists all emanated from the Institute for the Deaf in Paris, playing a central role in the vibrant deaf culture of the period. With the rise of Darwinism, eugenics and race science, however, the deaf found themselves categorized as savages, excluded and ignored by the hearing. This book is concerned with the process and history of that marginalization, the constitution of a center from which the abnormal could be excluded, and the vital role of visual culture within this discourse. Based on groundbreaking archival and pictorial research, Mirzoeff's exciting and intertextual analysis of what he terms the silent screen of deafness produces an alternative history of nineteenth century art that challenges canonical view of the history of art, the inheritance of the Enlightenment, and the functions, status and meanings of visual culture itself. Fusing methodologies from cultural studies, poststructuralism, and art history, his study will be important for students and scholars of art history, cultural and deaf studies, and the history of medicine, and will interest a general audience concerned with the relationship of the deaf and the larger society. Nicholas Mirzoeff is Assistant Professor of Art History at the University of Wisconsin. Originally published in 1995, The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Modern France, 1789-1914 Sabine Arnaud, 2025-09-28 Following the death in 1789 of Abbé de l'Épée the first teacher of deaf pupils renowned in France and beyond revolutionaries committed to founding national institutes for the education of deaf pupils There was little doubt about their ability to integrate as full citizens and communicate fully in sign language and written French One hundred years later deaf writers and journalists were editing journals and penning articles about the impact of politics on the education and social opportunities of deaf people But in broader contexts deaf people's capacities were increasingly reframed within newly established exclusionary and othering scientific and medical categories What made such a reversal possible *Deaf People Language and Emancipation in Modern France 1789 1914* investigates how defining deafness was rarely about an auditory variation teachers physicians legal advisors and governmental representatives understood instead a human variation in the light of a range of norms expectations and misconceptions Drawing on a wide range of contemporary debates about Deaf identity the book considers how such understandings of deafness developed and how deaf people variously challenged these fields of knowledge and their purported expertise to redefine and claim equal rights As a history that makes space for the diversity of deaf and hearing people's aspirations Sabine Arnaud aims to give space to figures who defy linear visions of history Much beyond the debates about the teaching of speech or the use of sign language this book analyzes the broad creation of sign language and fingerspelling systems deaf people's command of rhetoric and poetics their mobilization of literary tools and broad exercise of citizenship These distinctive developments in the history of deaf people's empowerment challenge and broaden current conceptions of identity politics Such an historical approach is crucial in order to understand the emergence of a deaf community and to rethink the different and often contradictory readings of deafness in medical or cultural terms that we are faced with to this day *Diaspora and Visual Culture* Nicholas Mirzoeff, 2014-04-04 This is the first book to examine the connections between diaspora the movement

whether forced or voluntary of a nation or group of people from one homeland to another and its representations in visual culture Two foundational articles by Stuart Hall and the painter R B Kitaj provide points of departure for an exploration of the meanings of diaspora for cultural identity and artistic practice A distinguished group of contributors who include Alan

Sinfield Irit Rogoff and Eunice Lipton address the rich complexity of diasporic cultures and art but with a focus on the visual culture of the Jewish and African diasporas Individual articles address the Jewish diaspora and visual culture from the 19th century to the present and work by African American and Afro Brazilian artists
