

Silent Over Africa

Robert Maynard Leonard

Silent Over Africa:

Silent Over Africa James Schofield, 1996 During 1991-95 James Schofield was the only Australian journalist based in Africa to report regularly on the major crises in Somalia, Rwanda, Goma, and Zaire. In this book Schofield records his personal experience of the trauma and horror of events in modern Africa: famine and clan conflict in Somalia, genocide in Rwanda, cholera in Zaire, and civil war in the Sudan. Compassion Fatigue Susan D. Moeller, 2002-09-11 From outbreaks of the flesh-eating viruses Ebola and Strep A to death camps in Bosnia and massacres in Rwanda, the media seem to careen from one trauma to another in a breathless tour of poverty, disease, and death. First we're horrified, but each time they turn up the pitch, show us one image more hideous than the next, it gets harder and harder to feel. Meet compassion fatigue, a modern syndrome. Susan Moeller argues that results from formulaic media coverage, sensationalized language, and overly Americanized metaphors. In her impassioned new book *Compassion Fatigue*, Moeller warns that the American media threatens our ability to understand the world around us. Why do the media cover the world in the way that they do? Are they simply following the marketplace demand for tabloid-style international news? Or are they creating an audience that has seen too much or too little to care? Through a series of case studies of the Four Horsemen of the Apocalypse—disease, famine, death, and war—Moeller investigates how newspapers, newsmagazines, and television have covered international crises over the last two decades, identifying the ruts into which the media have fallen and revealing why. Throughout we hear from industry insiders who tell of the chilling effect of the mega-media mergers, the tyranny of the bottom-line hunt for profits, and the decline of the American attention span as they struggle to both tell and sell a story. But Moeller is insistent that the media need not and should not be run like any other business. The media have a special responsibility to the public, and when they abdicate this responsibility, the public lapses into a compassion-fatigue stupor; we become a public at great danger to ourselves.

Historical Dictionary of Rwanda Aimable Twagilimana, 2015-11-06 Blessed with natural beauty and rich vegetation, Rwanda is often called the land of a thousand hills (*le pays des mille collines*), a reference to its many lush and green rolling hills. Moreover, for many Rwandans, at least in the past, Rwanda, in spite of its small size, is vast; in fact, it means the universe. This idyllic view, however, sharply contrasts with the sad history of ethnic strife that unfolded since the 1950s: the 1959 Hutu Revolution, followed by years of anti-Tutsi pogroms, undemocratic regimes, the civil war of 1990-1994, and more significantly, the April-July 1994 genocide against the Tutsi and the killing of Hutu who opposed the killings. The 1994 genocide against the Tutsi remains the most defining single event in contemporary Rwanda, and many people in the world today know of this central African nation from the prism of extreme mass violence that sullied the end of the 20th century amid international indifference and has since haunted the world's conscience. This second edition of *Historical Dictionary of Rwanda* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access
