The Throne of the Great Mogul in Dresden Dror Wahrman, 2023-04-25 A masterful deciphering of an extraordinary art object illuminating some of the biggest questions of the eighteenth century The Throne of the Great Mogul 1701 8 is a unique work of European decorative art an intricate miniature of the court of the Mughal emperor Aurangzeb depicted during the emperor's birthday celebrations It was created by the jeweler Johann Melchior Dinglinger in Dresden and purchased by the Saxon prince Augustus the Strong for an enormous sum Constructed like a theatrical set made of gold silver thousands of gemstones and amazing enamel work it consists of 164 pieces that together tell a detailed story Why did Dinglinger invest so much time and effort in making this piece Why did Augustus in the midst of a political and financial crisis purchase it And why did the jeweler secrete in it messages wholly unrelated to the prince or to the Great Mogul In answering these questions Dror Wahrman while shifting scales from microhistory to global history opens a window onto major historical themes of the period the nature of European absolutism the princely politics of the Holy Roman Empire the changing meaning of art in the West the surprising emergence of a cross continental lexicon of rulership shared across the Eastern Hemisphere and the enactment in jewels and gold of quirky contemporary theories about the global history of religion

Germany Neil MacGregor, 2015-09-29 For the past 140 years Germany has been the central power in continental Europe Twenty five years ago a new German state came into being How much do we really understand this new Germany and how do its people understand themselves Neil MacGregor argues that uniquely for any European country no coherent overarching narrative of Germany's history can be constructed for in Germany both geography and history have always been unstable Its frontiers have constantly shifted Königsberg home to the greatest German philosopher Immanuel Kant is now Kaliningrad Russia Strasbourg in whose cathedral Wolfgang von Goethe Germany's greatest writer discovered the distinctiveness of his country's art and history now lies within the borders of France For most of the five hundred years covered by this book Germany has been composed of many separate political units each with a distinct history And any comfortable national story Germans might have told themselves before 1914 was destroyed by the events of the following thirty years German history may be

inherently fragmented but it contains a large number of widely shared memories awarenesses and experiences examining some of these is the purpose of this book MacGregor chooses objects and ideas people and places that still resonate in the new Germany porcelain from Dresden and rubble from its ruins Bauhaus design and the German sausage the crown of Charlemagne and the gates of Buchenwald to show us something of its collective imagination There has never been a book about Germany quite like it European Furniture in The Metropolitan Museum of Art Daniëlle O.
