[The New Cambridge Medieval History: Volume 4, C.1024-c.1198, Part 2](#) Rosamond McKitterick,David Abulafia,C. T. Allmand,1995 The fourth volume of *The New Cambridge Medieval History* covers the eleventh and twelfth centuries which comprised perhaps the most dynamic period in the European middle ages This is a history of Europe but the continent is interpreted widely to include the Near East and North Africa The volume is divided into two parts of which this the second deals with the course of events ecclesiastical and secular and major developments in an age marked by the transformation of the position of the papacy in a process fuelled by a radical reformation of the church the decline of the western and eastern empires the rise of western kingdoms and Italian elites and the development of governmental structures the beginnings of the recovery of Spain from the

Stringer, Andrew Jotischky, 2016-05-23 In the eleventh and twelfth centuries the Normans had a formative influence on the development of states and societies in the British Isles southern Italy and the Levant Their achievements still resonate powerfully today and represent a vital field of historical study But how far did colonial elites define themselves as Norman and to what extent were they categorized as such by others What were the defining attributes of the supremacies achieved by the Normans and by other incomers associated with them and how decisive and diverse was the impact of their influence on local power structures and native societies How readily did they reach accommodations with those societies and how might their own identities be renegotiated within the context of cross cultural encounters And in terms of the progress and practices of state formation what was the balance between old and new These are some of the key questions addressed in this collection of essays which also treats the Normans as a genuinely European phenomenon Norman activity in the British Isles and in the Mediterranean lands receives equal coverage and the topics explored include identities and identification marriage policies acculturation the pre existing landscapes of power and how far they were transformed castle building strategies the nature of frontiers urban government and law and legislation This volume therefore serves both to illustrate and to open up for fresh debate many of the salient themes concerning the Norman experience of diaspora and settlement At the same time it seeks to underscore how the dynamics character and consequences of Norman expansion and the connections continuities and contrasts can better be appreciated by taking the wider Norman world or worlds as the focus for collective study **Final Judgment** Alan Paterson, 2014-07-18 Winner of the Inner Temple book prize 2015 and the Socio Legal Studies Association Book prize 2014 15 The House of Lords for over 300 years the UK s highest court was transformed in 2009 into the UK Supreme Court This book provides a compelling and unrivalled view into the workings of the Court during its final decade and into the formative years of the Supreme Court Drawing on over 100 interviews including more than 40 with Law Lords and Justices and uniquely some of their judicial notebooks this is a landmark study of appellate judging from the inside by an author whose earlier work on the House of Lords has provided a scholarly benchmark for over 30 years The book demonstrates that appellate decision making in the UK s final court remains a social and collective process primarily because of the dialogues which take place between the judges and the key groups with which they interact when reaching their

decisions As the book shows the forms of dialogue are now more varied yet the most significant dialogues continue to be with their fellow Law Lords and Justices and with counsel To these new dialogues have been added namely those with foreign courts especially Strasbourg and with judicial assistants which have subtly altered the tenor and import of their other dialogues The research reveals that unlike the English Court of Appeal the House of Lords in its last decade was only intermittently collegial since Lord Bingham's philosophy of appellate judging left opinion writing concurrences and dissents largely to individual preference In the Supreme Court however there has been a marked shift to team working and collective decision making bringing with it challenges and occasional tensions not seen in the final years of the House of Lords The work shows that effectiveness in group decision making in the final court turns in part on the stages when dialogues occur in part on the geography of the court and in part on the task leadership and social leadership skills of the judges involved in particular cases The passing of the Human Rights Act and the expansion in judicial review over the last 30 years have dramatically altered the two remaining dialogues those with Parliament and with the Executive With the former the dialogue has grown more distant with the latter more problematic than was the case 40 years ago The last chapter rehearses where the changing dialogues have left the UK's final court Ironically despite the oft applauded commitment of the new Court to public visibility the book concludes that even greater transparency in the dialogue with the public may be required The way appellate judges at the highest level behave to each other to counsel with other branches of government and with other courts is brought under closer scrutiny in this book than ever before The remarkable width and depth of his examination has resulted in a work of real scholarship which all those who are interested in how appellate courts work all over the common law world will find especially valuable From the foreword by Lord Hope of Craighead KT Alan Paterson's knowledge and interest in the Supreme Court coupled with his expertise as a lawyer who understands the legal system and the judicial process make him a perfect chronicler and assessor of what the Court's role is and what it should be and how it functions and how it might improve Lord Neuberger President of the Supreme Court

Expectations of the Law in the Middle Ages Anthony Musson, 2001 This book represents the first systematic examination of the expectations people had of the law in the middle ages Up until now historians have used medieval legal records to demonstrate the operation of legal rules the functioning of legal institutions and the development of the legal profession but they have rarely considered the attitudes that arose as a result of the processes of law The papers in this volume investigate the way expectations of the law were generated captured revealed or replayed for posterity in medieval Europe in jurisprudential reasoning the activity of charter writing the framing of definitions of liberty the concern for historical justifications and the phraseology of various forms of legislation and chancery
