Los Nuevos Movimientos Sociales De La Ideología A La Identidad:

A Social History of Spanish Labour José A. Piqueras, Vicent Sanz Rozalén, 2007 Focusing on organization resistance and political culture this collection represents some of the best examples of recent Spanish historiography in the field of modern Spanish labor movements Topics range from socialism to anarchism from the formation of the liberal state in the 19th century to the Civil War and from women in the work place to the fate of the unions under Franco BOOK JACKET

Política del disenso Xavier Godàs i Pérez, 2007 Política del disenso es un libro que contribuye a clarificar cómo se desarrollan los movimientos sociales contemporáneos Fija su atención en aquel tipo de movilizaciones que tienen como propósito general la radicalización de la democracia en contextos democráticos y para ello se apoya en las teorías sociológicas que han estudiado diferentes fenómenos de protesta política desde el fin de la segunda guerra mundial hasta hoy día **Los Nuevos movimientos sociales** Enrique Laraña, Joseph R. Gusfield, 1994 El rea de los movimientos sociales constituye una perspectiva clave para el análisis de los conflictos que se multiplican en los países avanzados porque permite vincular el nivel abstracto desde el que suele formularse su interpretación con datos empíricos sobre las organizaciones y los actores que las protagonizan Al comienzo de los años noventa el papel central de los movimientos sociales en la brusca transformación de los sistemas comunistas en los países de Europa del Este de Europa represent un desafío a las teorías prevalecientes en este campo que no permitían unas explicaciones satisfactorias de los hechos al tiempo que mostr sus dificultades para precedir estos fenómenos En Occidente el desafío que ha supuesto el surgimiento de nuevas formas de acción colectiva constituye un fenómeno paralelo al declive del movimiento obrero Este desafío es abordado en este libro y es conceptualizado como un positivo impacto epistemológico de los movimientos sociales contemporáneos ya que ha contribuido al desarrollo de este rea de estudio y a la creciente influencia de las perspectivas constructivistas compartidas por la mayoría de los autores El libro se ocupa de las principales cuestiones planteadas por los cambios en las formas de acción colectiva y contiene datos e ideas que permiten entenderlos mejor **Political Power and Social Theory** Diane E. Davis, Julian Go, 2009-12-21 It is time to consider changes in the field of comparative historical sociology as the discipline seeks to accommodate old and new trends as well as the transforming spatial scales in which political power and social theory are increasingly embedded This title showcases articles that pursue similar themes *REIS - Octubre/Diciembre 1997*, *Participando en la Red* Elena Grau, 2001 Sociology of Hope Adrian Scribano, 2025-07-01 This book explores the sociology of hope It presents an overview of the state of the art of hope in sociology and proposes a new basic theory of hope linked to the classical theoretical traditions of sociology to the perspective of its founding women and to the reconstruction of the contributions of the theories of revolution utopia social change and collective action In an attempt to understand the sociology of hope as a critical theory and a science of life this book proposes the central elements in theoretical and epistemic terms for establishing connections between ethics aesthetics politics of knowledge and their current strong modifications in the study

of society As such the book will appeal to scholars and students interested in emotions particularly from the disciplines of sociology anthropology political science and psychology

Student-Led Movements and Political Transformation in Contemporary Chile Camila Ponce Lara, 2025-05-22 This book examines how Chilean student movement leaders achieved unprecedented political power in the post dictatorship era culminating in Gabriel Boric's presidency and prominent roles for other former activists Through detailed analysis it traces the evolution of student movements from post dictatorship resistance to institutional governance revealing strategies that enabled this remarkable shift from protest to executive leadership The chapters progress methodologically from theoretical frameworks on youth activism and social movement theory to case studies of key mobilizations including the 2001 Mochilazo 2006 Pingino Movement and transformative 2011 protests The work explores how different political trajectories conservative breakthrough and emerging shape young activists paths to power By analyzing this unprecedented political transformation the book offers vital insights for understanding contemporary social movements across Latin America and beyond It provides innovative conceptual tools for scholars activists and policymakers interested in political change youth leadership and the dynamic relationship between street protest and institutional power

Movimientos sociales. Subjetividad y acción de los trabajadores desocupados en Argentina Martín Retamozo, 2009 Un excelente estudio de la experiencia de los desocupados que elaboraron una demanda por trabajo y construyeron formas de organización y movilización social sin precedentes en América Latina A partir de entrevistas con los participantes de base la visita a las organizaciones y el registro de acciones de protesta se analiza la conformación de una subjetividad colectiva subalterna capaz de significar el desempleo como un daño una injusticia y producir acciones que cuestionan un orden de dominación

Handbook of Social Movements across Latin America Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region It examines the developments of the past twenty years such as a renewed upswing in popular mobilization the ending of violent conflicts and military governments new struggles and a relatively more democratic climate It shows that from southern Chiapas to Argentina social movements in the 1990s and especially in the 2000s have reached new heights of popular participation There is a lack of research on the politics of this region in the contemporary era of globalization this volume partially fills the void and offers a rich resource to students scholars and the general public in terms of understanding the politics of mass mobilization in the early twenty first century The contributors each address social movement activity in their own nation and together they present a multidisciplinary perspective on the topic Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggles for instance the main protagonists in the campaigns the grievances of the population and the outcomes of the struggles This Handbook is divided into seven substantive themes providing overall coherence to a broad range of social conflicts across countries issues and social groups These themes include 1 theory of Latin American social movements 2

Adolfo Suárez y la transición política REDERO SAN ROMÁN, Manuel, 2017-12-15 Este libro tiene su origen en unas Jornadas que sobre Adolfo Su rez y la Transici n a la Democracia se celebraron en la Universidad de Salamanca del 12 al 15 de marzo de 2015 y que tuvieron por objetivo reflexionar sobre el peculiar proceso de cambio pol tico que Espa a llev a cabo tras la muerte del dictador y sobre el papel que en el mismo desempe Adolfo Su rez El Alma Mater salmantina quiso de esta forma honrar la memoria de su antiguo alumno cuando se aproximaba la fecha del primer aniversario de su muerte La

Transición a la Democracia fue un proceso esencialmente político aunque se desarrollara condicionada por situaciones preexistentes de otra índole y tuviera consecuencias que trascendieran la esfera de la política. Es precisamente en el ámbito de la política ampliamente considerado en el que se sitúan las contribuciones que componen este libro. Ivano Soto y Manuel Redero analizan respectivamente las fuerzas de la derecha y las de la izquierda. Roberto L. Blanco se encarga de la descentralización política. Carme Molinero encara la cuestión catalana. Fernando Puell se ocupa de las Fuerzas Armadas. Antonio Muñoz la influencia de la República Federal de Alemania. Feliciano Montero la Iglesia. Gloria García la prensa. Triunfo Santos Juliá la imagen de Suárez como representación del desencanto y Kostis Kornetis y Javier Rodrigo ciertos relatos crónicos de la Transición. Esperamos que esta recopilación de trabajos tan diversos sobre asuntos relevantes de la Transición a la Democracia en España contribuya a incrementar nuestro conocimiento sobre dicho proceso histórico y a animar el debate existente sobre el mismo en el ámbito académico.

Fábrica de resistencias y recuperación social María Amalia Gracia, 2013-10-31 Las acciones de diversos grupos de trabajadoras y trabajadores argentinos que lograron darse una salida ante situaciones de profunda desesperación provocadas por el cierre, abandono o quiebra de las empresas donde habían trabajado durante años son tratados en este volumen. Sus páginas muestran en forma sencilla y bien documentada un fenómeno vigente que ha ensanchado el campo de lo posible y tiene mucho que decir sobre las acciones políticas y económicas de los trabajadores en un mundo en el que una y otra vez los pueblos se movilizan para protegerse de los choques económicos ante la insistente pretensión del sistema capitalista y sus defensores de separar la esfera económica de la sociedad.

The Social Roots Of Basque Nationalism Alfonso Pérez-Agote, 2006-03-08 Translated by Cameron Watson and William A Douglass Foreword by William A Douglass The Basque people have preserved their ethnic identity and sense of themselves as a separate community despite centuries of repression diaspora and economic and social upheaval one of the most remarkable achievements in the history of the phenomenon we call nationalism In The Social Roots of Basque Nationalism sociologist Alfonso Pérez Agote addresses the social mechanisms that Basques employed to sustain their ethnic identity under the Franco Regime and demonstrates how persecution actually encouraged the extension of Basque nationalist consciousness He also reveals how state political pressure radicalized one element of the Basque nationalist movement resulting in the formation of ETA an armed terrorist wing that itself became a mechanism for extending nationalist consciousness Finally he examines the subsequent changes in Basque nationalism following Franco's death and the extension of democracy in Spain which resulted in the institutionalization of the movement into an autonomous political power This work is based in part on interviews and polls with informants in the Basque Country and abroad eliciting such data as the role that family education social contacts and religious environment play in the evolution of political attitudes the place of violence in the Basque world view and contemporary political culture regional variations in Basque nationalism and the factors that contributed to the resilience of Basque nationalism in adapting to new historical conditions The result is a sophisticated discussion of the various ways in which Basque social reality is constituted and how this reality helps to create political culture Because Pérez Agote situates his discussion within the broader frameworks of ethnic identity group dynamics and the nature of nationalism the book makes a significant contribution not only to our understanding of the Basques but to the broader study of the evolution of nationalism and the nation state political violence and the complicated transition of any society from dictatorship to democracy

Identidades en proceso Martínez, María, 2019-12-02 Como se conforman hoy las identidades colectivas cuando todo parece indicar que carecemos de soportes para su construcción de teorías que expliquen esas construcciones y cuando la propia categoría quiebra Como se construyen las identidades en un movimiento el feminista que en muchas de sus expresiones desactiva la noción misma de identidad Este libro se propone encarar estas preguntas a

partir de un trabajo empírico de carácter cualitativo sobre las movilizaciones feministas contemporáneas en el Estado español. Pero aspira al engarzar con discusiones teóricas amplias a hacer una propuesta teórica analítica que sirva para el estudio de otras identidades colectivas. Las identidades feministas en proceso constituyen esa propuesta. El texto plantea los límites de una concepción de la identidad colectiva únicamente como definición aportada por un movimiento que es tomado como objeto dado como axioma. Esto permite un triple movimiento: primero desobjetivar la noción de movimiento social y apostar por la de movilizaciones feministas; segundo proponer que las identidades no son ya modelos a los que los sujetos deban convertirse o alternar sino que los sujetos y sus identidades son el resultado inconcluso de la incorporación y articulación de experiencias diversas; y finalmente apostar por radicalizar la procesualidad de las identidades colectivas a través de las reiteraciones relacionales y las activaciones emocionales. Los sujetos y sus identidades son hoy procesos inacabados, materializaciones y sedimentaciones parciales, b s quedas o ensayos permanentes de construir un sentido nunca definitivo del nosotros. *Los Sin Tierra* Jaume Vallverdú, 2011-12-05. Este es un libro sobre uno de los más importantes movimientos sociales contemporáneos, el MST de Brasil, formalmente conocido como Movimiento de los Trabajadores Rurales Sin Tierra. Tiene el objetivo principal de estudiar su sistema simbólico cultural y ritual representado por el concepto de mística, cuyo imaginario arraiga y cobra vida en la historia y la memoria tanto política como religiosa de este movimiento. En términos ideológicos y socializadores, la mística es interpretada como el marco y el motor cognitivo y motivador de la construcción simbólica e identitaria del MST. **REIS - Abril/Junio 2003** ,
