Lost Battalion Controversy And Casualties In The Battle Of Hue:

Lost Battalion of Tet Charles A Krohn,2013-05-11 Published to commemorate the 40th anniversary of the Tet Offensive this new paperback edition brings back into print a book that became an essential source for a 2006 study of the battle by the U S Army s Center of Military History It takes a critical look at what went wrong in early 1968 during one of the first engagements of Tet when a U S infantry battalion was ordered to attack a large North Vietnamese force near Hue City without air or artillery support The tragic military foul up resulted in over 60 percent casualties for the 2d Battalion 12th Regiment 1st Cavalry Division when the soldiers were surrounded by the enemy and began running out of ammunition The bold decision by battalion commander Lt Col Richard Sweet to break out with his remaining soldiers under cover of darkness saved this encirclement from being a total disaster Author Charles Krohn the unit s intelligence officer at the time provides a much needed analysis of what took place and fills his account with details that have been confirmed as factual by other survivors Krohn examines the battalion s involvement in two other major attacks for lessons learned when vital systems break down lessons he says that are timeless and applicable anywhere This book is published in cooperation with the Association of the United States Army *The Lost Battalion of Tet* Charles A. Krohn,2008 Published to commemorate the 40th anniversary of the Tet Offensive this revised paperback edition of *The Lost Battalion Controversy and Casualties in the Battle of Hue* 1993 brings back into print a book that became an essential source for a 2006 study of the battle by the U S Army s Center of Military History It takes a critical look at what went wrong in early 1968 during one of the first engagements of Tet when a U S infantry battalion was ordered to attack a large North Vietnamese force near Hue City without air or artillery support Publisher s description W. F. Matthews Travis Monday,2004 The true story of a God and Country American *The Lost Battalion* Charles Krohn,1993-11-19 In 1968 in South Vietnam a U S infantry battalion was ordered to charge a fortified North Vietnamese Army force 200 yards away over an open field with no artillery or air support The defenders had every advantage The Americans started moving across the field just before noon every man a target By the time they reached the tree line at the other side of the open field nearly one half of the 400 man battalion was a casualty Nine long agonizing hours afterwards U S artillery units began support fire although the units remained desperately short of ammunition The entrapped men saw their fate death or captivity Help from headquarters was neither offered or available The following night the battalion commander decided to make a run for it It was a gamble with high stakes But the battalion did make it through enemy lines to a mountaintop where the NVA could not follow When the Lost Battalion finally escaped encirclement after nine hours with no artillery or air support and 30 hours of fighting against an enemy that outnumbered them three to one the tragic episode disappeared from official memory and relevant U S Army records as if nothing had happened Krohn tells the whole story and it tells it with the words of those present That some of the testimony comes from those responsible is remarkable **The Battle of Hue 1968** James H. Willbanks,2021-11-25 In late January 1968 some 84

000 North Vietnamese and Viet Cong troops launched a country wide general offensive in South Vietnam The bitter fighting that raged in Hue for more than three weeks drew the attention of the world Hue was the ancient capital of Vietnam and as such had been previously avoided by both sides it had not seen any serious fighting prior to 1968 All that changed on the night of January 31 that year when four North Vietnamese battalions and supporting Viet Cong units simultaneously attacked and occupied both parts of the city straddling the Perfume River The Communist forces dug in and prepared to defend their hold on the city US Marines and South Vietnamese soldiers were ordered to clear the city supported by US Army artillery and troops A brutal urban battle ensued as combat raged from house to house and door to door Eventually the Marines and the South Vietnamese forces retook Hue but it was a bloody fight and resulted in large scale destruction of the city This illustrated volume details one of the longest and bloodiest battles of the Tet Offensive which led to a sea change in US policy in Vietnam

Blitzkrieg to Desert Storm Robert M. Citino, 2022-05-25 When Germany launched its blitzkrieg invasion of France in 1940 it forever changed the way the world waged war Although the Wehrmacht ultimately succumbed to superior Allied firepower in a two front war its stunning operational achievement left a lasting impression on military commanders throughout the world even if their own operations were rarely executed as effectively Robert Citino

analyzes military campaigns from the second half of the twentieth century to further demonstrate the difficulty of achieving decisive results at the operational level. Offering detailed operational analyses of actual campaigns, Citino describes how UN forces in Korea enjoyed technological and air superiority but found the enemy unbeatable; provides analyses of Israeli operational victories in successive wars until the Arab states finally grasped the realities of operational level warfare in 1973; and tells how the Vietnam debacle continued to shape U.S. doctrine in surprising ways. Looking beyond major power conflicts, he also reveals the lessons of India's blitzkrieg-like drive into Pakistan in 1971 and of the senseless bloodletting of the Iran-Iraq War. Citino especially considers the evolution of U.S. doctrine and assesses the success of Desert Storm in dismantling an entrenched defending force with virtually no friendly casualties. He also provides one of the first scholarly analyses of Operation Iraqi Freedom, showing that its plan was curiously divorced from the realities of military history, grounded instead on nebulous theories about expected enemy behavior. Throughout, Citino points to the importance of mobility, especially mobilized armor, in modern operational warfare and assesses the respective roles of firepower, training, doctrine, and command and control mechanisms. Brimming with new insights, Citino's study shows why technical superiority is no guarantee of victory and why a thorough grounding in the history of past campaigns is essential to anyone who wishes to understand modern warfare. Blitzkrieg to Desert Storm provides that grounding as it addresses the future of operational level warfare in the post 9/11 era. *Supplement to Vietnam 1964-1973*, 2005
