Lost Treasures Great Discoveries In World Archaeology:

Lost Treasures Paul G. Bahn, 2000 This volume explores a selection of the world's great archaeological discoveries. The treasures described and analyzed come from a wide range of contexts in terms of geography, culture, and time period. The treasures range from Ice Age figurines of central and Eastern Europe to African gold from the Dead Sea Scrolls to the sensational discoveries of Egyptologists in the tomb of Tutankhamen. The editor provides large-scale color photographs and his assessment of each of the man-made movable treasures while providing his commentary on the creators' materials, tools, technology, craftsmanship, and trade on religion, ritual, status, and hierarchy, and on social life and appearance. **Lost**

Treasures Paul G. Bahn, 1998-10 **Ten Discoveries That Rewrote History** Patrick Hunt, 2007-09-25 The world's greatest archaeological finds and what they tell us about lost civilizations. Renowned archaeologist Patrick Hunt brings his top ten list of ancient archaeological discoveries to life in this concise and captivating book. The Rosetta Stone, Troy, Nineveh's Assyrian Library, King Tut's Tomb, Machu Picchu, Pompeii, the Dead Sea Scrolls, Thera, Olduvai Gorge, and the Tomb of 10,000 Warriors. Hunt reveals the fascinating stories of these amazing discoveries and explains the ways in which they added to our knowledge of human history and permanently altered our worldview. Part travel guide to the wonders of the world and part primer on ancient world history, *Ten Discoveries That Rewrote History* captures the awe and excitement of finding a lost window into ancient civilization. Digging Deeper Eric H. Cline, 2020-11-03 From the bestselling author of *1177 B.C.*, an

accessible primer to the archaeologist's craft. An archaeologist with more than thirty seasons of excavation experience, Eric H. Cline has conducted fieldwork around the world from Greece and Crete to Egypt, Israel, and Jordan. In *Digging Deeper*, Cline answers the questions archaeologists are most frequently asked, such as: How do you know where to dig? How are excavations actually done? How do you know how old something is? Who gets to keep what is found? How do you know what people from the past ate, wore, and looked like? Adapted from Cline's acclaimed book *Three Stones Make a Wall*, this lively little volume is brimming with insights and practical advice about how archaeology really works. Whether you are an armchair archaeologist or embarking on your first excavation, *Digging Deeper* is an essential primer on the art of the dig. Three Stones Make a Wall Eric H. Cline, 2018-11-06 From the bestselling author of *1177 B.C.*, a comprehensive history of archaeology from its

amateur beginnings to the cutting-edge science it is today. In 1922, Howard Carter peered into Tutankhamun's tomb for the first time; the only light coming from the candle in his outstretched hand. Urged to tell what he was seeing through the small opening he had cut in the door to the tomb, the Egyptologist famously replied, "I see wonderful things." Carter's fabulous discovery is just one of the many spellbinding stories told in *Three Stones Make a Wall*. Written by Eric Cline, an archaeologist with more than thirty seasons of excavation experience, this book traces the history of archaeology from an amateur pursuit to the cutting-edge science it is today by taking the reader on a tour of major archaeological sites and discoveries. Along the way, it addresses the questions archaeologists are asked most often: How do you know where to dig? How are excavations

actually done How do you know how old something is Who gets to keep what is found Taking readers from the pioneering digs of the eighteenth century to today s exciting new discoveries Three Stones Make a Wall is a lively and essential introduction to the story of archaeology

The World's Great Archaeological Treasures Paul G. Bahn,1999 The treasures described and analyzed here come from a wide range of different contexts in terms of geography and culture as well as historic or prehistoric period The treasures range from Ice Age figurines of central and eastern Europe to African gold from the Dead Sea Scrolls to the sensational discoveries of Egyptologist in the tomb of Tutakhamen Many of the most well known treasure troves were originally put together as burial furnishings and for this reason they tell us much of what our forebears believed about death and the afterlife and how provision was made for the wellbeing of the dead in their journey onwards
