Lost Universe:

The Lost Universe Gene Weltfish, 1977-01-01 A fascinating insight into the life and culture of the Pawnee people is achieved here by the author's presentation of carefully gathered information in the form of a narrative of one year in Pawnee village. The first few chapters lay the groundwork of kinship lines followed by a narration of the life of one person in the village. Customs, ceremonies, beliefs, and hard work become apparent as the author leads one through the intricacies of the activities. Although it presents a great deal of detailed anthropological material, the manner of presentation turns the book into a readable account. The book is based on years of first hand study as well as scholarly research and is recommended as an in depth study of Plains Indian life. Reprint Bulletin Book Reviews. Gene Weltfish is coauthor with Ruth Benedict of *The Races of Mankind*. She is also the author of *The Origins of Art* and other books. [Stories of the Divine](#) Aldivan Torres, 2025-08-07 Universe of psychic stories. A mixture of action, romance, fiction, and adventure. Stories for all tastes. Doan, 2013-03-08 Since the publication of John Polidori's *The Vampyre* 1819, the vampire has been a mainstay of Western culture, appearing consistently in literature, art, music, notably opera, film, television, graphic novels, and popular culture in general. Even before its entrance into the realm of arts and letters in the early nineteenth century, the vampire was a feared creature of Eastern European folklore and legend, rising from the grave at

night to consume its living loved ones and neighbors often converting them at the same time into fellow vampires A major question exists within vampire scholarship to what extent is this creature a product of European cultural forms or is the vampire indeed a universal perhaps even archetypal figure In this collection of sixteen original essays the contributors shed light on this question One essay traces the origins of the legend to the early medieval Norse draugr an undead creature who reflects the underpinnings of Dracula the latter first appearing as a vampire in Anglo Irish Bram Stoker's 1897 novel Dracula In addition to these investigations of the Western mythic literary and historic traditions other essays in this volume move outside Europe to explore vampire figures in Native American and Mesoamerican myth and ritual as well as the existence of similar vampiric traditions in Japanese Russian and Latin American art theatre literature film and other cultural productions The female vampire looms large beginning with the Sumerian goddess Lilith including the nineteenth century Carmilla and moving to vampiresses in twentieth century film literature and television series Scientific explanations for vampires and werewolves constitute another section of the book including eighteenth century accounts of unearthing decapitation and cremation of suspected vampires in Eastern Europe The vampire's beauty attainment of immortality and eternal youth are all suggested as reasons for its continued success in contemporary popular culture

LOST in Media Benjamin Beil, Lorenz Engell, Jens Schröter, Herbert Schwaab, Daniela Wentz, 2018-02-21 The television series LOST initiated a wide ranging academic debate which centered on its narrative and temporal complexity while also addressing the massive expansion into other media and consequently crossing established genre categories This expansion poses the essential question about the status of the original medium television within recent multiple media configurations Can LOST be regarded as a symptom of television in the process of media change What is the relation between LOST s temporality and that of television in general And how can LOST be understood as a phenomenon of mediatized worlds The contributions in

History as Apocalypse Thomas J. J. Altizer,1985-01-01 History as Apocalypse is a reenactment of the history of the Western consciousness from the Homeric and Biblica revolutions through Finnegans Wake This occurs through a historical literary and theological analysis of the Christian epic tradition While attention is focused primarily upon Dante Milton Blake and Joyce the Classical and Biblical foundations of the Christian epic are explored with the intention of discovering an organic unity in the evolution of the Western consciousness Our primary epics are identified as revolutionary breakthroughs not only as transformations of consciousness but also records of social revolutions The Christian epic is both a consequence and a primary embodiment of the decisive historical revolutions revolutions culminating with the ending of our historical evolution

Captives and Cousins James F. Brooks,2011-04-25 This sweeping richly evocative study examines the origins and legacies of a flourishing captive exchange economy within and among native American and Euramerican communities throughout the Southwest Borderlands from the Spanish colonial era to the end of the nineteenth century Indigenous and colonial traditions of capture servitude and kinship met and meshed in the borderlands forming a slave system in which victims symbolized social wealth performed services for their masters and produced material goods under the threat of violence Slave and livestock raiding and trading among Apaches Comanches Kiowas Navajos Utes and Spaniards provided labor resources redistributed wealth and fostered kin connections that integrated disparate and antagonistic groups even as these practices renewed cycles of violence and warfare Always attentive to the corrosive effects of the slave trade on Indian and colonial societies the book also explores slavery s centrality in intercultural trade alliances

and communities of interest among groups often antagonistic to Spanish Mexican and American modernizing strategies The extension of the moral and military campaigns of the American Civil War to the Southwest in a regional war against slavery brought differing forms of social stability but cost local communities much of their economic vitality and cultural flexibility

Monsters of Contact Mark van de Logt, 2018-06-21 A murderous whirlwind an evil child abducting witch woman a masked cannibal terrifying scalped men a mysterious man slaying flint creature the oral tradition of the Caddoan Indians is alive with monsters Whereas Western historical methods and interpretations relegate such beings to the realms of myth and fantasy Mark van de Logt argues in *Monsters of Contact* that creatures found in the stories of the Caddos Wichitas Pawnees and Arikaras actually embody specific historical events and the negative effects of European contact invasion war death disease enslavement starvation and colonialism Van de Logt examines specific sites of historical interaction between American Indians and Europeans from the outbreaks and effect of smallpox epidemics on the Arikaras to the violence and enslavement Caddos faced at the hands of Hernando de Soto's expedition and Wichita encounters with Spanish missionaries and French traders in Texas In each case he explains how through Indian metaphor seemingly unrelated stories of supernatural beings and occurrences translate into real people and events that figure prominently in western U S history The result is a peeling away of layers of cultural values that for those invested in Western historical traditions otherwise obscure the meaning of such tales and their monsters Although Western historical methods have become the standard in much of the world van de Logt demonstrates that indigenous forms of history are no less valuable and that oral traditions and myths can be useful sources of historical information A daring interpretation of Caddoan lore *Monsters of Contact* puts oral traditions at the center of historical inquiry and in so doing asks us to reconsider what makes a monster
