stress reaction A hallucination He s wrong about that And several other things The ringing and the numbers are a mystery but the worst part is that when that unseen hand shakes the can Alan begins to lose time A few minutes at first Then longer Until one night he wakes up next to a dead body He could call the police Or run He doesn t do either Because he doesn t know what happened to his daughter during the time he lost leaving him no choice but to dig deeper Alan soon discovers he s not the only one seeing the numbers And that the sequence is key to a conspiracy with far reaching consequences For him and the entire world

**Through the Labyrinth** Alice H. Eagly, Linda L. Carli, 2007-10-16 Despite real progress women remain rare enough in elite positions of power that their presence still evokes a sense of wonder In *Through the Labyrinth* Alice Eagly and Linda Carli examine why women s paths to power remain difficult to traverse First Eagly and Carli prove that the glass ceiling is no longer a useful metaphor and offer seven reasons why They propose the labyrinth as a better image and explain how to navigate through it This important and practical book addresses such critical questions as How far have women actually come as leaders Do stereotypes and prejudices still limit women s opportunities Do people resist women s leadership more than men s And do organisations create obstacles to women who would be leaders This book s rich analysis is founded on scientific research from psychology economics sociology political science and management The authors ground their conclusions in that research and invoke a wealth of engaging anecdotes and personal accounts to illustrate the practical principles that emerge With excellent leadership in short supply no group organisation or nation can afford to restrict women s access to leadership roles This book evaluates whether such restrictions are present and when they are what we can do to eliminate them
