with particular reference to the autograph score and conducting score Each chapter is formed as a case study and contains related discussion points for use in teaching or study settings Baroque Woodwind Instruments Paul Carroll,2017-07-05 The late 17th century through to the end of the 18th century saw rapid progress in the development of woodwind instruments and the composition of a vast body of music for those instruments During this period a large amount of music for domestic consumption was written for a growing amateur market a market which has regrown in the latter part of the 20th century The last 30 years has also seen the standard of performance by professionals on these instruments rise enormously This book provides a guide to the history of the four main woodwind instruments of the Baroque the flute oboe recorder and bassoon and this is complemented by a repertoire list for each instrument It also guides those interested towards a basic technique for playing these instruments a certain level of musical literacy is assumed and it can be used by students professionals and amateurs Advice is also given on buying a suitable reproduction instrument from a market where now virtually any Baroque instrument can be obtained as a faithful copy This is the first book of its kind and has its origins in the wind tutors of the 18th century **Bach Performance Practice, 1945-1975** Dorottya Fabian,2017-07-05 Analysing over 100 recordings from 1945 1975 this book examines twentieth century baroque performance practice as evinced in all the commercially available recordings of J S Bach s Passions Brandenburg Concertos and Goldberg Variations Dorottya Fabian presents a qualitative style orientated history of the early music movement in its formative years through a comparison of the performance style heard in these recordings with the scholarly literature on Bach performance practice Issues explored in the book include the availability of resources balance tempo dynamics ornamentation rhythm and articulation During the decades following the Second World War the early music movement was more concerned with the revival of repertoire than with the revival of performance style which meant that its characteristics and achievements differed essentially from those of the later 1970s and 1980s Period practice techniques were not practised even by ensembles using eighteenth century instruments Yet as this survey reveals several recordings of the period provide unexpectedly stylish interpretations using metre and pulse to punctuate the music Such metric performance and appropriate articulation helped to clarify structure and texture and assisted in the creation of a musical discourse the pre eminent goal of baroque compositions Playing Bach on the Keyboard Richard Troeger,2003-10 Amadeus In this concise and accessible volume a noted keyboard artist and Bach specialist takes a fresh look at the performance of J S Bach s keyboard music Addressing the nonspecialist player Richard Troeger presents a wide range of historical information and discusses its musical applications The author shares accounts of the musical styles Bach employed and the instruments he knew In direct and pragmatic terms he clarifies the importance of notational and style details as guides to the composer s intentions particularly emphasizing changes in notational norms between Bach s time and the present Troeger offers core information on dynamics articulation tempo rhythm ornamentation and accompaniment He considers controversial issues as well establishing the importance of the clavichord in Bach s milieu
