I am an IBM 5155 Portable PC

ChatGPT:
Nice to meet you! You were one of the first portable computers released by IBM back in 1985. Your compact size and built-in monochrome monitor made you a perfect choice for business professionals who needed to work on-the-go. You had a 2.5 MHz Intel 8088 processor and 256 KB of RAM, which was quite small by today's standards, but was quite impressive back then. Is there anything interesting about you you would like to share?
