Not Just A Soldiers War:

Not Just a Soldier's War Betty Burton, 1996 *The Untold War: Inside the Hearts, Minds, and Souls of Our Soldiers* Nancy Sherman, 2011-08-23 This unique analysis of the moral weight of warfare today filters complex problems through the lenses of philosophy and psychology *Martyrs' Crossing* Amy Wilentz, 2016-03-29 An Israeli lieutenant and a Palestinian woman find themselves on opposite sides when rioting breaks out after the lieutenant refuses to let the woman and her sick child through a checkpoint The child's grandfather a prominent Palestinian American surgeon must also make choices as the violence continues *Routledge Handbook of Ethics and War* Fritz Allhoff, Nicholas G. Evans, Adam Henschke, 2013-06-26 This new Handbook offers a comprehensive overview of contemporary extensions and alternatives to the just war tradition in the field of the ethics of war The modern history of just war has typically assumed the primacy of four particular elements *jus ad bellum* *jus in bello* the state actor and the soldier This book will put these four elements under close scrutiny and will explore how they fare given the following challenges What role do the traditional elements of *jus ad bellum* and *jus in bello* and the constituent principles that follow from this distinction play in modern warfare Do they adequately account for a normative theory of war What is the role of the state in warfare Is it or should it be the primary actor in just war theory Can a just war be understood simply as a response to territorial aggression between state actors or should other actions be accommodated under legitimate recourse to armed conflict Is the idea of combatant *qua* state employed soldier a valid ethical characterization of actors in modern warfare What role does the technological backdrop of modern warfare play in understanding and realizing just war theories Over the course of three key sections the contributors examine these challenges to the just war tradition in a way that invigorates existing discussions and generates new debate on topical and prospective issues in just war theory This book will be of great interest to students of just war theory war and ethics peace and conflict studies philosophy and security studies **Thamizh Is Not Just A Language** Madhan Kumar, In general histories of India the part of the country with which we are concerned figures only in a small way Vincent Smith rightly observed most historians of ancient India have written as if the South did not exist and explained this neglect of the South in two ways The historian of India he said is bound by the nature of things to direct his attention to the North and is able to give only a secondary place to the story of Deccan Plateau and the far south South India and northern Ceylon are the one of the oldest inhabited regions of the world and its prehistoric archaeology and contacts with neighbouring lands so far as traceable constitutes an important chapter in the history of world's civilizations The Marathas of the western Deccan are the southernmost of Indo-Aryan speaking people and all the country to the east and south of them speaks languages which fall into a single group with Thamizh as the source which is the Classical living language exists the ethnicity called Thamizhan with its own individuality and unique unconquerable potency in both Politics culture sport worship art agriculture and valour They had a wide spread life in now called India with Himalayas as their border in North and Kanyakumari in South This is what all

about in this book the valour courage and valiance of kings and warriors who existed in Thamizh ethnics right from the ancient era Shown with available referrals from the Thamizh epics and literatures from Sangam era translated in English

Ethics Education for Irregular Warfare Don Carrick, James Connelly, Paul Robinson, 2016-05-13 Following on from Ethics Education in the Military eds Paul Robinson Nigel de Lee and Don Carrick Ashgate 2008 which surveyed and critically analyzed the existing theory and practice of educating soldiers sailors and airmen in the ethics of old fashioned warfaring this volume considers the extent to which such theory and practice is adequate to prepare members of the military to meet the more complex ethical challenges faced when

engaging in irregular warfare in the 21st century In recent years events in Iraq and Afghanistan have highlighted the requirement that Western military personnel drawn from the armed forces of many different countries should behave in an ethical manner at all times The contributors to this volume come from various disciplinary backgrounds several are serving or former military officers and most are actively engaged in ethics education The volume advances theoretical understanding of different approaches to ethics education and provides practical conclusions *Soldiers and Scholars* Carol Reardon,1990 The use and abuse of military history is the theme of this book The author scrutinizes the army's first systematic attempt to use military history to educate its future leaders and traces the army's struggle from the end of the Civil War to claim intellectual authority over the study of war *The Gender of Reparations* Ruth Rubio-Marin,2009-07-31 Reparation programs seeking to provide for victims of gross and systematic human rights violations are becoming an increasingly frequent feature of transitional and post conflict processes Given that women represent a very large proportion of the victims of these conflicts and authoritarianism it makes sense to examine whether reparation programs can be designed to redress women more fairly and efficiently and seek to subvert gender hierarchies that often antecede the conflict Focusing on themes such as reparations for victims of sexual and reproductive violence reparations for children and other family members as well as gendered understandings of monetary symbolic and collective reparations this text gathers information about how past or existing reparation projects dealt with gender issues identifies best practices to the extent possible and articulates innovative approaches and guidelines to the integration of a gender perspective in the design and implementation of reparations for victims of human rights violations ***Soviet Workers and Late Stalinism*** Donald Filtzer,2002-07-04 Soviet Workers and Late Stalinism is a study of labour and labour policy during the critical period of the Soviet Union's postwar recovery and the last years of Stalin It is also a detailed social history of the Soviet Union in these years for non Russian readers Using previously inaccessible archival sources Donald Filtzer describes the tragic hardships faced by workers and their families right after the war conditions in housing and health care the special problems of young workers working conditions within industry and the tremendous strains which regime policy placed not just on the mass of the population but on the cohesion and commitment of key institutions within the Stalinist political system most notably the trade unions and the procuracy Donald Filtzer's subtle and compelling book will interest all historians of the Soviet Union and of socialism *Racializing the Soldier* Gavin Schaffer,2016-05-23 Racializing the Soldier explores the impact of racial beliefs on the formation and development of modern armed forces and the ways in which these forces have been presented and historicized from a global perspective With a wide geographical and temporal spread the collection looks at the disparate ways that race has influenced military development In particular it explores the extent to which ideas of racial hierarchy and type have conditioned thinking about what kinds of soldiers should be used and in what roles This volume offers a highly original military social and cultural history questioning the borders both of racialization and of the military itself It considers the extent to which

discourses of gender nationality and religion have informed racialization and probes the influence of expert studies of soldiers as indicators of national population types By focusing mostly but not exclusively on colonial and post colonial states the book considers how racialized militaries both shaped and reflected conflict in the modern world ultimately explaining how the history of this idea has often underpinned modern military planning and thinking This book is based on a special issue of *Patterns of Prejudice*

Shakespeare and the Just War Tradition Paola Pugliatti, 2010 As an innocent which is to say non specialist reader of Shakespeare I knew that one could find everything in his work as in the Bible what I had not imagined was that the Bard what a devil of a man could also inspire one to reflect on a subject that so closely presses upon us today the ethics of war Paola Pugliatti's book however has obliged me to re read him from this entirely new perspective Umberto Eco In Shakespeare Paola Pugliatti writes war is ubiquitous Her examination of his use of war and of just war tradition in his work places it in the context of the prior development of this tradition during the late Middle Ages and the burgeoning debates about just war in Shakespeare's own time Not only does her study add depth to understanding Shakespeare on war it provides a primer on the development of the tradition of just war out of which the English debates of this period grew Pugliatti's work is an important new addition to reflection on both Shakespeare and just war tradition James Turner Johnson Distinguished Professor of Religion at Rutgers University USA and author of many books on just war tradition and its use Brought to light in this study is a connection between the treatment of war in Shakespeare's plays and the issue of the just war which loomed large both in religious and in lay treatises of Shakespeare's time The book re reads Shakespeare's representations of war in light of both the changing historical and political contexts in which they were produced and of Shakespeare's possible connection with the culture and ideology of the European just war tradition But to discuss Shakespeare's representations of war means for Pugliatti not simply to examine his work from a literary point of view or to historicize those representations in connection with the discourses and the practice of war which were produced in his time it also means to consider or re consider present day debates for or against war and the kind of war ideology which is trying to assert itself in our time in light of the tradition which shaped those discourses and representations and which still substantiates our moral view of war

Seeing Green Finis Dunaway, 2018-09-28 Over 15 chapters Dunaway transforms what we know about icons and events Seeing Green is the first history of ads films political posters and magazine photography in the postwar American environmental movement From fear of radioactive fallout during the Cold War to anxieties about global warming today images have helped to produce what Dunaway calls ecological citizenship telling us that we are all to blame Dunaway heightens our awareness of how depictions of environmental catastrophes are constructed manipulated and fought over Publisher info

International Law and the Classification of Conflicts Elizabeth Wilmshurst, 2012-08-02 This book comprises contributions by leading experts in the field of international humanitarian law on the subject of the categorisation or classification of armed conflict It is divided into two sections the first aims to provide the

reader with a sound understanding of the legal questions surrounding the classification of hostilities and its consequences the second includes ten case studies that examine practice in respect of classification Understanding how classification operates in theory and practice is a precursor to identifying the relevant rules that govern parties to hostilities With changing forms of armed conflict which may involve multi national operations transnational armed groups and organized criminal gangs the need for clarity of the law is all important The case studies selected for analysis are Northern Ireland DRC Colombia Afghanistan from 2001 Gaza South Ossetia Iraq from 2003 Lebanon 2006 the so called war against Al Qaeda and future trends The studies explore the legal consequences of classification particularly in respect of the use of force detention in armed conflict and the relationship between human rights law and international humanitarian law The practice identified in the case studies allows the final chapter to draw conclusions as to the state of the law on classification

Soldier Repatriation Kaare Dahl Martinsen,2016-04-01 Soldier repatriation from Afghanistan has impacted debate about the war This study highlights this impact with particular focus on Britain Denmark and Germany All three countries deployed soldiers soon after the 9 11 attacks yet their role in Afghanistan and the casualty rates suffered have been vastly different This book looks at how their casualties influenced the framing of the war by analysing the political discourse about the casualties how the media covered the repatriation and the burials and how the dead were officially recognised and commemorated Explaining how bodies count is not done exclusively by focusing on the political leadership and the media in the three countries the response from the men and women in Afghanistan to the official framing of the war is given particular weight Martinsen contributes to our understanding of European strategic culture by showing how countries respond to the same security challenges
