Nursing Theories And Quality Of Care:

Nursing Theories and Quality of Care Hugh P. McKenna, 1994 Each nursing model incorporates specific views on four value laden components nursing person health environment In part two of the study an action research approach was used to implement the Human Needs Model HNM on a long stay psychiatry ward Within a broader quasi experimental design selected quality of care indicators were appraised before and after the implementation of the model These dependent variables were also monitored on a control ward Data were collected on both wards at one pretest and two posttest points using a triangulation of mostly quantitative research methods The research instruments Delphi Technique used emanated from the literature and the field work lasted nearly nine months Nursing Theories and Models Hugh

McKenna, 2006-09-07 Nursing theory is a major part of all nursing courses and nurses are encouraged to use theories in practice but it is not always easy for the student to make a real connection between the two Drawing on many years experience of teaching and research Hugh McKenna addresses the theory needs of both students and qualified staff He demystifies the confusing terminology associated with nursing theory and shows how all nurses can build theory from practice through reflection and analysis This text offers step by step guidelines on how to analyse concepts how to generate and select theory how to apply and test theory in practice Written in a friendly easy to read style Nursing Theories and Models puts forward realistic strategies for bridging the theory practice gap *Tabbner's Nursing Care* Gabby Koutoukidis, Rita Funnell, Karen Lawrence, Jodie Hughson, Kate Stainton, 2009 Tabbner's Nursing Care Theory and Practice is the only Australian and New Zealand textbook written specifically for the enrolled nurse student The new 5th edition of this best selling text has been fully revised and updated throughout to reflect the content of the new National Curriculum Unit 1 The evolution of nursing Unit 2 The health care environment Unit 3 Cultural diversity and nursing practice Unit 4 Promoting psychosocial health in nursing practice Unit 5 Nursing individuals throughout the lifespan Unit 6 The nursing process Unit 7 Assessing health Unit 8 Important component of nursing care Unit 9 Health promotion and nursing care of the individual Appendices Provided by publisher **Theoretical Nursing** Afaf Ibrahim Meleis, 2007 This text guides you through the evolution of nursing's theoretical foundations and examines the ways in which these principles influence the practice of the discipline Jacket Nursing Theory Martha Raile Alligood, 2013-08-13 Nursing Theory Utilization the application of different nursing theories models and philosophies and the expansion of these practices with a look toward the future This text provides the opportunity for students who have learned the background of nursing theory using the companion title Nursing Theorists and Their Work to apply what they have learned to actual nursing practice through various patient scenarios Real life case history examples included in application chapters promotes evidence based practice and further demonstrates how a theory is used in practical situations Consistent case history featuring the patient Debbie in every chapter and the nursing plan that follows help you apply philosophies theories and models presented in the text Critical thinking exercises provide a
