Development Across the Life Span Robert Stephen Feldman, 2003 This comprehensive and integrated text provides students with a broad overview of the field of human development covering the entire range of human life from the moment of conception through death and focusing on physical cognitive and social and personality development It covers basic theories and research findings as well as highlighting current applications outside the laboratory **Begging the Question** Douglas N. Walton, 1991-07-18 This book offers a new theory of begging the question as an informal fallacy within a pragmatic framework of reasoned dialogue as a normative theory of critical argumentation The fallacy of begging the question is analyzed as a systematic tactic to evade fulfillment of a legitimate burden of proof by the proponent of an argument The technique uses a circular structure of argument to block the further progress of dialogue and in particular the capability of the respondent to ask legitimate critical questions in reply to the argument Walton analyzes the concept of burden of proof in argument and provides chapters on the use of argument diagramming as a technique of argument reconstruction This powerful method of argument analysis developed therein is then applied to more than 100 case studies of circular argumentation where the charge of begging the question is or has been thought to be an appropriate criticism Throughout this work Walton throws light on the relationship between the problem of circular reasoning and broader issues in the critical analysis of argumentation Ground breaking use is made of the pragmatic theory of argument as interactive dialogue Rules for several kinds of dialogue framework provide standards of good reasoning to validate or to refute the criticism that a particular argument begs the question This book is directed to students and professionals in the fields of speech communication philosophy linguistics logic dispute mediation and education **New York Times Saturday Review of Books and Art** ,1936 **Bibliographic Guide to Education** ,1990 New York Herald Tribune Book Review ,1953 The New York Times Book Review ,1936-07 **New York Times Saturday Book Review Supplement** ,1936 **Choice** Richard K. Gardner, Phyllis Grumm, 1976 **Selected Topics in the Physical Sciences for Grades K-6: an Annotated Bibliography** Sharyn Elaine Fenwick, 1976
