Secrets of Tibet Giuseppe Tucci, Eugenio Ghersi, 1996 Pilgrimage in Tibet Alex McKay, 2013-12-16 The Western image of Tibet as a sacred land is in many ways a mythical construction But the Tibetans themselves have traditionally mapped out their land in terms of areas of sacred space and pilgrimage ensuring a high degree of mobility within all classes of Tibetan society Pilgrims travelled to local regional and national centres throughout recorded Tibetan history In recent years pilgrimage has resumed in areas where it had been forbidden by the Chinese authorities and has now become one of the most prominent religious expressions of Tibetan national identity In this major new work leading scholars of Asian pilgrimage traditions discuss historical and contemporary aspects of pilgrimage within the Tibetan cultural world Myths and legends material conditions textual sources a modern pilgrim s impressions political and economic influences biographies and contemporary developments all these and many other issues are examined here The result is an informative and often entertaining work which contributes greatly to our knowledge of the history and culture of Tibet as well as the wider issues of religious power and practice **Tibetan Border Worlds** Wim Van Spengen, 2013-01-11 The focus of the study is the Tibetan and Tibetanized border populations in the little known Himalayan high valley of Nyishang in West Central Nepal close to the Tibetan border There a group of traders have greatly extended their external relations over the past century in the form of long distance trade ventures thereby thoroughly changing the internal conditions of socio economic organizations in their home district The object of the study is to establish whether larger geohistorical processes of structural change may be conceptualized in such a way as to link structuration at the level of the localized social group to the dynamics of the wider regional setting **Chapters from life of Tibetans** Petr Jandáček, Martin Hanker, Aleš Rýznar, Zbyněk Mucha, 2019-11-01 E kniha Chapters from Lives of Tibetans byla naps na magistersk mi a doktorsk mi studenty tibetanistiky jako p ehled respektive u ebn pom cka pro bakal sk studenty kte se poprv setk vaj s v ukou tibetsk ch kulturn ch re li Jej m c lem je stru n rekapitulovat ivot Tibe ana od narozen a do smrti a p i tom se zam it na n kter d le it aspekty tibetsk kultury V jeden cti kapitol ch popisuje porod a p i o d ti p echodov ritu ly v etn svatby rodinn ivot zam stn n z bavu p klady v ro n ch a n bo ensk ch ritu l smrt a poh ebn ritu ly Krom toho chce publikace sezn mit ten e s tibetsk mi term ny u van mi v dan m kontextu a v literatu e a d t t m n m ty pro dal etbu a konverzaci v tibet tin **A Historical Atlas of Tibet** Karl E. Ryavec, 2015-05-08 This pioneering work documents cultural and religious sites across the Tibetan Plateau and its bordering regions from the Paleolithic Era to today Western fascination with Tibet has soared in recent decades yet this historic and globally celebrated

region has barely been mapped With this groundbreaking atlas Karl E Ryavec sweeps aside the image of Tibet as Shangri La offering a comprehensive vision of the region as it really is The product of twelve years of research and eight more of mapmaking the results are absolutely stunning A Historical Atlas of Tibet ranges through the five main periods in Tibetan history offering introductory maps of each followed by details of western central and eastern regions It beautifully visualizes the history of Tibetan Buddhism tracing its spread throughout Asia with thousands of temples mapped both within Tibet and across North China and Mongolia all the way to Beijing There are maps of major polities and their territorial administrations as well as of the kingdoms of Guge and Purang in western Tibet and of Derge and Nangchen in Kham There are town plans of Lhasa and maps that focus on history and language on population natural resources and contemporary politics

Extraordinarily comprehensive and absolutely gorgeous this volume makes a major contribution in the realms of cartography Asian studies and Buddhist studies **Historical Dictionary of Tibet** John Powers, David Templeman, 2020-10-22

Keay, 2022-09-15 John Keay is the master storyteller and historian This grand narrative of Himalaya is as epic as the mountains and peoples he describes Dan Snow Adds the human element to the hard rock And what a rich vein it is Michael Palin History has not been kind to Himalaya Empires have collided here cultures have clashed Buddhist India claimed it from the south Islam put down roots in its western approaches Mongols and Manchus rode in from the north and from the east China continues to absorb what it prefers not to call Tibet Hunters have decimated its wildlife and mountaineers have bagged its peaks Today machinery gouges minerals out of its rock Roughly the size of Europe the region is one of the most seismically active on the planet Summers bring avalanches rainfall triggers landslides and winters obliterate trails Glaciers retreat rivers change course and whole lakes quietly evaporate To some Himalaya is an otherworldly realm profoundly life changing yet forbidding and forbidden It has mesmerised scholars and mystics sportsmen and spies pilgrims and mapmakers who have mingled with the farmers and traders on the Roof of the World Himalaya is the story of one of the last great wildernesses and in particular of the bizarre discoveries and improbable achievements of its pioneers Ranging from botany to trade from the Great Game to today's geopolitics John Keay draws on a lifetime of exploration and study to enlighten and delight with this lively biography of a region in crisis **Kailas Histories** Alex McKay, 2015-10-27

Tibet's Mount Kailas is one of the world's great pilgrimage centres renowned as an ancient sacred site that embodies a universal sacrality But Kailas

Histories Renunciate Traditions and the Construction of Himalayan Sacred Geography demonstrates that this understanding is a recent construction by British colonial Hindu modernist and New Age interests Using multiple sources including fieldwork Alex McKay describes how the early Indic vision of a heavenly mountain named Kailas became identified with actual mountains He emphasises renunciate agency in demonstrating how local beliefs were subsumed as Kailas developed within Hindu Buddhist and B n traditions how five mountains in the Indian Himalayan are also named Kailas and how Kailas sacred geography constructions and a sacred Ganges source region were related

Tibetan Inscriptions ,2013-07-01
 Inscriptions are a rather neglected field within Tibetan Studies because they are often located in places that are not easily accessible for both geographical and political reasons It is thus especially welcome that two of the contributions to this volume deal with inscriptions documented on recent field trips to Tibet Benjamin Wood discusses an inscription in Zha lu that relates an enigmatic conflict in the history of the monastery and Kurt Tropper looks into an epigraphic cycle on the life of the Buddha in Tsaparang Moreover Nathan Hill provides a new interpretation of the beginning of the famous Rkong po inscription and Kunsang Namgyal Lama surveys the various kinds of texts found on tsha tshas An extra level of reflection is added to the volume by Cristina Scherrer Schaub s methodological considerations on the classification and interpretation of inscriptions

 Kenneth Michael Bauer,2004-04-07 Dolpo is a culturally Tibetan enclave in one of Nepal s most remote regions The Dolpo pa or people of Dolpo share language religious and cultural practices history and a way of life Agro pastoralists who live in some of the highest villages in the world the Dolpo pa wrest survival from this inhospitable landscape through a creative combination of farming animal husbandry and trade High Frontiers is an ethnography and ecological history of Dolpo tracing the dramatic transformations in the region s socioeconomic patterns Once these traders passed freely between Tibet and Nepal with their caravans of yak to exchange salt and grains they relied on winter pastures in Tibet to maintain their herds After 1959 China assumed full control over Tibet and the border was closed restricting livestock migrations and sharply curtailing trade At the same time increasing supplies of Indian salt reduced the value of Tibetan salt undermining Dolpo s economic niche Dolpo s agro pastoralists were forced to reinvent their lives by changing their migration patterns adopting new economic partnerships and adapting to external agents of change The region has been transformed as a result of the creation of Nepal s largest national park the making of Himalaya a major motion picture filmed on location the increasing presence of nongovernmental organizations and a booming trade in medicinal products High Frontiers examines these transformations at the local level and speculates on the future of pastoralism in this region and across the Himalayas
