The Secularization of the European Mind in the Nineteenth Century Owen Chadwick, 1975 **The Secularization of the European Mind in the Nineteenth Century** Owen Chadwick, 1979 **The Secularization of the European Mind in the Nineteenth Century** Owen Chadwick, 1990-09-13 Owen Chadwick's acclaimed lectures on the secularisation of the European mind trace the declining hold of the Church and its doctrines on European society in the nineteenth century *Children of Lucifer* Ruben van Luijk, 2016-05-02 If we are to believe sensationalist media coverage Satanism is at its most benign the purview of people who dress in black adorn themselves with skull and pentagram paraphernalia and listen to heavy metal At its most sinister its adherents are worshippers of evil incarnate and engage in violent and perverse secret rituals the details of which mainstream society imagines with a fascination verging on the obscene *Children of Lucifer* debunks these facile characterizations by exploring the historical origins of modern Satanism Ruben van Luijk traces the movement's development from a concept invented by a Christian church eager to demonize its internal and external competitors to a positive anti religious identity embraced by various groups in the modern West Van Luijk offers a comprehensive intellectual history of this long and unpredictable trajectory This story involves Romantic poets radical anarchists eccentric esotericists Decadent writers and schismatic exorcists among others and culminates in the establishment of the Church of Satan by carnival entertainer Anton Szandor LaVey Yet it is more than a collection of colorful characters and unlikely historical episodes The emergence of new attitudes toward Satan proves to be intimately linked to the ideological struggle for emancipation that transformed the West and is epitomized by the American and French Revolutions It is also closely connected to secularization that other exceptional historical process which saw Western culture spontaneously renounce its traditional gods and enter into a self imposed state of religious indecision *Children of Lucifer* makes the case that the emergence of Satanism presents a shadow history of the evolution of modern civilization as we know it Offering the most comprehensive account of this history yet written van Luijk proves that in the case of Satanism the facts are much more interesting than the fiction *Secularization and Its Discontents* Rob Warner, 2010-12-23 Authoritative guide to contemporary debates and issues in the sociology of religion providing a clear examination of classical secularization And The post secularization paradigm *A History of the University in Europe: Volume 3, Universities in the Nineteenth and Early Twentieth Centuries (1800-1945)* Walter Rüegg, 2006-11-06 The story of the modern research university in Europe and its expansion to other continents first published in 2004 *Religion and Public Doctrine in Modern England: Volume 1* Maurice Cowling, 2003-09-25 A further contribution to understanding the role played by Christianity in modern English thought *Rethinking Secular Time in Victorian England* Stefan Fisher-Høyrem, 2022-08-29 This open access book draws on conceptual resources ranging from medieval scholasticism to postmodern theory to propose a new understanding of secular time and its mediation in nineteenth century technological networks Untethering the concept of secularity from questions of

religion and belief it offers an innovative rethinking of the history of secularisation that will appeal to students scholars and everyone interested in secularity Victorian culture the history of technology and the temporalities of modernity

Secularism in the Arab World al-Azmeh Aziz al-Azmeh,2020-03-18 This book is a translation of Aziz al Azmeh s seminal work *Al Ilmaniya min mandhur mukhtalif* that was first published in Beirut in 1992 Both celebrated and criticised for its reflections on Arab secularisation and secularism in the modern history of the Arab World it is the only study to date to approach its subject as a set of historical changes which affected the regulation of the social political and cultural order and which permeated the concrete workings of society rather than as an ideological discussion framed from the outset by the assumed opposition between Islam and secularism The author takes a comprehensive analytical perspective to show that an almost imperceptible yet real multi faceted and objective secularising process has been underway in the Arab world since the 1850s The early onset was the result of adapting to systemic novelties introduced at the time and a reaction to the perceived European advance and local retardation The need for meaningful reform and the actions taken in order to put in place a new organisation of state and society based on modern organisational and educational criteria rather than older religious traditions stemmed from the perceived weakness of Arab polities and from an internal drive to overcome this situation The book follows these themes into the close of the 20th century marked with the rise of Islamism A preface to the English translation takes a retrospective look at the theme from the vantage point of social political and intellectual issues of relevance today

Narratives of Secularization Peter Harrison,2018-12-07 It is increasingly clear that histories of secularization are not simply dispassionate descriptions of the decline of religious belief and practice in the West Rather such narratives often seek to celebrate secularization promote some version of it lament it or otherwise oppose it in favour of a programme of desecularization or resacralization The aim of this book is to identify some of the major genres of the history of secularization and to explore their historical contexts normative commitments and tendential purposes The contributors to the volume offer different perspectives on these questions not least because a number of them are themselves participants in the cultural political programs described above The primary purpose of this book however is the identification of such programs rather than their promotion Overall the collection seeks to bring analytical clarity to ongoing debates about secularization and help explain the co existence of apparently conflicting stories about the origins of Western modernity This book was originally published as a special issue of the *Intellectual History Review* journal

Huxley's Church and Maxwell's Demon Matthew Stanley,2014-11-24 During the Victorian period the practice of science shifted from a religious context to a naturalistic one It is generally assumed that this shift occurred because naturalistic science was distinct from and superior to theistic science Yet as Huxley s *Church and Maxwell s Demon* reveals most of the methodological values underlying scientific practice were virtually identical for the theists and the naturalists each agreed on the importance of the uniformity of natural laws the use of hypothesis and theory the moral value of science and intellectual freedom But if

scientific naturalism did not rise to dominance because of its methodological superiority then how did it triumph Matthew Stanley explores the overlap and shift between theistic and naturalistic science through a parallel study of two major scientific figures James Clerk Maxwell a devout Christian physicist and Thomas Henry Huxley the iconoclast biologist who coined the word agnostic Both were deeply engaged in the methodological institutional and political issues that were crucial to the theistic naturalistic transformation What Stanley s analysis of these figures reveals is that the scientific naturalists executed a number of strategies over a generation to gain control of the institutions of scientific education and to reimagine the history of their discipline Rather than a sudden revolution the similarity between theistic and naturalistic science allowed for a relatively smooth transition in practice from the old guard to the new

Secularism and the Pursuit of Transcendence, Volume II Stanley E. Porter, Wendy J. Porter, 2025-02-19 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent s pursuit of us

God's Century Monica Duffy Toft, Daniel Philpott, Timothy Samuel Shah, 2011-02-02 A fresh and illuminating perspective on the surge in religion s political influence across the globe Is religion a force for good or evil in world politics How much influence does it have Despite predictions of its decline religion has resurged in political influence across the

globe helped by the very forces that were supposed to bury it democracy globalization and technology And despite recent claims that religion is exclusively irrational and violent its political influence is in fact diverse sometimes promoting civil war and terrorism but at other times fostering democracy reconciliation and peace Looking across the globe the authors explain what generates these radically divergent behaviors In a time when the public discussion of religion is overheated these dynamic young scholars use deeply original analysis and sharp case studies to show us both how and why religion s influence on global politics is surging Finally they offer concrete suggestions on how to both confront the challenges and take advantage of the opportunities posed by globally resurgent religion

No Greater Love Angus H Shaw,2024-04-26 In 1914 the world was plunged into the greatest slaughter of humanity in history Of the 60 000 000 soldiers who answered the call of King Kaiser God and country 14% or 6 000 per day died These were not just big numbers they were real people This book tries to capture some of the people who were caught up in this tragedy and tells their story often in their own words Here is revealed the heroism and tragedy of all who went over the top between 1914 and 1918 British German or American no matter which side of the conflict the individual was involved the heroism bravery and sacrifice was the same

The ^AFolly of the Cross Richard Viladesau,2018-05-01 The Folly of the Cross is the fourth book in Richard Viladesau s series examining the aesthetics and theology of the cross through Christian history Previous volumes have brought the story up through the Baroque era This new book examines the reception of the message of the cross from the European Enlightenment to the turn of the twentieth century

Religious Philosophy as Multidisciplinary Comparative Inquiry Wesley J. Wildman,2010-11-05 What can philosophy contribute to the study of religion This book argues that the study of religion needs philosophy in the form of multidisciplinary comparative inquiry Contradicting the current tendency to regard philosophical reflection and the academic study of religion as independent endeavors best kept apart Wesley J Wildman brings them together offering a broader vision than that of traditional philosophy of religion and surmounting many of its difficulties His newer conception of religious philosophy is well suited to the modern multicultural secular university Through multidisciplinary comparative inquiry religious philosophy allows for a variety of approaches from historical and analytical work to evocative description and theoretical evaluation of truth claims and both secular and religious thinkers participate The tasks and varieties of religious philosophy as they arc across the world s religions and philosophies are discussed along with religious philosophy s modern and postmodern contexts Wildman s thoughtful and thought provoking book will be essential reading for all those concerned with the study of religion present and future

Satanism Per Faxneld,Johan Nilsson,2023 Satanism is a current of thought that generates intense feelings It remains understudied by academics This selection of key source texts from the period 1841 to 2017 attempts to remedy that gap Ranging from the esoteric to the anti clerical countercultural and political the texts span a wide variety of genres from poetry and polemical religious tracts to ritual instructions and internet FAQ s All are provided with comprehensive introductions written by specialists in the field that offer readers both critical historical

context and expert scholarly interpretation Chronologically structured the book can be read as a succinct historical overview of the development of Satanism with the immediacy that only primary sources can provide It is ideal for both classroom and research use as well as a fascinating read for anyone with an interest in the occult the transgressive secularization and the fringes of the religious landscape *Scripture, Skepticism, and the Character of God* Dane Neufeld, 2019-07-11 During a period of great religious upheaval Anglican philosopher and ecclesiastic Henry Longueville Mansel 1820 1871 became famous for his 1858 Bampton Lectures which sought to defend traditional faith by employing a skeptical philosophy Understanding Mansel and the passionate debate that surrounded his career provides insight into the current struggle for ancient religions to articulate their traditions in a modern world In *Scripture Skepticism and the Character of God* Dane Neufeld explores the life and thought of the now forgotten nineteenth century theologian Examining the ideological differences between this philosopher and his contemporaries Neufeld makes a case for the coherence of Mansel s position and traces the vestiges of his thought through the generations that followed him Mansel found himself at the centre of an explosive debate concerning the Christian scriptures and the moral character of the God they described Though the rise of science is often credited with provoking a crisis of doubt shifting ideas about humanity and God were just as central to the spiritual unrest of the nineteenth century Mansel s central argument that the entire Bible must be read as a unified witness to the reality of God provoked disagreement among theologians churchmen and free thinkers alike who were uncomfortable with certain aspects of the scriptural portrayal of God s activity and character Mansel s attempt to reconcile theological skepticism with scripturalism was misunderstood He was branded a hopeless fideist by the free thinkers and a dangerous skeptic by high broad and evangelical churchmen alike Many of the controversies in contemporary Christianity concern the collision between modern morality and biblical renderings of God Neufeld argues that Henry Mansel while a deeply polarizing figure brought clarity and precision to this debate by exposing what was at stake for Christian belief and biblical interpretation in the Victorian period **View From the Murney Tower** Richard Allen, 2008-06-15 Salem Goldworth Bland 1859 1950 was among the most significant religious leaders in Canadian history A Methodist and later United Church minister Bland s long career and widespread influence made him a leading figure in the popularizing of liberal theology social reform and the Social Gospel movement He was also a man who struggled with the polarities of evangelical faith and worldly culture and who sought a unifying world view in the mentoring of Sir J William Dawson in the sciences George Monro Grant in public affairs and John Watson in philosophy *The View from the Murney Tower* is a two volume biography of Salem Bland by Richard Allen author of *The Social Passion Religion and Reform in Canada* 1914 28 This first volume begins with Bland s upbringing in the home of an educated industrialist turned preacher It goes on to explore his emergence as a liberating mind and eloquent speaker prepared to support new currents of scientific and social thought as well as to discuss their implications for Christian faith and life Allen concludes this first volume with Bland s departure from central Canada for

the west in 1903 by which time he had become a somewhat controversial figure amongst conservative evangelicals throughout the country More than just biography however *The View from the Murney Tower* is also an examination of progressive religion in late Victorian Canada a time in which Darwinism and other Biblical social and intellectual controversies were profoundly affecting the growth of a young nation
