Secured Transactions Law Reform Louise Gullifer, Orkun Akseli, 2016-10-20 Secured transactions law has been subjected to a close scrutiny over the last two decades One of the main reasons for this is the importance of availability of credit and the consequent need to reform collateral laws in order to improve access to finance The ability to give security effectively influences not only the cost

of credit but also in some cases whether credit will be available at all This requires rules that are transparent and readily accessible to non lawyers as well as rules that recognise the needs of small and medium sized enterprises This book critically engages with the challenges posed by inefficient secured credit laws It offers a comparative analysis of the reasons and the needs for a secured transactions law reform as well as discussion of the steps taken in many common law civil law and mixed law jurisdictions The book written under the auspices of the Secured Transactions Law Reform Project informs the debate about reform and advances novel arguments written by world renowned experts that will build upon the existing literature and as such will be of interest to academics legal practitioners and the judiciary involved in secured transactions law around the world The text considers reform initiatives that have taken place up to the end of April 2016 It has not been possible to incorporate events since then into the discussion However notable developments include the banks decree passed by the Italian Government on 29th June 2016 and the adoption of the Model Law on Secured Transactions by UNCITRAL on 1st July 2016

Secured Transactions Law in Asia Louise Gullifer,Dora Neo,2021-03-25 This collection of essays offers a unique insight and overview of the secured transactions law in many of the most important countries in Asia as well as reflections on the need for benefits of and challenges for reform in this area of the law The book provides a mixture of general reflections on the history successes and challenges of secured transaction law reform and critical discussion of the law in a number of Asian countries In some of the countries the law has already been reformed or reform is under way and here the reforms are considered critically with recommendations for future work In other countries the law is not yet reformed and the existing law is analysed so as to determine what reform is desirable and whether it is likely to take place First this book will enable those engaging with the law in Asia to understand better the contours of the law in both civil and common law jurisdictions Second it provides analytical insights into why secured transactions law reform happens or does not happen the different methods by which reform takes place the benefits of reform and the difficulties that need to be overcome for successful reform Third it discusses the need for reform where none has yet taken place and critically assesses the reforms which have already been enacted or are being considered In addition to providing a forum for discussion in relation to the countries in question this book is also a timely contribution to the wider debate on secured transactions law reform which is taking place around the world
