Security Problems And Policies In The Post Cold War Caribbean:

Security Problems and Policies in the Post-Cold War Caribbean Humberto Garcia Muniz, Jorge Rodriguez Beruff, 2016-07-27 This volume brings together contributions by eleven noted specialists on peace and security issues in the Caribbean. All chapters are based on recent research on the radically transformed regional situation in the post Cold War context. Particular emphasis is placed on the formulation of security policies by the most relevant security actors including both external powers present in the region, independent states and subregional groupings. This discussion is placed in the framework of post Cold War security outlooks which focus on non traditional threats, mainly drugs and illegal migration.

Security in the Caribbean Basin Joseph S. Tulchin, Ralph H. Espach, 2000 Since the end of the Cold War, security concerns in the Caribbean have changed from containment of communism to transnational threats such as drugs, illegal migration and natural disasters. This text analyzes the situation and puts forward a framework for a cooperative regional security system.

Crime, Violence and Security in the Caribbean M. Raymond Izarali, 2017-11-20 Security challenges pose significant hardship for citizens of Caribbean nations. Public safety is threatened by high rates of crime, especially violent crime. In much of the region, the plague of the illicit drug trade, transnational organized crime, gangs, the current global proliferation of crimes of terrorism and related violent extremism and radicalization. The situation diminishes morale among the youth, their education and their future and operates as a major push factor. Yet surprisingly, there has been a scarcity of scholarly work that addresses these conditions. This interdisciplinary volume succinctly responds to the gap in criminological and security studies on the Caribbean by drawing attention to the understudied nexus of crime, violence and security that is so pervasive in the region and the ways in which underdevelopment re-creates environments for insecurity. The book is organized in three parts. Part one encompasses conceptualizations of crime, violence and punishment. Part two takes up country cases on crime and security. Part three addresses issues of regional security, both public and private. This timely volume will be valuable reading for scholars, students, practitioners and policy makers who share a critical interest in the scope, impact and inter-relationality of crime, violence and in security in the region. [Rethinking Post-Cold War Russian-Latin American Relations](#)

Vladimir Rouvinski, Victor Jelfets, 2022-06-07 Today there is plenty of evidence that Russia has become a prominent external actor in Latin America and the Caribbean. Yet few books have attempted to better understand the reasons behind Russia's return and Moscow's continuous engagement in the region. In order to fill the gap, this volume offers the first interdisciplinary study of Russian-Latin American relations after the end of the Cold War. Across 16 chapters, leading experts from Russia, Europe, the United States and Latin America collectively re-examine the Soviet legacy to reveal the conditions in which Russia operates today and identify the key trends of contemporary Russian relations with this part of the world. The book then moves on to provide a detailed case study analysis of Russia's bilateral relations with Venezuela, Cuba, Mexico, Brazil, Argentina and Colombia, identifying the most critical dimensions of Russian engagement. *Rethinking Post Cold War Russian*

Latin American Relations allows readers to identify the fundamental driving forces of Russia's renewed commitment to the area its strategies and experiences The book will be of interest to readers of international relations and area studies historians of modern Latin America migration studies political economy and any political scientists interested in Russian decision making

Violence and Power Ken G. Irish-Bramble, 2018-05-02 Violence and Power is a collection of original essays written by Dr Ken G Irish Bramble The essays were all written while the author was a graduate student at NYU The essays cover a wide range of topics in the field of political science and Caribbean studies While they are somewhat dated they each cover timeless topics and provide meaningful insight

Social Movements in Development Staffan Lindberg, Arni Sverrisson, 2016-07-27 Nationalist movements in the South have been superseded by a plethora of different social movements This book examines these new movements and considers emerging paradigms of organization and mobilization which are related to the role movements play in economic and political development The book analyzes a number of cases and their context and discusses the implications for social movement theory The focus is on social movements among underprivileged and middle class groups and the book is global in scope

Capital beyond Borders Kenneth P. Thomas, 2016-07-27 This book challenges the established wisdom regarding the balance of bargaining power between multinational corporations and host governments Most theories beginning with Raymond Vernon's claim that the bargaining power of host states should increase over time This work shows the opposite is true at least for the automobile industry in the industrialized world The reason for this is the growing mobility of production which undercuts host states bargaining positions Capital mobility is thus central to both firm state relations and IPE generally

Latin America's New Insertion in the World Economy Ruud Buitelaar, Pitou van Dijck, 2016-07-27 Latin America's New Insertion in the World Economy examines the contributions governments can make in order to stimulate efficient and export orientated manufacturing production in small and medium sized economies in Latin America in the coming years The study focuses on the progress that has been made recently to correct policy failures of the past the obstacles and bottlenecks that have occurred in the process of economic transition and the challenges the selected countries face in order to stimulate in a systematic way the development of an internationally competitive manufacturing sector

Feminism and International Relations Sandra Whitworth, 2016-01-18 This book provides a critique of the discipline of international relations from a feminist perspective The critique is developed first theoretically Then the author examines both feminist theories and theories of international relations with a view to developing an approach to world politics which incorporates an analysis of gender and gender relations The critique is secondly developed through the application of the notion of gender to the activities of two international institutions the International Parenthood Federation and the International Labour Organisation

Diasporic Citizenship Michel S. Laguerre, 2016-07-27 This book briefly delineates the history of the Haitian diaspora in the United States in the nineteenth century but it primarily concerns itself with the contemporary period and more specifically with the diasporic enclave in New

York City It uses a critical transnational perspective to convey the adaptation of the immigrants in American society and the border crossing practices they engage in as they maintain their relations with the homeland It further reproblematises and reconceptualizes the notion of diasporic citizenship so as to take stock of the newer facets of the globalization process

The Geopolitics of Security in the Americas Martin Sicker, 2001-11-30 Sicker examines the role of the United States within the Western Hemisphere and the geopolitical and geostrategic factors that have helped shape its policies in the region He demonstrates that such factors have contributed heavily to establishing the patterns of state development and interstate relations in the Western Hemisphere throughout its modern history The prevailing geopolitical environment has been conditioned to a large extent by the emergence of the United States as the unquestionably dominant power in the extensive region However that status did not exist at the time it achieved its independence It was brought about through almost incessant conflict with and expansion at the expense of other states nations and peoples over more than a century As a result the concerns and interests of the dominant power became and remain of necessity factors that states beyond the borders of the United States must take into consideration when pursuing their own national interests and policies As Sicker amply demonstrates failure to do so will often produce undesirable consequences for the offending state As is clear however the states of the hemisphere have their own geopolitical interests and concerns independent of and sometimes conflicting with those of the United States As Sicker shows throughout the volume and especially in his analysis of inter American conflicts many of the nations of Latin America have unresolved territorial controversies with their neighbors that date to their origins as independent states Because of this troubled geopolitical legacy there have been numerous conflicts among the states of Latin America some of which the United States has attempted to mediate or arbitrate and some that seem impervious to a permanent negotiated settlement This is a provocative analysis that will be of interest to scholars students researchers and policymakers involved with inter American relations and U S diplomacy

International Relations Scholarship Around the World Arlene B. Tickner, Ole Wæver, 2009-06-24 It has become widely accepted that the discipline of International Relations IR is ironically not international at all IR scholars are part of a global discipline with a single shared object of study the world and yet theorizing gravitates around a number of concepts that have been conceived solely in the United States The purpose of this book is to re balance this western bias by examining the ways in which IR has evolved and is practiced around the world The fifteen case studies offer fresh insights into the political and socioeconomic environments that characterize diverse geocultural sites and the ways in which these traits inform and condition scholarly activity in International Relations By bringing together scholars living and working across the globe Tickner and Wæver provide the most comprehensive analysis of IR ever published It is essential reading for anyone who is concerned about the history development and future of international relations

Armed Forces and Conflict Resolution Giuseppe Caforio, Gerhard Kummel, Bandara Purkayastha, 2008-10-15 Covers the various aspects of war in the twenty first century where asymmetric

warfare has changed many rules of the game imposing a profound transformation on the military not only tactical but also structural preparatory mental and ideological This book also covers the delicate relations between the armed forces and societies *Naval War College Review* Naval War College (U.S.),1998 **Naval War College Review** ,1998

Contemporary Authors Terri M. Rooney,1998-05 Your students and users will find biographical information on approximately 300 modern writers in this volume of Contemporary Authors Authors in this volume include Janet Dawson Patrice Gaines Isabella Rossellini Markus Wolf *Neoliberalism and Class Conflict in Latin America* H. Veltmeyer,J. Petras,S. Vieux,2016-07-27 The 1980s in Latin America saw the implementation of a sweeping programme of economic reforms either imposed as a condition for securing new loans or to embrace the neoliberal doctrine of structural adjustment the ideology of a newly formed transnational capitalist class However the structural adjustment programme also generated widespread resistance especially from within the popular sector of civil society This book analyses both the politics of the adjustment process and the political dynamics of this resistance in Latin America Globalization, Liberalization and Policy Change S. McDowell,1997-01-21 After the introduction of a new economic policy of 1991 India is increasingly portrayed as a big emerging market for consumer goods and for broadcasting and communications services Policies for telecommunications computer software and television broadcasting in India have also shifted fundamentally The book considers communications policies in light of the role of communications in social and economic development and global patterns of trade and investment in communications and services *New West Indian guide* ,1999 Driven by Drugs Russell Crandall,2002 Crandall political science Davidson College examines the evolution of US policy towards Columbia largely driven by factors relating to the US s war on drugs as well as the roots of violence in Colombia He then focuses on US policy towards the country during two key periods the Samper administration 1994 1998 and the Pastrana administration 1998 2002 He concludes by assessing current US policy toward Colombia and suggesting directions for future policy Annotation copyrighted by Book News Inc Portland OR
