

Ancient Athens

The most powerful Classical city-state was Athens. Its bustling town spread out around a rocky hill called the Acropolis, topped with gleaming marble temples.

Around 100,000 people lived in Athens, including craftsmen, merchants, philosophers, and politicians.

The city was surrounded by high walls. Towered gateways were designed to let troops through and keep enemies out.

The first ever symposium in Athens was on the Acropolis. Later, the hill became a sacred place for worshipping the gods.

The city's streets

The square was surrounded by open-fronted market buildings called stoa.

The square market was at the heart of the city. Athenians came here to buy and sell goods, and catch up on the latest news.

Stoa of Poros

Place for worshipping gods

Many gods were discussed by a group of Athenians called the Areopagus. They met here in the heart of the city to debate important issues.

A long road called the Panathenaic Way led from the main city square.

Men, women and children lined up to work for each other. They went to the market square.

This building was used as a library, museum and a school.

Men could be on guard at the city walls.

There were no money from outside the state.

Athenian officials imposed laws to make sure no one was being cheated.

Teachers and poets had and gave but only the rich could afford more.
