

The background of the book cover is a detailed landscape painting. It depicts a wide, green valley with a winding river in the foreground. In the distance, there are rugged, snow-capped mountains under a cloudy sky. A small village with a church spire is visible on the right side of the valley. The overall style is reminiscent of 19th-century landscape art.

Seeing Through Death:

Animals as Seen Through God'S Eyes Dwila R. Funk, 2014-06-30 Have you ever wondered what happens to your beloved pet when he or she dies Will you ever be able to see him or her again in heaven Or have you been plagued by the disturbing thought that animals are only here on earth for our enjoyment in this life but when they die that is it for them and they are gone forever This haunted me for decades until I finally got up enough courage to seek out the truth for myself I went to the word of God to conduct my own research This book is the result of my quest to find the truth about how God really sees animals and His plan for them I was astounded by the wealth of information that God shares in the Holy Bible regarding animals The answers are there hidden in His word All anyone needs to do is look **Journal of the House of Representatives of the United States** United States. Kierkegaard and the Quest for Unambiguous Life George Pattison, 2013-01-10 This book looks at

Kierkegaard with a fresh perspective shaped by the history of ideas framed by the terms romanticism and modernism. Modernism here refers to the kind of intellectual and literary modernism associated with Georg Brandes and such later nineteenth and early twentieth century figures as J P Jacobsen, Nietzsche, Dostoevsky, Ibsen, all often associated with Kierkegaard in early secondary literature and the young Georg Lukacs. This movement, currently attracting increasing scholarly attention, fed into such varied currents of twentieth century thought as Bolshevism as in Lukacs himself, fascism and the early existentialism of e.g. Shestov and the radical culture journal *The Brenner* in which Kierkegaard featured regularly and whose readers included Martin Heidegger. Each of these movements has arguably its own Romantic aspect and Kierkegaard thus emerges as a figure who holds together or in whom are reflected both the aspirations and contradictions of early romanticism and its later nineteenth and twentieth century inheritors. Kierkegaard's specific staging of his authorship in the contemporary life of Copenhagen, then undergoing a rapid transformation from being the backward capital of an absolutist monarchy to a modern cosmopolitan city, provides a further focus for the volume. In this situation the early Romantic experience of nature as providing a source of healing and an experience of unambiguous life is transposed into a more complex and ultimately catastrophic register. In articulating these tensions, Kierkegaard's authorship provided a mirror to his age but also anticipated and influenced later generations who wrestled with their own versions of this situation.

Finding Meaning in Life, at Midlife and Beyond David Guttman, 2008-09-30. Having been mentored by Viktor E. Frankl, the founder of logotherapy, Emeritus Professor David Guttman authored this book so general readers may understand this approach to finding meaning in life at the point when most of us begin deeply wondering over that question at midlife and beyond. Especially in this day and age of multiple demands on our time and seemingly non-stop obligations, we too often find that it is only when the dust settles after a work day or work week or even after retirement when we begin to wonder: What is the meaning of life? The purpose of this book is a new millennium venture into those questions and their answers using logotherapy, written by a sage understudy who recalls Frankl with his logotherapy as the epitome of his theory, even at 80 years old, wise and witty, exuding an energy, enthusiasm and youthful spirit that belied his years by decades. Aging does not diminish our power, our energy and our quest for life but reshapes it with new understandings, goals and needs. But says Guttman, we live in a technical and machine-based world now in which there is a danger of losing our souls. Here readers find a new creative perspective on aging and a fresh spiritual outlook. This book will be of interest not only to general readers, especially those at midlife and beyond but also to their families, friends and students or professionals in the helping professions. This unique work provides knowledge to find meaning in life derived from the fields of philosophy, psychology, religion and gerontology with case illustrations and vignettes to give readers both intellectual pleasure and practical guidance.
