Boursier, 2019-11-19 Told through heart wrenching testimonies photographs and artwork of refugees fleeing their homelands Desperately Seeking Asylum

describes firsthand accounts of the harrowing and dangerous journey immigrants are willing to endure knowing that they might not even make it onto US soil. *Desperately Seeking Asylum* prioritizes the testimonies of refugee families and unaccompanied children who are seeking asylum in the United States from Central America primarily Guatemala, El Salvador and Honduras. Their desperate and heart wrenching stories disclose why they fled their homelands, their experiences along the treacherous overland journey and the harsh reality of how the United States treats these families and children upon arrival to the United States. It critiques US complicity to the violence they are fleeing and discloses how national leadership shapes US immigration policies and practices, including the blatant documented violations against asylum seekers at the US Mexico border. Most notably, it offers transparency on US immigration practices at the US Mexico border which violate existing US and international laws that are intended to protect asylum seekers, including the current official practice of blocking bridges with turnbacks to prevent inadmissibles from applying for asylum in the United States. It explains protections mandated by US law for unaccompanied children who are in US custody and discloses violations which keep these children detained excessive lengths of time in substandard for-profit facilities which are overseen by the government and funded by taxpayers. Boursier also deconstructs the complicated asylum process, including examining the credible fear for asylum procedure, showing how technical terms and language are used to justify injustice at the border. *Desperately Seeking Asylum* offers hope for a new vision with alternative options and practical actions which assist migrants through humanitarian aid on both sides of the border. The witness for compassionate and responsible response by people of conscience becomes an antidote to injustice against asylum seekers. Instead of the current administration manipulating US laws to support its ulterior motives and political agenda, Boursier asks readers to hold US elected officials accountable to the same Rule of Law that the United States demands of refugees. Ultimately, Boursier suggests a spectrum of options for practical ways to make the political personal through public witness and civic engagement to transform the broken immigration process for refugees who are desperately seeking asylum. *Seeking Asylum in the UK* Colin Harvey, 2000-09. An examination of the emergence of the legal regime in the United Kingdom addressing refugees and asylum seekers.

It considers the challenges and dilemmas faced by all involved, including clients, clinicians, and service planners, with a wealth of practical information about how to assess and understand strengths and needs, avoid inappropriate conclusions and discrimination, consider treatment options, and

write records and reports The authors emphasise that effective support depends on reflection humanity and compassion The book is a must have resource for professionals working with those who have to seek asylum **Seeking Asylum Alone** Mary Crock,2006 Unaccompanied and separated children continue to be caught up in programs to deflect unauthorised Australian boat arrivals to offshore processing centres If such children do make it to Australia the processes for identifying children travelling alone are inadequate with too much reliance placed on the self identification of such children No child victim of trafficking has been identified in Australia since 1994 Australia s refugee status determination system was established with adult asylum seekers as the norm Children face obvious disadvantage in both articulating their story and in being heard At the crucial first point of contact with authorities children are required to articulate their need for protection without either an advisor or an effective guardian Case studies of children within the asylum process also suggest that immigration officials and officials at appellate level have been poorly trained and have lacked the skills to deal with child asylum seekers with appropriate sensitivity Another barrier faced by these children is legal questions remain as to how well the international definition of refugee has been read to accommodate the particular experiences of children It is hoped that this report will encourage Australian officials to think seriously about children as refugees in their own right most particularly when the children are travelling alone This Report was funded by the MacArthur Foundation Chicago the Australian Research Council and the Myer Foundation Also available Seeking Asylum Alone A Comparative Study Unaccompanied and Separated Children and Refugee Protection in Australia the UK and the US by Jacqueline Bhabha and Mary Crock Seeking Asylum in the European Union Céline Bauloz,Meltem Ineli-Ciger,Sarah Singer,Vladislava Stoyanova,2015-05-19 Seeking asylum in the European Union EU today is as complex as the EU asylum system itself the different forms of protection that exist do not remain easily accessible and are sometimes not tailored to the specific protection needs of asylum seekers The aim of this volume is to provide critical analyses of selected problems that scholars and policy makers will have to address in the second phase of the Common European Asylum System A broad range of issues are examined relating to access to and qualification for international protection and the further problems raised by this amended set of asylum instruments which continue to impede asylum seekers from benefiting from effective protection in EU Member States With a foreword by Professor H l ne Lambert Raising Young Refugees' Voices in Europe and Beyond Samuel Boutruche,Stéphanie Bourgeois,Nadine Lyamouri-Bajja,2008-01-01 Young refugees and asylum seekers represent a group of displaced youth with specific needs and assets Their situation urgently requires closer examination and youth policies addressing their needs must be devised taking into account their difficult past experiences and their often insecure or instable situation in host countries including emotional social and economic challenges The aim of this report is to convey the main points of a training seminar organised in close co operation with the UNHCR Representation in Strasbourg it brought together young forcibly displaced persons and other young people working in their favour The organisers and

participants of the seminar were driven by the strong conviction that all young people need to participate in building Europe that social cohesion implies the inclusion of marginalised minority youth and that nobody can talk about young refugees needs and assets better than young refugees themselves This publication presents the most important ideas reflections and recommendations formulated by the participants it is a collection of testimonies and ideas from young people who have themselves experienced various situations difficulties and successes as young refugees in Europe *Bad News for Refugees* Greg Philo, Emma Briant, Pauline Donald, 2013-08-12 *Bad News for Refugees* analyses the political economic and environmental contexts of migration and looks specifically at how refugees and asylum seekers have been stigmatised in political rhetoric and in media coverage Through forensic research conducted through interviews and analysis of media accounts a history of contemporary migration and asylum is written The authors examine the various catalysts for migration in doing so reveal how economic migrants refugees and asylum seekers are often conflated by the media They explain negative reactions to new arrivals describing the benefit cheat criminals and job stealing narratives that dominate anti migrant discourse Case studies reveal how hysterical and inaccurate media accounts act to legitimise political action can have terrible consequences both on the lives of refugees and also on established migrant communities Based on new research by the renowned Glasgow Media Group this book is essential reading for those concerned with the negative effects of media on public understanding and for the safety of vulnerable groups and communities in our society *Documents* Council of Europe: Parliamentary Assembly, 2006-01-27 Impoverishment and Asylum Lucy Mayblin, 2019-11-27 *Impoverishment and Asylum* argues that a shift has taken place in recent decades towards construing asylum as primarily a political and or humanitarian phenomenon to construing it as primarily an economic phenomenon and that this shift has had led to the purposeful impoverishment by the state of people seeking asylum in the UK This shift has far reaching consequences for people seeking asylum who have been systematically impoverished as part of the effort to strip out any possibility of an economic pull factor leading to more arrivals but also for those administering their support system and for civil society organisations and groups who seek to ameliorate the worst effects of the resulting asylum regimes This book argues that within this context asylum support policies in the UK which are meant to help and protect in fact do serious harm to their recipients It argues that the shift from construing asylum seekers as economically rather than politically motivated migrants across the West is part of a much broader set of historical and philosophical worldviews than has previously been articulated The book offers a rigorously researched and richly theorised analysis drawing on postcolonial and decolonial perspectives in making sense of the purposeful impoverishment by the state of a particular group of people and why this continues to be tolerated in the fourth richest country in the world **Doing Research with Refugees** Bogusia Temple, Rhett Moran, 2011-03-16 Explores methodological issues relating to the involvement of refugees in service evaluation and development building on a two year seminar series funded by the ESRC and attended by a range of
