## **Segunda Fundación / Second Foundation:**

Segunda fundación Isaac Asimov, 2014-12-01 Hari Seldon predijo la caída del Imperio y con el fin de restaurar la civilización en el menor tiempo posible creó dos Fundaciones. La primera fue establecida en Tróia a plena luz del conocimiento público. La segunda en el otro extremo de la galaxia tomó forma bajo un velo de total silencio ya que custodiaba las leyes de la psiquiatría que solo son válidas mientras permanezcan en secreto. Cuando la Primera Fundación fue conquistada por el poder de una sola persona, un mutante llamado el Mulo, la Segunda Fundación se vio forzada a revelar su existencia y lo que es peor, una parte de su poder. El Mulo y los vestigios de la Primera Fundación harían cualquier cosa por descubrirla. Esta es la historia de la Segunda Fundación. Segunda Fundación / Second Foundation Isaac Asimov, 2022-12-06 Segunda Fundación es el quinto volumen del Ciclo de la Fundación pero también es el cierre de la original Trilogía de la Fundación o Ciclo de Tróia que puede leerse independientemente y que fue galardonada con el Premio Hugo a la mejor serie de ciencia ficción de todos los tiempos. La Fundación yace en ruinas arrasada por la inteligencia mutante del Mulo. Sin embargo se rumorea que Hari Seldon, el científico que lo inició todo, ha establecido una Segunda Fundación al otro lado de la galaxia cuya ubicación exacta es un secreto guardado desde hace tiempo. Obligada a revelar su existencia, la Segunda Fundación deberá enfrentarse a la voluntad destructora del Mulo con el añadido de que los supervivientes de la Primera Fundación también quieren acabar con ella. Un talento de proporciones cósmicas. Chicago Tribune ENGLISH DESCRIPTION The third novel in Isaac Asimov's classic science fiction masterpiece the Foundation series. The Foundation lies in ruins destroyed by a mutant mind bent on humanity's annihilation. But it is rumored that there is a Second Foundation hidden somewhere at the end of the Galaxy established as insurance to preserve the knowledge of mankind. Now a desperate race has begun between the survivors of the First Foundation and an alien entity to find this last flicker of humanity's shining past and future hope. Yet the key to it all might be a fourteen-year-old girl burdened with a terrible secret. Is she the Foundation's savior or its deadliest enemy? Unforgettable thought provoking and riveting. Second Foundation is a stunning novel of adventure and ideas writ huge across the Galaxy a powerful tale of humankind's struggle to preserve the fragile light of wisdom against the threat of its own dark barbarism.

**La ciencia ficción de Isaac Asimov** Rodolfo Martínez, 2021-10-04 PREMIO IGNOTUS 2013 AL MEJOR LIBRO DE ENSAYO. UN FASCINANTE REPASO POR LA OBRA DEL CREADOR DE FUNDACIÓN. Isaac Asimov fue uno de los más prolíficos y polifacéticos escritores del pasado siglo: ensayista, narrador, divulgador, científico. Es sin embargo por su obra de ciencia ficción por lo que es más conocido del gran público. A ese género dedicó algunas de sus mejores páginas y siempre lo sintió como el más cercano a su corazón incluso cuando no pasaba de ser una parte de su ingente producción. Aunque su Trilogía de la Fundación y sus novelas de robots son lo que lo ha hecho más popular, Asimov tocó casi todas las temáticas de la ciencia ficción y creó alguno de los mejores relatos y novelas del género en su etapa clásica. Rodolfo Martínez repasa de un modo exhaustivo su narrativa de ciencia ficción desde una perspectiva cronológica comenzando por los primeros relatos que escribió en su

adolescencia y terminando por su novela postuma Hacia la Fundación con la que cerraba el ciclo narrativo que lo había hecho famoso.

**El fin de la eternidad** Isaac Asimov, 2011-11-22 Andrew Harlan ha cometido un crimen pero su acto no es un simple delito Porque la ley que ha quebrantado es la más importante de todas para un Ejecutor la ley que impide que miles de años de historia sean borrados y reescritos de forma irreversible por la guerra la muerte y la decadencia Pero ni siquiera la Eternidad la organización a la que pertenece puede detenerle Harlan ha sido entrenado para introducir cambios en el tiempo y sólo puede rescatar a la única persona que le importa antes de que uno de los cambios la haga desaparecer para siempre Lo que Harlan no sabe sin embargo es que lo que está en juego es mucho más de lo que él cree Y lo que no podrá imaginar de ningún modo es la partida de ajedrez temporal de la que forma parte una partida que puede decidir el futuro de la humanidad

**Los propios dioses** Isaac Asimov, 2011-11-21 El futuro. En un universo paralelo con leyes físicas ligeramente distintas a las nuestras sus habitantes descubren la forma de intercambiar materia con nosotros. Materia que una vez en el universo de destino y merced a las diferencias físicas entre ambos comienza a desprender energía de forma espontánea. Una vez consumida la capacidad energética del material puede volver a ser intercambiado para recomenzar el ciclo. ¿Qué podremos hacer con un suministro de energía gratuita e inagotable?

*Twenty-second Annual Symposium on Sea Turtle Biology and Conservation* Jeffrey Aleksandr Seminoff, 2003 *Foundations of Human Sociality* Joseph Henrich, Robert Boyd, Samuel Bowles, Colin Camerer, Ernst Fehr, Herbert Gintis, 2004-03-25 What motives underlie the ways humans interact socially? Are these the same for all societies? Are these part of our nature or influenced by our environments? Over the last decade research in experimental economics has emphatically falsified the textbook representation of Homo economicus. Literally hundreds of experiments suggest that people care not only about their own material payoffs but also about such things as fairness, equity and reciprocity. However this research left fundamental questions unanswered: Are such social preferences stable components of human nature or are they modulated by economic, social and cultural environments? Until now experimental research could not address this question because virtually all subjects had been university students and while there are cultural differences among student populations throughout the world these differences are small compared to the full range of human social and cultural environments. A vast amount of

ethnographic and historical research suggests that people's motives are influenced by economic social and cultural environments yet such methods can only yield circumstantial evidence about human motives Combining ethnographic and experimental approaches to fill this gap this book breaks new ground in reporting the results of a large cross cultural study aimed at determining the sources of social non selfish preferences that underlie the diversity of human sociality The same experiments which provided evidence for social preferences among university students were performed in fifteen small scale societies exhibiting a wide variety of social economic and cultural conditions by experienced field researchers who had also done long term ethnographic field work in these societies The findings of these experiments demonstrated that no society in which experimental behaviour is consistent with the canonical model of self interest Indeed results showed that the variation in behaviour is far greater than previously thought and that the differences between societies in market integration and the importance of cooperation explain a substantial portion of this variation which individual level economic and demographic variables could not Finally the extent to which experimental play mirrors patterns of interaction found in everyday life is traced The book starts with a succinct but substantive introduction to the use of game theory as an analytical tool and its use in the social sciences for the rigorous testing of hypotheses about fundamental aspects of social behaviour outside artificially constructed laboratories The results of the fifteen case studies are summarized in a suggestive chapter about the scope of the project
