Claiming Value Alena Wolflink, 2022-09-08 Value is typically theorized from the frameworks of economic theory or of moral ethical theory but we need to instead think about value foremost as political Alena Wolflink uncovers a tension in value

discourses between material and aspirational life As she shows erasing this tension as has been the historical tendency can entrench existing configurations of power and privilege while acknowledging the tension is a vital part of democratic practice Using genealogical conceptual historical and interpretive approaches and drawing from such diverse sources as Aristotle Anna Julia Cooper Michael Warner Alicia Garza and Patrisse Khan Cullors Wolflink argues that abstractions of value discourse in both economic theory and moral philosophy have been complicit in devaluing the lives of women queer people and people of color Yet she further argues that value claims nonetheless hold democratic potential as a means of asserting and defining priorities that center the role of political economy in the making of political communities With many real world examples vividly portrayed Claiming Value is an unusually accessible work of political theory accessible to students in courses on political theory moral philosophy social theory economic theory democracy social inequality and more

be experiencing gaslighting a powerful form of emotional manipulation used by narcissists to confuse control and dismantle your sense of self. It doesn't always leave visible scars but the damage it causes can run deep leaving you anxious, disconnected and unsure of who you are. Gaslighting is a psychological tactic where someone deliberately distorts the truth to make you doubt your reality. Narcissistic abuse takes it further; these relationships are marked by extreme self-centeredness, a lack of empathy and manipulative behaviors that slowly erode your self-esteem. You may feel trapped in a cycle of emotional highs and lows, constantly questioning whether the pain you're in is real or your fault. Over time, your needs, dreams and even identity can become buried under guilt, fear and confusion. This book was written for the woman who is ready to break free from that cycle. *Gaslighting Narcissistic Abuse Recovery for Women* offers a compassionate, trauma-informed roadmap for healing. Drawing from psychological insights, therapeutic tools and real-world experience, this book will empower you to understand exactly what gaslighting and narcissistic abuse are and how they show up in romantic relationships, families and friendships. Recognize the signs of emotional manipulation even when it's subtle or disguised as love. Break free from people-pleasing and emotional dependency by learning how to set healthy boundaries and honor your inner voice. Heal from toxic love, rebuild your confidence and reconnect with the woman you were before the abuse. Reclaim your identity, trust your own perception again and create relationships rooted in mutual respect and truth. Each chapter offers both clarity and action so you're not just learning, you're changing. This book meets you with empathy but also leads you with strength. Social Work Practice for Promoting Health and Wellbeing Liz Beddoe, Jane Maidment, 2013-12-17. Promoting health and wellbeing is an essential part of all effective social work, not just for practice in healthcare settings. In fact, the IFSW holds that social workers in all settings are engaged in health work and physical and mental resilience can make a major difference to all service users' lives. Drawing on international literature and research, the authors collected here encourage thinking about the social, political, cultural, emotional, spiritual, economic and spatial aspects of health and wellbeing and how they impact on the unique strengths and challenges of working with particular populations and communities. Divided into three parts, the first section outlines the major theoretical paradigms and critical debates around social work and ideas of wellbeing, globalisation, risk and vulnerability and the natural environment. The second part goes on to explore how diverse understandings of culture, identity, spirituality and health require different strategies for meeting health and wellbeing needs. The final part presents a variety of examples of social work research in relation to health and wellbeing with specific populations including mental health. Exploring how structural inequality, oppression and stigma can impact upon people and drawing upon a social model of health, this book is an important read for all practitioners and researchers interested in social work, public health and social
