Hidden Gospels Philip Jenkins, 2002-12-05 This incisive critique thoroughly and convincingly debunks the claims that recently discovered texts such as the Gospel of Thomas the Gospel of Mary and even the Dead Sea Scrolls undermine the historical validity of the New Testament Jenkins places the recent controversies surrounding the hidden gospels in a broad historical context and argues that far from being revolutionary such attempts to find an alternative Christianity date back at least to the Enlightenment By employing the appropriate scholarly and historical methodologies he demonstrates that the

texts purported to represent pristine Christianity were in fact composed long after the canonical gospels found in the Bible. Produced by obscure heretical movements these texts have attracted much media attention chiefly because they seem to support radical feminist and post modern positions in the modern church. Indeed Jenkins shows how best selling books on the hidden gospels have been taken up by an uncritical drama hungry media as the basis for a social movement that could have powerful effects on the faith and practice of contemporary Christianity.

The Nanteos Grail John Matthews, Ian Pegler, Fred Stedman-Jones, 2022-03-15 Did seven monks carry The Grail from Glastonbury Abbey at the time of the Dissolution of the Monasteries in 1539 to the Cistercian Abbey of Strata Florida in Mid Wales? Maidens, Magic and Martyrs in Early Christianity Jan N. Bremmer, 2017-07-13 In this work Jan N. Bremmer aims to bring together the worlds of early Christianity and those of ancient history and classical literature worlds that still all too rarely interlock. Contextualising the life and literature of the early Christians in their Greco Roman environment he focusses on four areas. A first section looks at more general aspects of early Christianity: the name of the Christians, their religious and social capital, prophecy and the place of widows and upper class women in the Christian movement. Second, the chronology and place of composition of the early apocryphal Acts of the Apostles and Pseudo Clementines are newly determined by paying close attention to their doctrinal contents but also innovatively to their onomastics and social vocabulary. The author also analyses the frequent use of magic in the Acts and explains the prominence of women by comparing the Acts to the Greek novel. Third, an investigation into the theme of the tours of hell suggests a new chronological order: shows that the Christian tours were indebted to both Greek and Jewish models and illustrates that in the course of time the genre dropped a large part of its Jewish heritage. The fourth and final section concentrates on the most famous and intriguing report of an ancient martyrdom: the Passion of Perpetua. It pays special attention to the motivation and visions of Perpetua which are analyzed not by taking recourse to modern theories such as psychoanalysis but by looking to the world in which Perpetua lived: both Christian and pagan. It is only by seeing the early Christians in their ancient world that we might begin to understand them and their emerging communities.

Knowledge Lost Martin Mulrow, 2025-08-19 A compelling alternative account of the history of knowledge from the Renaissance to the Enlightenment. Until now the history of knowledge has largely been about formal and documented accumulation concentrating on systems, collections, academies and institutions.

The central narrative has been one of advancement refinement and expansion Martin Mulrow tells a different story Knowledge can be lost manuscripts are burned oral learning dies with its bearers new ideas are suppressed by censors Knowledge Lost is a history of efforts from the Renaissance to the Enlightenment to counter such loss It describes how critics of ruling political and religious regimes developed tactics to preserve their views how they buried their ideas in footnotes and allusions how they circulated their tracts and treatises in handwritten copies and how they commissioned younger scholars to spread their writings after death Filled with exciting stories Knowledge Lost follows the trail of precarious knowledge through a series of richly detailed episodes It deals not with the major themes of metaphysics and epistemology but rather with interpretations of the Bible Orientalism and such marginal zones as magic And it focuses not on the usual major thinkers but rather on forgotten or half forgotten members of the knowledge underclass such as Pietro della Vecchia a libertine painter and intellectual Charles C sar Baudelot an antiquarian and numismatist and Johann Christoph Wolf a pastor Hebrew scholar and witness to the persecution of heretics Offering a fascinating new approach to the intellectual history of early modern Europe Knowledge Lost is also an ambitious attempt to rethink the very concept of knowledge
