Army at Home Judith Giesberg, 2009-09-01 Introducing readers to women whose Civil War experiences have long been ignored Judith Giesberg examines the lives of working class women in the North for whom the home front was a battlefield of its own Black and white working class women managed farms that had been left without a male head of household worked in munitions factories made uniforms and located and cared for injured or dead soldiers As they became more active in their new roles they became visible as political actors writing letters signing petitions moving or refusing to move from their homes and confronting civilian and military officials At the heart of the book are stories of women who fought the draft in New York and Pennsylvania protested segregated streetcars in San Francisco and Philadelphia and demanded a living wage in the needle trades and safer conditions at the Federal arsenals where they labored Giesberg challenges readers to think about women and children who were caught up in the military conflict but nonetheless refused to become its collateral damage She offers a dramatic reinterpretation of how America s Civil War reshaped the lived experience of race and gender and brought swift and lasting changes to working class family life **Gender Responsive Budgeting in South Asia**

Blum, 2008-03-19 Thirty years after the headlines Love Canal remains synonymous with toxic waste When this neighborhood of Niagara Falls New York burst upon the nation's consciousness the media focused on a working class white woman named Lois Gibbs who gained prominence as an activist fighting to save families from the poison buried beneath their homes Her organization the Love Canal Homeowners Association challenged big government and big business and ultimately won relocation But as Elizabeth Blum now shows the activists at Love Canal were a very diverse lot Blum reveals that more lurks beneath the surface of this story than most people realize and more than mere toxins She takes readers behind the headlines to show that others besides Gibbs played important roles and to examine how race class and gender influenced the way people from African American women to middle class white Christian groups experienced the crisis and became active at Love Canal Blum explores the often rocky interracial relationships of the community revealing how marginalized black women fought to be heard as they defined their environmental activism as an ongoing part of the civil rights struggle And she examines how the middle class Ecumenical Task Force consisting of progressive educated whites helped to negotiate legal obstacles and to secure the means to relocate and compensate black residents Blum also demonstrates how the crisis challenged gender lines far beyond casting mothers in activist roles Women of the LCHA may have rejected feminism because of its anti family stance but they staunchly believed in their rights And the incident changed the lives of working class men who found their wives in the front lines rather than in the kitchen In addition male bureaucrats and politicians ran into significant opposition from groups of both men and women who pressed for greater emphasis on health rather than economics for solutions to the crisis No previous account of Love Canal has considered the plight of these other segments of the population By doing so Blum shows that environmental activism opens a window on broader social movements and ideas such as civil rights and feminism Her book moves the story of Love Canal well beyond its iconic legacy the Superfund Act that makes polluters accountable to highlight another vital legacy one firmly rooted in race class and gender
