Lost Continents:

Lost Continents L. Sprague de Camp, 2012-07-17 DIV Leading authority examines facts and fancies behind the Atlantis theme in history science and literature Sources include Plato Thomas More K T Frost and many other citations both famous and lesser known Related legends are also recounted and refuted and reports document attempts to prove the continent's existence including accounts of actual expeditions div *Vanished Islands and Hidden Continents of the Pacific* Patrick D. Nunn, 2008-10-31 Islands as well as entire continents are reputed to have disappeared in many parts of the world Yet there is little information on this subject concerning its largest ocean the Pacific Over the years geologists have amassed data that point to the undeniable fact of islands having disappeared in the Pacific a phenomenon that the oral traditions of many groups of Pacific Islanders also highlight There are even a few instances where fragments of Pacific continents have disappeared becoming hidden from view rather than being submerged In this scientifically rigorous yet readily comprehensible account of the fascinating subject of vanished islands and hidden continents in the Pacific the author ranges far and wide from explanations of the region's ancient history to the meanings of island myths Using both original and up to date information he shows that there is real value in bringing together myths and the geological understanding of land movements A description of the Pacific Basin and the ups and downs of the land within its vast ocean is followed by chapters explaining how long before humans arrived in this part of the world islands and continents that no longer exist were once present A succinct account is given of human settlement of the region and the establishment of cultural contexts for the observation of occasional catastrophic earth surface changes and their encryption in folklore The author also addresses the persistent myths of a sunken continent in the Pacific which became widespread after European arrival and were subsequently incorporated into new age and pseudoscience explanations of our planet and its inhabitants Finally he presents original data and research on island disappearances witnessed by humans recorded in oral and written traditions and judged by geoscience to be authentic Examples are drawn from throughout the Pacific showing that not only have islands collapsed and even vanished within the past few hundred years but that they are also liable to do so in the future

Lost Continents & the Hollow Earth David Hatcher Childress, Richard S. Shaver, 1999 This book is Childress thorough examination of the early hollow earth stories of Richard Shaver and the fascination that fringe fantasy subjects such as lost continents UFOs and the hollow earth have had on people Shaver's rare 1948 book *I Remember Lemuria* is reprinted in its entirety and the book is packed with illustrations from Ray Palmer's *Amazing Stories* issues of the 1940s Childress discusses famous hollow earth books and delves deep into whatever reality may be behind the stories of tunnels underground [Lost Continents](#) Lyon Sprague De Camp, 1954 *Atlantis & Lemuria* Tom T. Moore, 2015-08-01 Sixty thousand years ago Earth had two more continents than it does today each larger than what we now know as Australia Why are they no longer there One of these additional continents Atlantis was located in the Atlantic Ocean between North America and Africa The other Lemuria was

located in the Pacific Ocean In this book you ll learn all about these huge continents and the great civilizations who called them home What did they look like What was daily life like for them What happened to them Tom asks these intriguing questions and many more The answers revealed on the pages within dig into the mysteries surrounding the continents of Atlantis and Lemuria and their eventual destructions **Atlantis and Lemuria: The Lost Continents Revealed** Tom T. decaying and corrupt Its people are growing soft and decadent and many live in squalor Rebellion is in the air and prophecies of doom ring forth Into this epic drama of the end of time stride two memorable characters the warrior priest Deucalion stern just and loyal and the Empress Phorenice brilliant ambitious and passionate The old and new Atlantis collide in a titanic showdown between Deucalion and Phorenice a struggle that soon affects the destiny of an entire civilization

The Cult of Alien Gods Jason Colavito, 2010-03-05 Fans of fantasy horror writer H P Lovecraft must add *The Cult of Alien Gods* H P Lovecraft and Extraterrestrial Pop Culture to their reading lists California Bookwatch Combining literary theory cultural criticism and muckraking Colavito aims to debunk alternative history He does a fair job of presenting his case using a great deal of textual analysis but believers will dismiss it as yet another attempt to suppress the truth while those who haven't been immersed in the literature are likely to be bewildered or indifferent the writing is engaging and the topic intriguing Publishers Weekly Nearly half of all Americans believe in the existence of extraterrestrials and many are also convinced that aliens have visited earth at some point in history Included among such popular beliefs is the notion that so called ancient astronauts visitors from outer space were responsible for historical wonders like the pyramids In *The Cult of Alien Gods* author Jason Colavito reveals for the first time that the entire genre of ancient astronaut books is based upon fictional horror stories whose author once wrote that he never wished to mislead anyone In this entertaining and informative book Colavito traces the origins of the belief in ancient extraterrestrial visitors to the work of horror writer H P Lovecraft 1890-1937 This amazing tale takes the reader through fifty years of pop culture and pseudoscience highlighting such influential figures and developments as Erich von Däniken *Chariots of the Gods* Graham Hancock *Fingerprints of the Gods* Zecharia Sitchin *Twelfth Planet* and the Raelian Revolution The astounding and improbable connections among these various characters are revealed along with the disturbing consequences of Lovecraft's little joke for modern science and public knowledge Beyond documenting Lovecraft's influence on ancient astronaut theories and Raelian cloning efforts Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success He suggests that at the dawn of the 21st century Western society is witnessing a deep seated erosion of Enlightenment values that are the basis of the modern world Jason Colavito is a freelance writer and editor who has written for *Skeptic* magazine among other publications

Japanese Religions and Globalization Ugo Dessì, 2013 This book analyzes the variety of ways through which Japanese religions Buddhism Shintō and new religious movements contribute to the dynamics of accelerated globalization in recent decades It looks at how Japanese religions provide material to cultural global flows thus acting as carriers of globalization and how they respond to these flows by shaping new global identities The book highlights how paradoxically these processes of religious hybridization may be closely intertwined with the promotion of cultural chauvinism

It shows how on the one hand religion in Japan is engaged in border negotiation with global subsystems such as politics secular education and science and how on the other hand it tries to find new legitimation by addressing pressing global problems such as war the environmental crisis and economic disparities left unsolved by the dominant subsystems A significant contribution to advancing an understanding of modern Japanese religious life this book is of interest to academics working in the fields of Japanese Studies Asian history and religion and the sociology of religion **Atlantis in America** Ivar Zapp,George Erikson,1998 This text presents evidence for a new theory that the great stone spheres of Costa Rica and sighting stones throughout the Pacific were used to teach sea routes and constellation paths to navigators of the ancient world It reveals substantial links between Meso America and Egypt and the Middle East Eccentric Lives and Peculiar Notions John Michell,1999-04 Takes us into the bizarre and often humorous lives of such people as Lady Blount who was sure that the earth is flat Cyrus Teed who believed that the earth is a hollow shell with us in the inside Edward Hine who believed that the British are the lost Tribes of Israel and Baron de Guldenstubbe who was sure that statues wrote him letters British writer and housewife Nesta Webster devoted her life to exposing international conspiracies and Father O Callaghan devoted his to opposing interest on loans The extraordinary characters in this book were and in some cases still are wholehearted enthusiasts for the various causes and outrageous notions they adopted and John Michell describes their adventures with spirit and compassion *Catalog of Copyright Entries.
