Sermons on the Old Testament, 20-50* Saint Augustine (of Hippo),1990 [Tsunami Recovery in Sri Lanka](#) Dennis B. McGilvray,Michele R. Gamburd,2013-05-13 The Indian Ocean Tsunami which devastated 70 percent of Sri

Lanka's coastline and killed an estimated 35 000 people was remarkable both for the magnitude of the disaster and for the unprecedented scale of the relief and recovery operations mounted by national and international agencies. The reconstruction process was soon hampered by political patronage by the competing efforts of hundreds of foreign humanitarian organizations and by the ongoing civil war. The book is framed within this larger political and social context offering descriptions and comparisons between two regions southwest vs eastern coast and four ethnic communities Sinhalese Tamils Muslims and Burghers to illustrate how disaster relief unfolded in a culturally pluralistic political landscape. Approaching the issue from four disciplinary perspectives anthropology demography political science and disaster studies chapters by experts in the field analyse regional and ethnic patterns of post tsunami reconstruction according to different sectors of Sri Lankan society. Demonstrating the key importance of comprehending the local cultural contexts of disaster recovery processes the book is a timely and useful contribution to the existing literature.

Post Traumatic Success Fredrike Bannink, 2014-10-13

Resiliency focused approaches to managing trauma. This is a book to help clients to transform what happened to them to make them better instead of bitter. The first book on trauma to combine the theory and practice of positive psychology and solution focused brief therapy with traditional approaches this book veers away from a focus on pathology what is wrong with clients and how to repair the worst to a focus on what is right with them and how to create the best that is from post traumatic stress to post traumatic success. The three R's of post traumatic success are Recovery Resilience and enrichment. Post traumatic growth concepts depicted by the bamboo plant on the book's cover. Trauma professionals will learn what it takes to help more survivors benefit more substantively from therapy and how to support their clients in developing longer term resilience. By practicing the skills in this book they can increase their clients self efficacy and self esteem and make psychotherapy shorter in time more cost effective and more lighthearted for their clients and themselves. Written for all professionals and students working with trauma survivors both adults and children and their families and friends it equips readers with practical direction for adopting a more positive approach and expanding their range of available techniques. Over a hundred exercises thirty three cases and forty stories are presented to illustrate and help incorporate this new approach into practice. It's about time to turn the tide on treating trauma by shifting the focus from reducing distress and merely surviving to building success and positively thriving.
