portrays the conflict between artistic integrity and material ambition between the provincial innocence of Lucien's origins and the cynical pragmatism of the Parisian elite. The novel explores themes such as betrayal, vanity, and the fragile line between illusion and reality. The enduring power of *Lost Illusions* lies in its timeless portrayal of the dangers of idealism in a world governed by power and money. It remains a profound meditation on ambition, disillusionment, and the personal cost of chasing success, making it one of the most resonant and relevant novels in the history of French literature.

The lost illusions Honoré de Balzac, 1904 ***Lost illusions. Gaudissart II*** Honoré de Balzac, 1899 *Mastery and Lost Illusions* Włodzimierz Borodziej, Stanislav Holubec, Joachim Puttkamer, 2014-10-15

This volume highlights the specific experiences and challenges of modernity in twentieth-century Eastern and Central Europe. Contributors ask how spatial and temporal conditions shaped the region's transformation from a rural to an urban industrialized society in this period and investigate the state's role in the mastery of space, particularly in the context of state socialism. The volume also sheds light on the ruralization of cities and mutual perceptions of the rural and urban populations in this region.

Titanic: Ship of Lost Illusions Kevin Brown, 2025-05-30

A fresh exploration of the Titanic disaster reveals how class, gender, and racial prejudices shaped contemporary responses. When it set sail on its ill-fated maiden voyage, RMS Titanic was a marvel of modern technology and the latest in luxury, providing a gilded setting and false sense of security for its passengers to act out their imagined ideal lives in a reflection of pre-First World War society. When disaster struck in the form of an iceberg four days into its maiden voyage, that society was frozen in a moment of time, revealing class, gender, and racial discrimination that pervaded contemporary social attitudes. Kevin Brown takes a fresh approach in exploring the social attitudes to class, manliness, heroism, and cowardice, social redemption, the proper role of women, and the social, religious, and racial prejudices revealed by the sinking. He re-evaluates the code of women and children, first revealing how attitudes glorifying manliness influenced the behaviour of passengers and crew during the sinking, as well as suggesting a narrative of chivalry and self-sacrifice to create heroes from the victims and brand the surviving men as cowards, an interpretation that is challenged here. Eyewitness accounts evoke the horror of the night and reveal the underlying ideas of the day. They also show that women played a less passive role than expected of them. The responses to the sinking by politicians across the spectrum, the labour movement, and suffragettes, suffragists, and anti-suffragists are explored to show more critical contemporary responses to the disaster that challenge the heroic narrative. It was a world that was never so confident in modernity after the disaster but yet still held on to illusions of chivalry.
