What America Lost: Decades That Made a Difference Sallie Ferrell Bolich, 2009-08-04 As the fifties ended we were about to embark on a journey that would take our American society in a completely new direction By reviewing history we can identify how the tumultuous sixties chose our path while each decade beginning in 1950 and continuing through 2000 determined our course at that time On this journey many values and lifestyles experienced by the Baby Boomers were left behind not passed on to their children Gen X and Gen Y The resulting new outlook profoundly influenced attitudes held by these emerging generations The fascinating field of handwriting analysis serves as our GPS which enables us to identify these attitudes trace where we've been and understand where society is today Handwriting is an

expression of self and attitudes resulting from personal experiences social interactions and events that made a significant impact Reliving the journey with insight is made possible by studying handwriting samples obtained from high school yearbooks covering those five decades Numerous historical and societal changes profoundly influenced attitudes of today These attitudes mirror our culture Handwriting analysis will not reveal precise societal changes however it will reveal how these changes impact attitudes

The Hours Have Lost Their Clock Grafton Tanner,2021-10-12 The Hours Have Lost Their Clock charts the rise of nostalgia in an era knocked out of time In The Hours Have Lost Their Clock Grafton Tanner charts the rise of nostalgia in an era knocked out of time Nostalgia is the defining emotion of our age Political leaders promise a return to yesteryear Old movies are remade and cancelled series are rebooted Veterans reenact past wars while the displaced across the world long for home But who is behind this collective ache for a home in the past Do we need to eliminate nostalgia or just cultivate it better And what is at stake if we make the wrong choice Moving from the fight over Confederate monuments to the birth of homeland security to the mourning of species extinction Grafton Tanner traces nostalgia s ascent in the twenty first century revealing its power as both a consequence of our unstable time and a defense against it With little faith in a future of climate change and economic anxiety many have turned to nostalgia to weather the present while powerful elites exploit it for their own gain An exploration into the politics of loss and yearning The Hours Have Lost Their Clock is an urgent call to take nostalgia seriously The very future depends on it **From the fleet in the fifties, a history of the Crimean war. Futuristic Cars and Space Bicycles Jeremy Withers, 2020-06-04 Given the extensive influence of the transport revolution on the past two centuries a time when trains trams omnibuses bicycles cars airplanes and so forth were invented and given science fiction's overall obsession with machines and technologies of all kinds it is surprising that scholars have not paid more attention to transportation in this increasingly popular genre Futuristic Cars and Space Bicycles is the first book to examine the history of representations of road transport machines in nineteenth twentieth and twenty first century American science fiction The focus of this study is on two machines of the road that have been locked in a constant often bitter struggle with one another the automobile and the bicycle With chapters ranging from the early science fiction of the pulp magazine era in the 1920s and 1930s to the postcyberpunk of the 1990s and more recent media of the 2000s such as web television zines and comics this book argues that science fiction by and large perceives the car as anything but a marvelous invention of modernity Rather the genre often scorns and ridicules the automobile and instead promotes more sustainable more benign more restrained technologies of movement such as the bicycle
