Thaddeus Metz, Joshua W. Seachris, 2023-11-30 Can human life be meaningful What does talk about life s meaning even mean What is God s role if any in a meaningful life These three questions frame this one of a kind debate between two philosophers who have spent most of their professional lives thinking and writing about the topic of life s meaning In this wide ranging scholarly conversation Professors Thaddeus Metz and Joshua W Seachris develop and defend their own unique answers to these questions while responding to each other s objections in a lively dialog format Seachris argues that the concept of life s meaning largely revolves around three interconnected ideas mattering purpose and sense making that a meaningful human life involves sufficiently manifesting all three and that God would importantly enhance the meaningfulness of life on each of these three fronts Metz instead holds that talk of life s meaning is about a variety of properties such as meriting pride transcending one s animal self making a contribution and authoring a life story For him many lives are meaningful insofar as they exercise intelligence in positive robust and developmental ways Finally Metz argues that God is unnecessary for an objective meaning that suits human nature Metz and Seachris develop and defend their own unique answers to these three questions while responding to each other s objections in a dialog format that is accessible to students though given their new contributions will be of great interest to scholars as well Key Features Offers an up to date scholarly conversation on life s meaning by two researchers at the forefront of research on the topic Provides a wide ranging yet orderly discussion of the most important issues Accessible for the student investigating the topic for the first time yet also valuable to the scholar working on life s meaning Includes helpful pedagogical features like Chapter outlines and introductions Annotated reading lists for both students and research level readers A glossary and Clear examples thought experiments narratives and cultural
