EU Conditionality in the Western Balkans Florian Bieber, 2018-12-07 This volume examines how European institutions the European Union in particular through its policy of conditionality have shaped the post conflict reconstruction of the Western Balkans From state building to democratization

and environmental policies this book explores whether and in what ways the EU has been successful in consolidating states and democracy in the Balkans In addition to requiring countries to be ready to join the European Union the EU has also set new conditions in an effort to become the prime international organization involved in stabilizing the Western Balkans after the wars of the 1990s Its record has been mixed the conditions of the EU have often been haphazard and were frequently not followed through In addition enlargement towards the Western Balkans has been slow and marred by open questions over the stability of some countries in the region This volume assesses the EU s struggle to transform the societies through conditionality and whether the offer of EU membership is enough to build stable democracies This book was published as a special issue of Europe Asia Studies *Managing Ethnic Diversity in Russia* Oleh Protsyk, Benedikt Harzl, 2013-05-07 This

book provides a comprehensive overview of the norms and practices of ethnic diversity management in the Russian Federation in the last twenty years It examines the evolution of the legal framework the institutional architecture and the policies intended to address the large number of challenges posed by Russia s immense ethno cultural diversity It analyses the legal social and political changes affecting ethno cultural relations and the treatment of ethnic minorities and assesses how ethnic diversity both influences and is shaped by transformations in Russian politics and society It concludes by appraising how successful or otherwise policies have been so far and by outlining the challenges still faced by the Russian Federation The Europeanisation of the Western Balkans Jelena Džankić, Soeren Keil, Marko Kmezić, 2018-09-21 This volume casts a fresh look on how the political spaces of the Western Balkan states Croatia Bosnia and Herzegovina Serbia Montenegro Kosovo Macedonia and Albania are shaped governed and transformed during the EU accession process The contributors argue that EU conditionality in the Western Balkans does not work effectively in terms of social change because rule transfer remains a contested business due to veto players on the ground and strong legacies of the past The volume examines specific policy areas salient in the enlargement process and to a different degree incorporated in the accession criteria as well as EU foreign policy in the spheres of post conflict stabilisation democratization and the rule of law promotion

Ethnic Struggle, Coexistence, and Democratization in Eastern Europe Sherrill Stroschein, 2012-05-28 In societies divided on ethnic and religious lines problems of democracy are magnified particularly where groups are mobilized into parties With the principle of majority rule minorities should be less willing to endorse democratic institutions where their parties persistently lose elections While such problems should also hamper transitions to democracy several diverse Eastern European states have formed democracies even under these conditions In this book Sherrill Stroschein argues that sustained protest and contention by ethnic Hungarians in Romania and Slovakia brought concessions on policies that they could not achieve through the ballot box in contrast to Transcarpathia Ukraine In Romania and Slovakia contention during the 1990s made each group accustomed to each other s claims and aware of the degree to which each could push its own Ethnic contention became a de facto deliberative process that fostered a moderation of group stances allowing democratic

consolidation to slowly and organically take root *Political Participation of Minorities* Marc Weller, Katherine Nobbs, 2010

This Commentary provides the reader with a review of international standards and practice relating to the political participation of minorities. Political participation has been increasingly recognized as a foundational issue in the debate about minority rights. It is argued that minorities are more likely to feel co-ownership in the state if they have the opportunity to participate freely and effectively in all aspects of its governance and that sustained and meaningful engagement will guard against the sense of alienation and exclusion among minorities that often emerges in ethnically divided societies. Taking as its starting point the two most important standard setting documents in the field, the Lund Recommendations on the Effective Participation of National Minorities in Public Life developed by the Organization for Security and Cooperation in Europe and the Council of Europe's Thematic Commentary on the Issue of Political Participation of Minorities, the Commentary locates the international legal entitlement to political participation within the wider context of the right to democratic governance. It also considers effective participation in relation to the right to full and effective equality as well as the legal entrenchment of these provisions and implementation mechanisms. Individual chapters then consider each of the principal mechanisms aimed at enhancing political participation ranging from procedures covering minority representation in political institutions to consultative mechanisms and autonomy solutions. The Commentary draws on a team of experts all of whom are recognized authorities in this specialized area of minority issues.

Europe's Constitutional Mosaic Neil Walker, Josephine Shaw, Stephen Tierney, 2011-06-14

This book emerged from an extended seminar series held in Edinburgh Law School which sought to explore the complex constitutional arrangements of the European legal space as an interconnected mosaic. There has been much recent debate concerning the constitutional future of Europe focusing almost exclusively upon the EU in the context of the failed Constitutional Treaty of 2003 and the subsequent Treaty of Lisbon. The premise of the book is that this focus while indispensable offers only a partial vision of the complex constitutional terrain of contemporary Europe. In addition, it is essential to explore other threads of normative authority within and across states embracing internal challenges to state level constitutional regimes, the growing jurisprudential assertiveness of the Council of Europe regime through the ECHR and various democracy building measures as well as Europe's ever thicker relations both with its border regions and with broader international institutions especially those of the United Nations. Together these developments create increasingly dense networks of constitutional authority within the European space. This fluid and multi-dimensional dynamic is difficult to classify and indeed may seem in many ways impenetrable but that makes the explanatory challenge all the more important and pressing. Without this fuller picture it becomes impossible to understand the legal context of Europe today or the prospects of ongoing changes. The book brings together a range of experts in law, legal theory and political science from across Europe in order to address these complex issues and to supply illustrative case studies in the topical areas of the constitutionalisation of European labour law and European criminal law.

European Politics Colin Hay, Anand

Menon, 2007-01-18 This textbook blends an analysis of individual nation states with an examination of the critical issues that confront them all and which are addressed comparatively. It takes account of both the national and transnational factors that affect and are affected by politics in Europe, notably European integration and globalisation. The book includes chapters on all the major issues confronting students of politics in Europe, organised into four sections. Section One provides basic information and details of essential debates concerning the states of Europe and the European Union. Section Two presents comparative chapters on the key features of European politics. These provide a sense of the major areas of continuity and change across Europe as a whole. Section Three again presents explicitly comparative chapters outlining the developments in specific policy sectors. Finally, Section Four outlines the nature of the external relations of Europe. This book is supported by a cutting edge Online Resource Centre. Student resources: Interactive map of Europe with facts, key dates and web links for 26 countries. BRAND NEW HE ONLINE RESOURCE: Multiple Choice Questions for each chapter, Flashcard glossary, Lecturer resources, PowerPoint slides for each chapter.
