Oliver Mowat's Ontario Donald Swainson,1972 Oliver Mowat's Ontario Donald Swainson,1972 **Papers and Records - Ontario Historical Society** Ontario Historical Society,1918 *The Politics of Federalism* Chris Armstrong,1981-12-15 The British North America Act of 1867 fashioned a Canadian federation which was intended to be a highly centralized union led by a powerful national government Soon after Confederation however the government of Ontario took the lead in demanding a greater share of the power for the provinces and it has continued to press this case Professor Armstrong analyses the forces which promoted decentralization and the responses which these elicited from the federal government He explains Ontario s reasons for pursuing this particular policy from 1867 to the Second World War The author s sources are the private papers of federal and provincial premiers and other contemporary political figures government publications parliamentary debates and newspapers He has identified and developed three separate but related themes the dynamic role played by private business interests in generating intergovernmental conflicts Ontario s policy of promoting its economic growth by encouraging the processing of its resources at home and the tremendous influence exerted by increasing urbanization and industrialization on the growth of the responsibilities of the provinces During the 1930s efforts to restructure the federal system were rejected by Ontario because it preferred to maintain the status quo and was unsympathetic to greater equalization between the regions Consequently Ontario took a leading part in opposing the redivision of powers recommended by the Royal Commission on Dominion Provincial Relations in 1940 This book provides part of the historical context into which current debates on the question of federalism may be fitted It thus will be of importance and interest to historians students of Canadian history and the general reader alike Ontario Historical Studies Series Themes **Dictionary of Canadian Biography / Dictionnaire Biographique Du Canada** Ramsay Cook,Jean Hamelin,1966 Internet version contains all the information in the 14 volume print and CD ROM versions fully searchable by keyword or by browsing the name index **White Man's Law** Sidney L. Haring,1998-01-01 In this sweeping re investigation of Canadian legal history Haring shows that Canada has historically dispossessed Aboriginal peoples of even the most basic civil rights **Federalism in Canada and Australia** W.H. Heick,2010-10-30 This book is a comparison of the history and politics of two sister societies comparing Canada with Australia rather than as is traditional with the United Kingdom or the United States It is representative of a particular interest in promoting more contact and exchange among Canadian and Australian scholars who were investigating various features of the two societies Because some of them were individually involved in aspects of federalist studies an examination of the early evolution of federalism in what once were the two sister dominions seemed quite an appropriate area in which to begin comparisons The book discusses Canadian federalism from about 1864 to 1880 and Australian federalism from about 1897 to 1914 It examines the background and changes wrought on early Canadian federalism and early Australian federalism **Faithful Intellect** Neil

Semple,2005-01-28 In 1850 Samuel Nelles a well educated Methodist minister was selected to resuscitate the debt ridden and declining Victoria University As principal and later as president and chancellor he fought against shortsighted government educational policies while making the school into one of the premier universities in Canada A true academic Nelles believed in the importance of testing assumed laws dogmas and creeds However his pursuit of intellectual inquiry was always guided by a rational faith in God as well as the expectation of the future greatness and goodness of humanity Faithful Intellect expands the reader s understanding of many of the key intellectual religious and political concerns of nineteenth century English Canada while providing an essential contribution to the study of Canada s system of higher education

Timothy Warren Anglin, 1822-96 William M. Getting it Wrong Paul Romney,1999-01-01 This provocative book explains how divergent views of Canada s past have sown dissension between Qu b cois and other Canadians disclosing a lost middle ground between the Canadian nationalist and Qu bec nationalist visions of Canadian history *Minorities and Reconstructive Coalitions* Willie Gin,2017-07-06 Through comparative and historical analysis the book shows that reconstructive coalitions such as labor and pan Christian moral movements affect minority incorporation and bring Catholics and Protestants together under new identities and

Formidable Heritage Jim Mochoruk,2004-06-03 Canadians have an ambivalent feeling towards the North Although climate and geography make our northern condition apparent Canadians often forget about the north and its problems Nevertheless for the generation of historians that included Lower Creighton and Morton the northern rivers lakes forests and plains were often seen as primary characters in the drama of nation building W L Morton even went so far as to write that the main task of Canadian life has been to make something of that formidable heritage of the northern Canadian shield For many politicians and developers to make something of the North came to mean thinking of the North as an empty hinterland waiting to be exploited and today hydroelectric projects mining milling pulp and paper and other industries have changed much of the North beyond recognition One of the first parts of the North to be aggressively industrialized was northern Manitoba When all of Manitoba was given in 1670 to a group of entrepreneurs a precedent was set that was replicated throughout the province s history After the province entered confederation in 1870 provincial politicians and business leaders began to look to the northern resources as a new key to the province s economic development Particularly after 1912 they saw resource development in the North as a strategy to expand the provincial economy from its agricultural base In Formidable Heritage Jim Mochoruk shows how government and business worked together to transform what had been the exclusive fur trading preserve of the Hudson s Bay Company into an industrial hinterland He follows the many twisting paths established by developers and politicians as they chased their goal of economic growth and recounts the ultimate costs of development in economic ecological and political terms *Labouring Children* Joy Parr,2022-11-16 *Labouring Children* 1980

is a study of child immigrants based on numerous original sources and presents new views on childhood social work and Canadian rural communities Between 1868 and 1925 eighty thousand British boys and girls mostly under fourteen were apprenticed as agricultural labourers and domestic servants in rural Canada A surprising feature is the involvement of the Evangelicals who considered that they were giving children from poor homes a fresh start in the world yet who were otherwise famed for their emphasis on the virtues of close family ties and conversely the parents of the children largely labourers who were at the time regarded as too ground down by economic imperatives to find time for affection but who expended a great deal of effort to maintain contact across imposing distances This book begins with an analysis of the growing child's place within these families and looks at the alternating prominence of demands for wage labour and fear of the dangerous classes which influenced emigration policy idealism The demand for child labour in rural Canada and the work of the children is described in an analysis of the apprenticeship system The book also illustrates how the British child immigrants were household rather than family members in Canada and outsiders in the rural schoolroom as well As adults they did not generally become farmers but entered factory jobs service employment in urban Canada migrated to the US or returned to Britain Finally the book discusses the ending of the movement after World War I as Canadian social workers echoing British socialists argued that even the children of the poor deserved fourteen years of growing and schooling before they were obliged to sell their labour Incorporating much rich documentation from numerous case records and presenting a new quantitative use of some of those records this book sheds light on a dark corner of the Canadian migrant experience
