Omdurman 1898 Kitcheners Victory In The Sudan:

Omdurman 1898 Donald F. Featherstone, 2005 Omdurman was one of the great desert battles of the Victorian era which concluded the conquest of the Dervish Empire and avenged the death of General Gordon at Khartoum This dramatic conflict witnessed hordes of native warriors set against British discipline and firepower gunboats on the Nile a dramatic cavalry charge and Kitchener the Sirdar as conqueror This book explores the events weaponry and leaders of both sides and accompanying illustrations and colorful graphics bring the whole campaign vividly to life *British Military Operations in Egypt and the Sudan* Harold E. Raugh Jr., 2008-05-02 The British Army's campaigns in Egypt and the Sudan from 1882 to 1899 were among the most dramatic and hard fought in British military history In 1882 the British sent an expeditionary force to Egypt to quell the Arabic Revolt and secure British control of the Suez Canal its lifeline to India The enigmatic British Major General Charles G Gordon was sent to the Sudan in 1884 to study the possibility of evacuating Egyptian garrisons threatened by Muslim fanatics the dervishes in the Sudan While the dervishes defeated the British forces on a number of occasions the British eventually learned to combat the insurrection and ultimately largely through superior technology and firepower vanquished the insurgents in 1898 British Operations in Egypt and the Sudan A Selected Bibliography enumerates and generally describes and annotates hundreds of contemporary current and hard to find books journal articles government documents and personal papers on all aspects of British military operations in Egypt and the Sudan from 1882 to 1899 Arranged chronologically and topically chapters cover the various campaigns focusing on specific battles leading military personalities and the contributions of imperial nations as well as supporting services of the British Army This definitive volume is an indispensable reference for researching imperialism colonial history and British military operations leadership and tactics Slaves of Fortune Ronald M. Lamothe, 2011 The Anglo Egyptian re conquest of Sudan Churchill's River War has been well chronicled from the British point of view but we still know little about its front line troops the Sudanese soldiers of the Egyptian Army Making use of unpublished primary sources and published material located in the United Kingdom and Sudan Slaves of Fortune provides an historiographic correction It argues that nineteenth century Sudanese slave soldiers were social beings and historical actors shaping both European and African destinies just as their own lives were being transformed by imperial forces Jacket *Confronting Colonial Objects* Carsten Stahn, 2024-05-23 The treatment of cultural colonial objects is one of the most debated questions of our time Calls for a new international cultural order go back to decolonization However for decades the issue has been treated as a matter of comity or been reduced to a Shakespearean dilemma to return or not to return Confronting Colonial Objects seeks to go beyond these classic dichotomies and argues that contemporary practices are at a tipping point The book shows that cultural takings were material to the colonial project throughout different periods and went far beyond looting It presents micro histories and object biographies to trace recurring justifications and contestations of takings and returns while outlining the complicity of anthropology racial

science and professional networks that enabled colonial collecting The book demonstrates the dual role of law and cultural heritage regulation in facilitating colonial injustices and mobilizing resistance thereto Drawing on the interplay between justice ethics and human rights Stahn develops principles of relational cultural justice He challenges the argument that takings were acceptable according to the standards of the time and outlines how future engagement requires a re invention of knowledge systems and relations towards objects including new forms of consent provenance research and partnership and a re thinking of the role of museums themselves Following the life story and transformation of cultural objects this book provides a fresh perspective on international law and colonial history that appeals to audiences across a variety of disciplines This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations

Encyclopedia of the Age of Imperialism, 1800-1914 Carl C. Hodge, 2007-11-30 In 1800 Europeans governed about one third of the world's land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism

The First Jihad Daniel Allen Butler, 2020-01-10 A well researched account of the nineteenth century Sudanese cleric who led a bloody holy war from a New York Times bestselling author Publishers Weekly Before bin Laden al Zarqawi or Ayatollah Khomeini there was the Mahdi the Expected One who raised the Arabs in pan tribal revolt against infidels and apostates in Sudan Born on the Nile in 1844 Muhammed Ahmed grew into a devout charismatic young man whose visage was said to have always featured the placid hint of a smile He developed a ferocious resentment however against the corrupt Ottoman Turks their Egyptian lackeys and finally the Europeans who he felt held the Arab people in subjugation In 1880 he raised the banner of holy war and thousands of warriors flocked to his side The Egyptians dispatched a punitive expedition to the Sudan but the Mahdist forces destroyed it In 1883 Col William Hicks gathered a larger army of nearly ten thousand men Trapped by the tribesmen in a gorge at El Obeid it was massacred to a man Three months later another British led force met disaster at El Teb This was followed by the infamous conflict at Khartoum during which a treacherous native or patriot depending upon one's point of view let the Madhist forces into the city resulting in the horrifying death of Gen Charles Chinese Gordon at the hands of jihadists In today's world the Mahdi's words have been repeated almost verbatim by the jihadists who have attacked New York Washington Madrid and London and continue to wage war from the Hindu Kush to the Mediterranean Along with Saladin the Mahdi stands as an Islamic icon who launched his own successful crusade against the West This deeply researched work reminds us that the clash of civilizations

that supposedly came upon us in September 2001 in fact began much earlier and lays important tracks into the study of terror fundamentalism and the early clash between Islam and Christianity Publishers Weekly

The Sirdar and the Khalifa Mark Simner, 2017-06-29 The first major in depth examination of Kitchener's campaign in the Sudan for decades Written in a lively manner as if the author witnessed events for himself Extensive use of primary and period sources which present the reader with greater detail on the subject than ever before A large number of period images and maps many of which have not appeared in print for over 100 years Perhaps one of the most dramatic events of the late Victorian period was the death of General Charles Chinese Gordon at the hands of the Mahdi's fanatical warriors as they finally broke their way into the Sudanese city of Khartoum The story is well known recounted in numerous books and celebrated in the film Khartoum 1966 starring Charlton Heston However what is perhaps less well known is the subsequent and far more successful campaign fought by the British against the Mahdi's successor the Khalifa by General Kitchener the Sirdar of the Egyptian Army over a decade later The Sirdar and the Khalifa Kitchener's Re conquest of Sudan 1896-98 examines Kitchener's belated campaign to reconquer the Sudan and avenge the death of General Gordon a war that began in 1896 and ended less than two years later with the epic Battle of Omdurman The true story of the Omdurman campaign is a classic tale of British soldiers battling a fanatical Dervish enemy in the harsh terrain of the desert It is also the campaign that made Kitchener a household name one that would last to this very day 68 colour illustrations and 7 maps

Networks of Domination Paul MacDonald, 2014-05-15 In the nineteenth century European states conquered vast stretches of territory across the periphery of the international system Much of Asia and Africa fell to the armies of the European great powers and by World War I those armies controlled 40 percent of the world's territory and 30 percent of its population Conventional wisdom states that these conquests were the product of European military dominance or technological superiority but the reality was far more complex In Networks of Domination Paul MacDonald argues that an ability to exploit the internal political situation within a targeted territory not mere military might was a crucial element of conquest European states enjoyed greatest success when they were able to recruit local collaborators from within the society and exploit divisions among elites Different configurations of social ties connecting potential conquerors with elites were central to both the patterns of imperial conquest and the strategies conquerors employed MacDonald compares episodes of British colonial expansion in India South Africa and Nigeria during the nineteenth century and also examines the

contemporary applicability of the theory through an examination of the United States occupation of Iraq The scramble for empire fundamentally shaped and continues to shape the international system we inhabit today Featuring a powerful theory of the role of social networks in shaping the international system Networks of Domination bridges past and present to highlight the lessons of conquest *Nile River Gunboats 1882-1918* Angus Konstam, 2016-10-20 For more than 30 years the Nile river gunboat was an indispensable tool of empire policing the great river and acting as floating symbols of British imperial power They participated in every significant colonial campaign in the region from the British invasion of Egypt in 1882 to the Battle of Omdurman in 1898 when Britain finally won control of the Sudan After that the gunboats helped maintain British control over both Egypt and the Sudan and played a key role in safeguarding British interests around the headwaters of the Nile a region hotly contested by several European powers Featuring specially commissioned artwork this comprehensive volume offers a detailed analysis of the Nile river gunboats entire career from policing British colonial interests along the great river to defending Egypt against the Ottoman Turks in World War I **Sudan** Edward M. Spiers, 2013-07-04 In 1898 Kitchener's Anglo Egyptian army defeated the armies of dervishes at the battle of Omdurman To commemorate the event 11 historians have produced a reappraisal of the reconquest and its international repercussions They examine some of the policies personalities and issues involved **Churchill, Master and Commander** Anthony Tucker-Jones, 2021-11-25 Masterful research impeccable detail with a beautifully flowing narrative of which Churchill himself would have been proud Professor Peter Caddick Adams From his earliest days Winston Churchill was an extreme risk taker and he carried this into adulthood Today he is widely hailed as Britain's greatest wartime leader and politician Deep down though he was foremost a warlord Just like his ally Stalin and his arch enemies Hitler and Mussolini Churchill could not help himself and insisted on personally directing the strategic conduct of World War II For better or worse he insisted on being political master and military commander Again like his wartime contemporaries he had a habit of not heeding the advice of his generals The results of this were disasters in Norway North Africa Greece and Crete during 1940-41 His fruitless Dodecanese campaign in 1943 also ended in defeat Churchill's pig headedness over supporting the Italian campaign in defiance of the Riviera landings culminated in him threatening to resign and bring down the British Government Yet on occasions he got it just right his refusal to surrender in 1940 the British miracle at Dunkirk and victory in the Battle of Britain showed that he was a much needed decisive leader Nor did he shy away from difficult decisions such as the destruction of the French Fleet to prevent it falling into German hands and his subsequent war against Vichy France In this fascinating new book acclaimed historian Anthony Tucker Jones explores the record of Winston Churchill as a military commander assessing how the military experiences of his formative years shaped him for the difficult military decisions he took in office This book assesses his choices in some of the most controversial and high profile campaigns of World War II and how in high office his decision making was both right and wrong **Winston Churchill Soldier** Douglas S.
