Secular Miracle Religion Politics And Economic Policy In Iran:

The Secular Miracle 'Alī Rāhnamā, Farhād Nu'mānī, 1990 **The Secular Miracle** 'Alī Rāhnamā, 1990 *Iran's Struggle for Economic Independence* Evaleila Pesaran, 2011-04-25 This book analyses the dynamics of economic reform in the Islamic Republic of Iran discussing the internal debates and external factors that have influenced this post revolutionary state's struggle to achieve the revolutionary goal of economic independence over the period 1979-2010 *Politics of the Dispossessed* Hafizullah Emadi, 2001-08-30 This study provides a comprehensive analysis of state-society development in the most volatile region of the world. In the Middle East various anti-systemic movements and radical Islam often clashed and resisted the political-cultural-economic and military domination of the region by the world's major imperial powers. Emadi investigates state revolution and development in the Middle Eastern states of Afghanistan, Iran, Iraq and Syria in the immediate post-World War II period. Maintaining that the state is an instrument of class domination exhibiting a certain degree of autonomy in the creation and design of domestic development programs, he details the role of class in an attempt to provide a better understanding of the diverse factors at work. *Politics of the Dispossessed* provides an alternative analysis of development in regional politics and its context in world politics, aspects that are generally neglected by most mainstream studies. It examines state formation, internal development strategies and how class conflict and ideology led to class alliance on an international basis as well as the external interference in the internal affairs of these societies. It also explores the process of political and ethnic integration of the Middle East into the global economic system and the resulting counter-strategies of the nationalist and Islamic resistance to the increasing superpower domination of the international system.

Iran's Political Economy since the Revolution Suzanne Maloney, 2015-08-20 This book provides a comprehensive overview of Iran's political economy since the 1979 revolution and examines the country's energy sector *The Iran National Front and the Struggle for Democracy* Masoud Kazemzadeh, 2022-05-09 The Iran National Front and the Struggle for Democracy 1949-Present explores the activities of the Iran National Front (INF). The INF is a coalition of parties, groups and individuals and Iran's oldest and main pro-democracy political party. This book presents a political history of the INF from 1949 to the present day. It discusses the current platform of the INF, its leadership, policies, strategies as well as criticisms and weaknesses. The volume draws on a rich range of primary sources: INF documents and interviews including translated transcripts with the top leader of the INF. As it is one of the major political parties opposing the current regime in Iran, the book also examines the current situation in the country. It provides an analysis of the nature of the political systems under the Shah and the Islamic Republic.

Superstition as Ideology in Iranian Politics Ali Rahnema, 2011-06-06 A superstitious reading of the world based on religion may be harmless at a private level, yet employed as a political tool, it can have more sinister implications. As this fascinating book by Ali Rahnema, a distinguished Iranian intellectual, relates, superstition and mystical beliefs have endured and influenced ideology and political strategy in Iran from the founding of the Safavid dynasty.

in the sixteenth century to the present day As Rahnema demonstrates through a close reading of the Persian sources and with examples from contemporary Iranian politics it is this supposed connectedness to the hidden world that has allowed leaders such as Muhammad Reza Shah Pahlavi and Mahmud Ahmadinejad to present themselves and their entourage as representatives of the divine and their rivals as the embodiment of evil *Power, Islam, and Political Elite in Iran* Eva Rakel,2008-11-30 The Iranian Islamic revolution brought about a political system based on a combination of state institutions that derive their legitimacy from Islamic law and republican institutions legitimized by the people As there are no legal political parties in the Islamic Republic of Iran political factions represent the varying ideological and material interests of members of the political elite and their supporters This book analyzes the rivalries between the political factions and their related state institutions and the impact of the dynamics of factionalism on domestic economic and socio cultural and foreign policy formulation It shows that tensions inherent to the structure of state institutions and factional rivalries slow down the process of democratization and economic reforms in the Islamic Republic of Iran **Revolutionary Horizons** John Calabrese,2016-07-27 This study examines the sources characteristics and implications of post Khomeini Iran s foreign policy It concentrates on two geographic zones of interest one composed of the countries which surround Iran the other comprised of Islamic governments and movements beyond Iran s borders It argues that fears not just ambitions have yielded a policy increasingly co operative especially in the economic sphere yet in some respects still confrontational **Between Dissent and Power** K. Teik,V. Hadiz,Y. Nakanishi,2014-06-29 This study examines the collective progression of Islamic politics between points of dissent and positions of power It brings about a more a serious understanding of Islamic politics by critically tracing the pathways by which Islamic politics has been transformed in the Middle East and Asia **Islamic Finance in the Global Economy** Ibrahim Warde,2010-05-15 Islamic finance is growing at an astonishing rate and is now a 1200 billion industry with operations in over 100 countries This book explains the paradox of a system rooted in the medieval era thriving in the global economy Coverage is exhaustively comprehensive defining Islamic finance in its broadest sense to include banks mutual funds securities firms and insurance or takaful companies The author places Islamic finance in the context of the global political and economic system and covers a wide variety of issues such as the underlying principles of Islamic finance the range of Islamic financial products and country differences He also discusses a number of economic political regulatory and religious concerns and challenges This second edition has been completely revised and updated to take into account the great changes and developments in the field in recent times It includes the impact of the 9 11 and 7 7 terrorist attacks on the industry the new forms of interaction with Western financial institutions the emergence of innovative products such as sukuk attempts by a broad range of financial centres including Kuala Lumpur London Singapore Bahrain and Dubai to become global hubs of Islamic finance and the repercussions of the 2008 global financial meltdown on Islamic institutions Christianity in Persia and the Status of Non-Muslims in Modern Iran Christian A. Van Gorder,2010-01-05

Writing on an often overlooked section of contemporary Persian culture A Christian Van Gorder provides a comprehensive and readable introduction to the experience of Christians and other non Muslims in Iran throughout history and into the present day Van Gorder gives a fascinating account of the history of Christianity in Persia By debunking the common misconceptions and stereotypes driven by recent political events and the media he shows the current relationship that Muslim majority in Iran has taken toward people of other faiths

Marxist Historiographies Q. Edward Wang, Georg G. Iggers, 2015-07-16 Marxist Historiographies is the first book to examine the ebb and flow of Marxist historiography from a global and cross cultural perspective Since the eighteenth century few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed Edited by two highly respected authors in the field this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa Asia North and South America and the Middle East Rather than presenting the chapters geographically it is structured with respect to how Marxist influence was shown in the works of historians in a particular area This title takes a dual approach to the subject some chapters are national in scope addressing the Marxist impact on historical practices within a country whereas others deal with the varied expressions of Marxist historiography throughout a wider region Taking a truly global perspective on this topic Marxist Historiographies demonstrates clearly the breadth and depth of Marxism's influence in historical writing throughout the world and is essential reading for all students of historiography

The Baha'is of Iran, The Baha'is of Iran Dominic Parviz Brookshaw, Seena B. Fazel, 2012-10-02 The Baha'i community of Iran is the country's largest non Muslim religious minority This collection of essays presents a comprehensive study of the social and historical development of the Baha'i community and its role in shaping modern Iran Central to this study is the pioneering character of the Baha'i community in the late 19th and early 20th century with chapters examining the role of women in the Baha'i community the impact of Baha'i run schools on Iranian society Baha'i contributions to public health initiatives and the influence of Baha'i thought and the actions of individual Baha'is on the Constitutional Revolution of 1906-1911 Conversion to the Baha'i Faith is another important theme as contributors investigate the phenomenon of large scale conversion to the Baha'i Faith from the Jewish and Zoroastrian communities Finally although persecution of the Baha'is has drawn the attention of the Western media until now few scholars working in the field of Iranian studies have chosen to write on the history or details of this persecution Here five prominent figures in the field redress this balance and look at different aspects of this persecution including its historical background the attitude of secular Iranians persecution before and after the Islamic Revolution of 1979 and human rights perspectives This book will be of interest to students and scholars of Iranian studies Middle Eastern studies and comparative religion and with many chapters authored by leading academics in Iranian studies The Baha'is of Iran addresses both a gap in academic literature on the Baha'i Faith and in the study of modern Iran in general

Israel and the Cold War

Howard A. Patten, 2013-02-12 In the wake of its creation in 1948 the state of Israel was confronted with the challenge of establishing foreign relations with key players in the region in the face of opposition from most of the Arab states Howard Patten explores the genesis and development of Israel's foreign relations with Iran Turkey and Ethiopia known as the Policy of the Periphery Highlighting the pragmatism and Realpolitik at the heart of this policy Israel and the Cold War analyses the national interests and mutual concerns which shaped relations and strategy at the United Nations during the critical moments of the establishment of the State of Israel and the following forty years before the ramifications of the Iranian Revolution became apparent During this period Israel made efforts to create pragmatic alliances behind closed doors at the UN even as ambivalence and hostility reigned in the public sphere Patten thus examines the implications that the Cold War system of ideological combat had on these attempts to maintain implicit yet cordial understandings as world events such as the Suez Crisis of 1956 successive crises over Cyprus and the Ethiopian and Iranian Revolutions tested the Policy of the Periphery Israel and the Cold War traces the development of Israel's relations with these three states from their initial beginnings to consolidation then rejection and subsequent efforts to realign Patten highlights the extensive diplomatic and military reverberations that occurred throughout the region and the way in which these were played out at the UN Based primarily on UN documents this book is a vital primary resource for those researching the period in question and the formulation of foreign policy in the Middle East

A History of Social Justice and Political Power in the Middle East Linda T. Darling, 2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government's justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol

painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people's political culture and expectations of government The book demonstrates the Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism Iran Anoushiravan Ehteshami, 2017-02-03
