

Disclosure of Contingent Liabilities

<i>Occurrence of event</i>	<i>Result in Loss/Liabilities</i>	
Virtually certain	It is certain	It is not a contingent liability and recognised as liability in financial statements
Probable	Probability of occurrence of loss is more than non-occurrence	It is reported as accrued liability in financial statements.
Possible	Probability of occurrence of loss is not more than non-occurrence	It is disclosed by way of note to reported financial statements
Remote	Possibility of occurrence of an outcome is very remote	Possibility is so remote that its disclosure would be misleading, hence ignored.

Example of Contingent Liabilities

Royal Steel Ltd. produced steel cupboards in December '08 in certain number of batches. Out of these, few batch production is delivered in January '09. A defect was found in Feb.'09 for material used and these were insignificant returns so far and same is also expected for future. The accounting year ends on March 31, 2009. State implications on financial statements reported for the year ended on 31.3.2009.

Here, it seems to be a remote contingent liability and hence no disclosure in financial reports is required.

Personal manager of Balam Furniture Ltd. informed management about a dangerous area in the second floor of a factory in October 2008. The management also agreed to look after it. But no repair/renovation was made. One worker slipped and fell 20 feet breaking an arm and leg on Jan. 10, 2009. On February 7, 2009 the worker filed a suit against company for Rs. 3,00,000. The lawyer for company advised that company was negligent and the worker was also negligent as he knew that floor was not safe; hence, claim to the extent of Rs. 2,00,000 could not be avoided. The accounting year of the company ends on March 31, 2009. State implications on financial statements to be reported for the year ended on 31.3.2009.

organisational managers Although no prior knowledge of environmental accounting is necessary to understand the critical issues at stake academic accountants will also find that the book provides a useful introduction to the topic The goals of the book are to discuss and illustrate contemporary conceptual approaches to environmental accounting to make readers aware of crucial controversial topics and to offer practical examples of how the concepts have been applied throughout Europe North America and Australia In order to increase the usefulness of the book for relevant courses each chapter concludes with a set of questions for review This book is essential reading for all those who are interested in how environmental issues influence accounting A solutions manual is available on request with the purchase of this book

Corporate Governance and Sustainability Suzanne Benn, Dexter Dunphy, 2013-01-11 In recent years as corporations and governments have increasingly been confronted with managing the expectations of a society newly alerted to the social and environmental risks of economic development recognition is dawning that achieving a sustainable world is dependent upon the democratic management and equitable distribution of these risks for now and for the future This book the first to explore the themes of corporate governance and sustainability argues that a better system of governance on a number of levels holds the key Contributed to and edited by a distinguished international team this book recognizes the complex and contested nature of both sustainability and governance and that these key concepts have been redefined considerably over time As sustainability poses new and major challenges for the theory and practice of corporate governance this book ideal for postgraduate students of business and management identifies and addresses these challenges

Alternatives for Managing the Nation's Complex Contaminated Groundwater Sites National Research Council, Division on Earth and Life Studies, Water Science and Technology Board, Committee on Future Options for Management in the Nation's Subsurface Remediation Effort, 2013-03-27 Across the United States thousands of hazardous waste sites are contaminated with chemicals that prevent the underlying groundwater from meeting drinking water standards These include Superfund sites and other facilities that handle and dispose of hazardous waste active and inactive dry cleaners and leaking underground storage tanks many are at federal facilities such as military installations While many sites have been closed over the past 30 years through cleanup programs run by the U S Department of Defense the U S EPA and other state and federal agencies the remaining caseload is much more difficult to address because the nature of the contamination and subsurface conditions make it difficult to achieve drinking water standards in the affected groundwater Alternatives for Managing the Nation's Complex Contaminated Groundwater Sites estimates that at least 126 000 sites across the U S still have contaminated groundwater and their closure is expected to cost at least 110 billion to 127 billion About 10 percent of these sites are considered complex meaning restoration is unlikely to be achieved in the next 50 to 100 years due to technological limitations At sites where contaminant concentrations have plateaued at levels above cleanup goals despite active efforts the report recommends evaluating whether the sites should transition to long term management where risks would be monitored and harmful exposures
