Security Challenges In The Mediterranean Region:

Security Challenges in the Mediterranean Region Roberto Aliboni, Tim Niblock, 1996 This book sets out to identify the challenges to western security emerging from the Mediterranean area **Troubled Waters** James Black, 2017 New challenges are reshaping the international order requiring government leaders to consider new strategies and tools that integrate diplomatic economic and military instruments of power Nowhere is this more evident than around the Mediterranean Sea which has progressively returned as a region of global strategic interest where political tensions armed conflict economic and social instability and transnational criminal networks demand solutions that cross traditional institutional boundaries of domestic and international policy making The geo political situation on the southern coast of the Mediterranean has radically changed and new challenges have emerged for the European Union United States and beyond Long lasting issues such as the Israeli Palestinian conflict or the tensions between Turkey and Greece continue to be present but new destabilising factors have emerged in the region following the Arab spring of 2011 The US EU and NATO continue to maintain a significant military presence in and around the Mediterranean but military capabilities must be nested within a whole of government international approach The challenges in this region demand unprecedented levels of civil military and intergovernmental cooperation In this context RAND established the Mediterranean Foresight Forum MFF in 2015 to support the development of comprehensive integrated civil military responses to complex regional challenges through an innovative combination of research scenario based sensitivity analysis and strategic level exercises Publisher s web site

Euro-Mediterranean Security: A Search for Partnership Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU's approach towards security in the Mediterranean After examining the EU's interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro-Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and cooperative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio-economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy
