Security Donald J. Horan, 2024-11-01 The Retailer's Guide to Loss Prevention and Security is an introduction to retail security. It covers the basic principles, the various techniques and technologies available, and the retailer's interaction with the police, courts, and the law. Donald J. Horan, President of Loss Control Concepts Ltd, lends to this book his vast experience in the retail business and, as a loss control consultant designated a Certified Protection Professional by the American Society for Industrial Security, he is also a member of the International Association of Professional Security Consultants (IAPSC). He has directed and managed retail loss prevention programs all over the U.S. for major department stores and specialty chains and has provided his expertise to a host of client companies during his tenure with the National Loss Prevention Bureau. Donald Horan's practical experience fills this book with all the tips, strategies, and procedures you need to create an effective loss prevention program. Owners, managers, and security managers of small and medium-sized retail operations, security agencies, individuals, institutions, and companies that give seminars on the topic, and personnel in law enforcement and forensics will find this an essential text. It will be extremely helpful to senior corporate executives to whom the loss prevention security function reports because it is their responsibility to determine whether loss prevention practices conform to the long-term goals of the company. Growing retail businesses and those contemplating future acquisitions for expansion will find the work invaluable. The same can be said for turn-around ventures or downsized businesses emerging from reorganization. The book would also be easily adaptable for use in undergraduate courses in an accredited criminal justice or retail management program.

Loss Prevention and Security Procedures Robert J. Fischer, Richard J. Janoski, 1999-12-13 This manual is intended to assist executive officers and loss prevention specialists in dealing with loss. While losses in an organization may originate from a variety of threats, including natural disasters, many assets are threatened by man in the forms of violence, theft, and fraud.

Loss Prevention and the Small Business John Robert Wyman, J. Robert Wyman, 1999-07-20 A reference for security professionals who work in or advise small businesses. It addresses the reality of shoplifting, fraud, and embezzlement, showing how each incremental loss eats away at profit and success and discusses how to develop and maintain a loss prevention strategy.
